

MAYOR KILLS MOVE FOR PIPE COMBINE

Terra Cotta "Trust" Ordinance Vetoed, Blocking Monopoly Plan.

COMPETITION IS SOUGHT

Severe Rebuke Given Councilmen, Who, He Says, Would Create Trust by Passing Law Giving Sole Right to One Type.

MAYOR SIMON GIVES REASONS FOR VETOING TERRA COTTA PIPE ORDINANCE

Ordinance passed by Council prohibits any but terra cotta sewer pipe, and creates a monopoly.

There should be fair and legitimate competition in all public work.

Cement pipe can be made impervious, and can be manufactured and sold cheaper than other pipe materials.

No good materials of any kind should be prohibited from use in Portland; there should be open and free competition.

The Council can at all times regulate the kind of pipe to be used when "time and manner" ordinances are to be passed.

Mayor Simon yesterday vetoed the ordinance giving to the terra cotta "trust" an exclusive control of sewer pipe material in Portland and thereby has dealt this concern a body blow.

Incidentally, he has administered a stern rebuke to the members of the Council who passed the special legislative measure at the last session and places himself on record as favoring competition in all lines of trade.

Mayor Simon declares that he is satisfied that cement pipe is all right to use in sewer work, and that he, therefore, feels justified in vetoing the measure. In view of the recent demonstration, which showed that cement pipe can be made efficient, he declares that he would be aiding in creation of a monopoly if he fails to object to the ordinance.

The veto will be read in the Council tomorrow morning and it is believed that it will be sustained. The veto message follows:

Veto Message Goes to Council.

I return herewith, and without approval, ordinance No. 2124, and without approval, specifying the kind and character of pipe to be used for sewer mains or materials, passed by the Council May 25, 1910.

The ordinance requires all sewer pipe hereafter laid to be vitrified vitrified sewer pipe or dipped cast iron pipe of the best quality, and directs that the specifications of the City Engineer for all sewer pipe shall provide for sewer pipe as above stated. It is intended by this ordinance to restrict to terra cotta the kind of pipe used in the construction of sewer mains, and to prohibit the use of every other kind of sewer pipe, including, of course, cement or concrete.

I believe that this should be fair and legitimate competition in all public work, and therefore I am unable to approve this ordinance, for by so doing I would aid in the creation of a monopoly in supplying sewer pipe used in this city, and convinced that cement pipe can be made impervious, and that it can also be manufactured and sold at a price in competition with pipe of other materials. Sewer pipe, whether of clay or cement, if of good quality and manufactured under specifications insuring efficiency, ought not to be debarré from use in the construction of sewers.

Opening for Trust Seen.

If the ordinance under consideration becomes effective, manufacturers of terra cotta pipe (the only kind permitted to be used) may charge a higher price than they seem proper.

Should, however, the ordinance not become effective, it will be for the Council to determine in the enactment of "time and manner" ordinances the kind of sewer pipe to be used in the construction of each sewer authorized, and leaves open the way to competition.

Believing that the city of Portland should not be denied the benefit of competition, where its interest can be protected by definite and reasonable specifications properly enforced, I am compelled to veto the ordinance.

JAILBREAKER IS CAUGHT

Sheriff Stevens Clips in Bud Freedom of Long-Term Prisoner.

An attempted jail break at Kelly Butte was discovered by Jailer Phillips at 7:30 o'clock yesterday morning, and promptly reported to Sheriff Stevens, with the result that Harry Harvey, the man who attempted to escape, was located, and is now in the dungeon. The man had gone out to their work, and Deputy Sheriff Phillips was checking up on them, when he discovered one man missing.

As soon as Sheriff Stevens learned of the situation he dispatched two automobiles with a posse of deputies in each, to the Butte. Soon he received the report that the missing prisoner had been found hiding among the rocks at the Butte. The man was sentenced to serve 300 days for larceny. His time would have expired December 11.

CHINESE AUTOIST LOST

C. Gee Woo Buys Motorcar—Goes to Salem—Chinatown Worries.

C. Gee Woo, a Chinese doctor, bought a \$1000 automobile Saturday, started for a trip to Salem with his family early yesterday morning, and when he did not return at midnight all Chinatown came aroused for fear harm had befallen the party.

The police station was besieged by inquiring friends and all sorts of evil things, from a hold-up to an ordinary wreck of a touring car, were suggested as reasons for the doctor's absence. The police were unable to throw any light on the situation and the Chinese, not familiar with the uncertainties that attend automobiling without necessarily endangering human life, stood anxiously about the streets awaiting the doctor's return or trying to solve the mystery.

MAKE NAME FIT ITS WORK

Corvallis Alumni May Propose Dropping Word "Agriculture."

Changing the name of the Oregon Agricultural College to the Oregon State College, or to some other name that more clearly indicate its varied educational functions, is expected to be one of the more important subjects of interest to the alumni at their annual reunion next week.

Owing to the unusual celebration to be held at the college next week to mark another quarter century since it became a state institution, an unusual effort is being made to get as many of the graduates present as possible. Special trains by rail, as well as the running of a special train next Tuesday, returning to Portland the same day, are expected to aid in bringing about this result, and the large reunion that has been promised will make opportunity some action regarding the proposed change in the name of the college.

The popular mistake concerning the purposes of the Oregon Agricultural College prompted the feeling that the word "agricultural" should be dropped from its name. This has been done in other states with similar institutions, including that in the State of Washington, that people may realize that the purpose is not to teach agriculture only, and that numerous other courses and degrees are offered.

By request of the college authorities the Southern Pacific Company has promised to run a special train from Portland by way of Salem and Albany, on June 14. The train will leave Portland at 7 o'clock in the morning and will be due to arrive at Corvallis at 10 A. M. Returning, it will leave Corvallis at 7:15 P. M. arriving in Portland before 11 P. M. A special rate of one fare for the round trip has been granted for this special train, while a rate of one and one-third fare will be given for other trains to the celebration.

EDUCATION IS SUBJECT

INDUSTRIAL PART OF TOPIC IS DISCUSSED BY ADVENTURISTS.

Western Oregon Conference Will Hold Annual Election of Officers While in Session.

Industrial education was the keynote of the address yesterday morning at the Western Oregon Seventh-Day Adventist Conference, in session in North Mount Tabor, delivered by Professor N. W. Lawrence, educational missionary of the North Pacific Union Conference. Yesterday was devoted to education and all the addresses were on that subject.

Professor Lawrence explained the general system of the Seventh-Day Adventists, who, he said, made a feature of educating the mind, body and heart, all the schools of the system being industrial. He pointed out the advantage of such a system, showing that it made the all-round man and woman by fitting them for useful lives.

In the afternoon the same subject was continued. Miss Comer, principal of the Ford Academy, delivered an address, and others spoke along educational lines. It was set forth that the Seventh-Day Adventists have a complete system of industrial schools, from the primary to the college, at Walla Walla.

The report of the Sabbath school department of the conference showed the following: Present membership, 1921; number of home departments, 77; donations, \$224.04; donations to foreign missions, \$3157.84. The aggregate donations for the Sunday schools of the entire denomination for the past year amounted to \$12,000, the total amount for 29 years contributed by schools, \$1,136,384. During that time the Sabbath schools gave a special rate of \$3,104 for the maintenance of the Haskell home for Orphans in Battle Creek, Mich.

The financial report of the Western Oregon conference gave these figures: Resources, \$729.28; liabilities, \$241.50; balance, \$487.78; total receipts, including tithes, \$3,384.34; expenses, \$2,239; payments to the General Conference, \$1000; tithes to North Pacific Union Conference, \$384, making the disbursements \$1933.40 in excess of the receipts. The general fund of the conference was \$1653.36, which was remitted to the Union Conference Treasurer.

The annual election of officers will be held the last of the week. The camp meeting is going on in connection with the conference.

GYPSIES ABDUCT GIRL?

PLAINTIFF TELLS THRILLING TALE OF CRUELTY.

Assault Case Grows Interesting When Band of Wanderers Gather.

Declaring she had been abducted by a Gypsy two years ago and that her infant child had been slain in Wyoming at that time, Mary Yankovich, brought an action yesterday in Police Court when she appeared against John Adams and Louis Adams, her alleged assailants.

The woman says the two men a few days ago assaulted her by cutting off her hair and beating her severely. The witness, who is the unmarried consort of Louis Adams, makes the complaint against the men, whose cases were put over until tomorrow at the request of the prosecution, in order that more witnesses may be secured.

A large number of gypsies were in court yesterday, dressed in the glaring colors which their people affect.

One of the party was Mary Leahan, a full-blooded Cherokee woman who has conducted a "phrenological" room in the Burnside-street district for some years, with letters from the management of the Virginia hotel, the most magnificent resort hotel on the Pacific Coast. It was erected in 1907, and Mr. Stanley went from the Van Nuys Hotel at Los Angeles to act as manager. He resigned because of a difference with the owners, the Seaside Investment Company.

Early in March of this year, Carlston Gilbert undertook the management of the hotel and secured W. G. Thigpen, chief clerk of the Hotel Portland as assistant manager. Mr. Stanley succeeded Mr. Thigpen at the Portland. Carl Stanley is one of the best known hotel men in the West. He began his career as a bell-boy in Los Angeles more than 12 years ago.

New Road to The Dalles Due Soon.

LYLE, Wash., June 6.—(Special.)—The Wanklancus wagon roads from the north and south will be joined by the assured completion, July 1, of the county bridge over the Big Klickitat. A crew of 10 bridge men is now active in construction. The roads joined will throw open a new avenue for The Dalles and Centerville to reach Glenwood, Husum, Guler and the Mount Adams country.

Jump From Train Injures.

ASTORIA, Or., June 6.—(Special.)—W. Carlson, employed at the Fowler Logging Company at Tucker Creek, on the Lewis and Clark River, this morning broke his right leg while attempting to jump from a moving train. He was brought here to the hospital, where the fracture was reduced.

Oregon Postmasters Appointed.

OREGONIAN NEWS BUREAU, Washington, June 6.—Oregon postmasters have been appointed as follows: Brooks, Mary Reix; Glenwood, Katie Busse; Mabel, Frank Pierce.

On special sale at this low removal price, yard \$1.00

Sale of Natural Color Pongee Silks

Genuine Hand-Loom China Pongee

Of all the dress fabrics made there is none that possesses superior merits to the genuine hand-loom China pongees. In the first place, only the pure raw silk is used in making the yarn. This is done in the same old-fashioned way that our great-grandmothers spun their wool. The old-fashioned hand looms are used in converting this yarn into cloth. The last finishing twist is given by the nimble fingers of the operator as she passes the shuttle over the warp.

The modern art of adulterating is unknown to the Oriental people. Therefore the imported China pongee is the best-wearing, softest, most durable fabric woven. Note the very low prices:

\$1.00 Natural Pongee 81c yard—\$1.25 val. \$1.05

\$1.50 Natural Pongee \$1.23—\$1.75 val. \$1.39

\$2.00 Natural Pongee \$1.69—\$2.50 val. \$1.98

\$3.50 Natural Pongee \$2.89—\$5.00 val. \$4.19
