

HOLD THEIR WHEAT

With Market Improving Farmers Will Not Sell.

OFFERINGS WITHDRAWN

Some Demand for Bluestem, but Other Lines Are Quiet—Foreign Crop Conditions Are Generally Favorable.

The improvement that has occurred in the past week in the Eastern and foreign wheat markets has had the effect of stiffening holders in this section materially.

The oats and barley markets have seldom been as dull as they are at the present time. The demand has almost entirely ceased.

Foreign wheat crop conditions are reported by the Liverpool Corn Trade News as follows:

United Kingdom—The outlook for the crops continues to show improvement under reasonable weather conditions.

France—Crops are showing a fair improvement, but the plant, however, is thin, and some damage from vermin is mentioned.

Germany—Although light showers have fallen, they have not been sufficient, and seed heavy rains would be very harmful.

Hungary—According to an official report, the outlook for both Winter and Spring crops is good.

Russia—In the south the outlook for the crops is good, showers having fallen, which is beneficial in the center and east.

Italy—There are continued complaints of the weather being too cold and wet.

Spain—The crop outlook is variable, but the weather has shown some improvement.

Sweden—Complaints are still heard regarding drought.

North Africa—The outlook for the crops is fair.

India—Natives hold firmly.

DEADLOCK IN CONDON WOOL MARKET

Growers Think Their Clips Should Bring Eighteen Cents.

Shearing is over in Gilliam County and the Condon wools are full of wool.

It is said to be the best clip the country has produced.

STRONG CALL FOR EGGS AND POULTRY

Supply Not Sufficient for the Holiday Trade.

The increased number of visitors in the city is made plain by the stronger demand for poultry, eggs and dressed meats.

Not only is the demand for eggs larger, but receipts are steadily decreasing and the market is gaining in firmness.

Butter cleaned up at the old quotation, which will probably be retained throughout the week.

HIDES AND FELTS ARE DULL

Market is Still Weak and Supplies Are Held Back.

The hide market shows no material change from a week ago.

Eastern Oregon dry pits are also being held back pending a better market.

Valley wool is coming forward very slowly, as only a few farmers seem willing to let go at present prices.

CAR OF CANTALOUPE RECEIVED

Another Car Is Due Today—Loganberries From Oregon Arrive.

A car of cantaloupes arrived from Brawley yesterday, the first straight car of the season.

The first Oregon loganberries were received from Roseburg and brought 12 1/2 cents a pound.
