FARWEST CROPS BIG

Horace W. Day's Views on the Fruit Outlook.

Sections of the Middle West. Prospects in Colorado.

om an extended tour throughout the West in an interview, gives some interesting in-formation concerning the fruit-crop outlook.

Mr. Day is quoted as saying:

"In Oregon the pears promise about the same as last year, both as far as Bartletts, Comice, D'Anjou and Winter Neills are concerned. In the Hood River section there are only a few cars of Bartletts, but the apple crop promises to be much larger than that of a year ngo. At North Yakima a very large crop of all truits is expected. Over 800 cars of peaches alone are looked for, but these are almost always marketed in Oregon, Washington, Dakota and Monin Oregon, Washington, Dakota and Mon-tana. The sppile crop there also promises to be very large, and they grow some beautiful Winesaps. At Walla Walla and Milton there will be from 100 to 125 carloads of Italian prunes, and in Southern Idaho over 400 cars of this same fruit are looked for, as well as a full crop of apples.

"Utah will have between 400 and 500 car-loads of reaches mostly to be marketed

leads of peaches, mostly to be marketed through the Middle West. In Colorado cold weather materially cut down the yield in several sections, but Pallsade expects a full crop of peaches, and it is probable that there will be about 1000 to 1200 carloads of peaches out of Colorado this season. Their apple crop is expected to yield between 2000 and 2500 carloads if all goes well. "It seemed to be the general impression in the Far West that the crops of fruit in

the Middle West had been so seriously dam-aged by the several freezes that there should be a strong demand for all the deciduous fruits grown in the Far West."

PROSPECT FOR A LARGE CROP IN THE YAKIMA VALLEY.

Butter Is Weak at Scattle and Talk Is No Longer Heard of Higher Prices.

SEATTLE. Wash. June s.—(Special.)—
Three carloads of cantaloupes have arrived this week, yet the demand has been unusually brisk. Reports from Eastern Washington, particularly from the Yakima Valley, are to the effect that the prospects for a large cantaloupe crop here this season are excellent.

Berry receipts today passed the 5006-crate mark. Only two carloads were loaded out for the East, and prices dropped on account of the large surplus. Good berries sold at \$1 and few. except Clark Seedlings, went above \$1.25. There is a large holdover stock. The first red rasperties of the season arrived today from Kennewick and sold at \$3.50.882.76 a crate. Cherries dropped to \$1.61.20, with the supply rather in excess of the demand. Peaches also moved slowly. Butter very east and all talk of advancing the price appears to have disappeared. Dealers find themselves well stocked and considerable butter is in sight. Eggs, however, were very firm at 20c and there was talk of an advance. Three Cars Are on Hand and Four More

Due This Week.

With three cars of cantaloupes on the street, enough to last the remainder of the week, and four more cars due before Monday, the market was naturally weak. Prices

Wheat was firmer, with sales of bluestem to experter at 2 cents. The first new alfalfa from Eastern Washington has arrived and is in fair demand.

Contrary Views of the Railway Situation Expressed by Officials. New York Central Will Buy Equipment.

NEW YORK. June 8.—There was some speculative hesitation reflected in the action of today's stock market, parily due to the rapidity of the advance of the day before and parily to the conflict over the situation meated over the rate settlement.

Contrary views expressed by railroad exceutives themselves were responsible for the conflict of opinion, especially the announcement by President Brown, of the New York Central, that work calling for \$5,000,000 expenditures and orders for freight cars, which had been held up as a result of the rate injunction, would be resumed, in contrast with the assertion of President Ripley, of the Santa Fe, that his company would, not depart in any degree from the policy of retrenchment decided on after the action of the Government against the rate advances. London joined in a substantial way in the early selling brought about by these conditions.

The heavy selling of St. Louis and the discouraged feeling expressed in a published interview with a capitalist prominent in that party were corroborative of the conviction that divergence of opinion existed between prominent ranges in the financial world.

Much attention was given to the question of railroad earnings as they would be affected by the postponement of rate advances until approved by the Interstate Commerce Commission and the probable period of that postponement. That the advances would ultimately become effective was the usual assumption.

May statistics of the Copper Producers Association offered little ground for encouragement, the month's preduction having been the largest, with the exception of October last year, for any month since the association was formed, deliveries in the meantime having remained stable at about the level of the last three months, with the result of another addition of 18.441,814 pounds to the surplus stocks of the metal. Quotations for copper were lower, both in London and New York. An increase of pig iron stocks in May, in spite of curialled production, induced a prediction by the Iron Age that

by the Iron Age that the blowing out of furnaces has not gene far enough.

A favorable view was taken of the Government crop report.

Money was easter, but foreign exchange recovered in response to selling of stocks for
London account, and in spite of predictions
of a reduction in the Bank of England discount rate tomorrow.

Bonds were firm. Total sales, par value,
\$2.061.000. United States 2s, registered, advanced % per cent on call.

ALBANY, Or., June 8.—(Special.)—As an end to his family troubles George Robinson, of Holley, who was arrested on a charge of beating his wife and his aged father, has agreed to leave Linn County within three days.

It developed at the hearing here today before Justice Swan that Robinson was not alone to blame for the difficulties in the home where Robinson and his wife lived with his father, but as a settlement of the affair he pleaded guilty to one charge, on which sentence was suspended and the other was dismissed.

He agreed to divide the household furniture and he and his wife, who effected a reconciliation, will leave Linn County
