LONDON, June 3.—Viscount Maidstone, heir of the Earl of Winchelsea and

The Drexels and the Winchelseas signed the register together, while the bridesmaids, wearing bandeaus of daisies instead of hats, flitted about giving floral favors to the guests. The best-looking woman in the whole assembly was an American, Mrs. George L. Thompson, a mere girl, in an audacious dress of black gauze.

The absence of the Roosevelt family was much commented on.

Williams was a partner of Mark Twain and other notables during the early days of the Southwest. He won several fortunes in the mines and lost each in succession and at 70 years of age finds himself penniless and broken in health.

Brooding over his lot, Mark Twain's death coloring his thoughts, he suddenly became overwhelmed yesterday with a desire to die. Seizing a razor he almost severed his right wrist. The attempt oc-curred at the Fox House, at Las Vegas. Williams lay bleeding until so weak he could not rise from his bed.

Believing there was no possibility of physicians pulling him through, and wishing to have his old dog brought to him, he managed to attract attention by knocking a bowl from a stand. Doctors believe he will recover.

C. E. Dunning, of Medford, Jackson County, yesterday began suit in the United States Court against Sylvia S. Robinson and R. T. Burnett, the latter the County Recorder for Jackson County, alleging fraud was perpetrated in the trade of certain Oregon and n the trade of

California lands.

Dunning says he traded 200 acres of Jackson County lands for 12½ acres of bearing orange grove land in Riverside County, California, and that after an inspection of the lands it was ascertained that only 10 acres were in bearing orange trees. He avers that it will require six years' time and \$2800 in money to plant the barren two one-half acres. Mr. Dunning asks judgment for the amount of money involved and a restraining order against recording the deeds of transfer.

TRUE TEMPERANCE

National Association Promises to Work for "Real and Practical Reforms."

THREE LESSONS LEARNED

Surreptitious Sale of Inferior Strong Liquors One Result of Prohibition - Boutell Defends Beer - Brinking.

WASHINGTON, June 8.—That the time was not far distant when the brewers of the country would be found working hand in hand with the advocates of true temperance reform was the prediction made by Carl J. Hoster, president of the United States Brewers' Association, at the opening session of the 50th annual convention here today. Representative Routell, of Ulision of the 50th annual convention here
today. Representative Boutell, of Illinois, made a speech in which he opposed prohibition, advocated temperance in all things, and declared that
temperance was "closely allied and almost akin to strength."

President Hoster in his annual address
to the 500 delegates, declared he had no
apology to make for being a brewer and

apology to make for being a brewer and that he recognized every brewer as a promoter of "true temperance."

Representative Boutell followed President Hoster and was cheered upon his introduction to the convention.

Lessons Gleaned From Elections.

Lessons Gleaned From Elections.

Three lessons, he said, were to be learned from the several states that had put prohibition into effect. These, he contended, were:

That prohibition did not prohibit.

That when the open sale of mild beverages was forbidden the surreptitious sales of strong spirits of an inferior quality greatly increased.

That there was an appalling increase in prohibition states in the demand for patent medicines, tonics and narcotic liquors. He declared that prohibitory laws, whether effective or ineffective, were regarded by the wisest statesmen and philanthropists as out of harmony with the spirit of an ideal government.

"Is the use of beer by the citizen," Representative Boutell inquired, "what Lincoln said it was, "That which is exclusively his own business," or in the language of the English philosopher Mills, entirely a 'self-regarding action,' or is it an action injurious to society and therefore one that the state can forbid?

Individual Should Choose. At Calitri, Wrecked by Temblor,

Individual Should Choose

AVELLINO, Italy, June 8.—King Victor Emmanuel and Queen Helena spent today amidst the desolation of Calitri, ministering to the afflicted. The town is practically a heap of "In this country we first reversed the wisdom of the ages and agreed that the majority shall not interfere by secular legislation with any man's religion. Now we are quite agreed that it shall not en-croach upon the individual in his choice of food, apparent amusements or occu-nations." ruins.

After the destructive earth shocks of yesterday, the 8000 inhabitants bivouncked last night in the country districts. The passage of the Royal train through the province afforded the occasion for frequent demonstrations by the populace. At every railway station the King and Queen were greeted by crowds.

He concluded by saying that fortunately the cause of genuine temperance is advancing rapidly.

"Temperance in all things," said he, "is the amulet worn by all those who suc-cessfully strive for the mastery. It is the crown of all human virtues. Temperance is closely allied and nearly akin to strength." When the train reached here it was suggested that Her Majesty break the trip for a brief sleep, but she refused, saving she wished to reach Calitri at the earliest possible hour.

Their Majesties were much affected by the sight which met them here. The King insisted on going through the streets, half-filled with fallen walls, and visiting every spot where his direction or advice was of value.

While the King was so engaged the Queen turned her attention to the helpless ones. She had a word of comfort for every woman and caresses for
