THE EXCLUSIVE TERRITORIAL RIGHT TO THE STATE OF OREGON—An ideal irrigation and sprinkling system, the best ever introduced for irrigating lawns, gardens, parks, exchards and other lands. It is consected direct to the water mains on the property, or to the discharge pipe from tanks, reservoirs or pumping plants. It irrigates as eveninly as the rain. It saves water, time and money. It can be installed on the property cheaply and will last a lifetime. The purchaser of this proposition can manufacture the material used in the system, which is easily and cheaply done. You can fit up a shop at small expense and start into a very proficable business at once—a business without competition. Every land owner in the State of Oregon needs it and will become your customer. This irrigation system is now being used in California and gives onlire satisfaction. We are offering for sale the exclusive territorial right to this State for a short time. No reasonable offer will be refused. Reason for refling, we have the rights in many other States to look after and sell. The party buying this State right can sell county rights, or they can make or manufacture the material at Portland and sell it to their agents in the different counties of the State, at a good profit.
