

Portland's Most Beautiful Residence Park

Look over any other high-class residence property in town. It is not like Laurelhurst. You will say this. Everybody who sees Laurelhurst and then visits some other residence section says it. Why?

Because Laurelhurst is different. It has the location. It has the rare natural advantages. It is being more highly improved than any other residence section. It is more highly restricted. It has a beautiful public park in its center. Its boulevards are wide and attractively laid out, quite different from the stiff, straight streets so common to other residence additions. It has all these and then has excellent car service on any of four different lines.

These are features of Laurelhurst. They are the prime factors which have made values in the neighborhood of Laurelhurst advance, and they are the prime factors in a movement toward the beautifying of this section and the creating of very high values in Laurelhurst.

See this property. Come out Sunday. Get your feet upon the ground and walk about. See the tremendous improvement work which is transforming this land into a magnificent residence park. Take Rose City Park or Montavilla cars to Laurelhurst. Both these lines run to and through the property. Take Sunnyside or Mount Tabor cars to East 39th street and walk four short blocks north. Or call at our office and we will be pleased to show you the property in our automobiles. Phone us what day and hour you would like to make the trip.
