WIFE WOULD PASS AS SISTER-IN-LAW

Strange Story of Marital Inharmony Told in Trial of Divorce Suit.

TEN DECREES ARE GRANTED

Railroad Engineer Accused of Chasing Wife With Big Knife-Man Who Gambles Leaves Family to Live Off Relatives.

David H. Blakelock, an employe of the Government Reclamation Service, wh was transferred from Boise to Port land in May, 1909, was one of 11 per-sons who sought divorces from Judge Morrow yesterday. It is a question, however, whether he will secure a decree of separation from Margaret P. Blakelock. The judge said he would "think about it." In the other ten cases the divorces were granted.

The Blakelocks came to Portland under most recoller interests and the contract of the cont

der mest peculiar circumstances. Blake-lock said he came May 26, 1909, and that his wife came three days later, but did not visit him until June 1. He found, he said, that she had regis-tered at the Portland Hotel as Margaret P. Blakelock, but she did not want P. Blakelock, but she did not want him to be known as her husband. He said she visited him at his office and told him she suposed people would take him for her brother-in-law. She would be satisfied with that, she said, and when he called upon her, wanted him to send up his card and meet her in the parior and not in her room. He said, further, that she told him she had accepted an invitation of a young man at the hotel to dinner the night. man at the hotel to dinner the night

Wife Would Live Apart.

She intended to remain in Portland only two weeks, when she intended to go to Seattle. In explaining her rea-son for going, Biakelock said the doc-tor had advised her she must seek a lower altitude. The judge asked Blake-lock if Portland's hills were not low enough. He said he didn't know, but said Mrs. Biakelock did not go to Se-attle at the end of two weeks, and that he asked her to secure apartments where he could live with her. She refused, he said.

Further questioning brought out that Mrs. Blakelock sold their furniture before they left Boise and kept the pro-ceeds and that she had a conversation with her husband last Chirstmas, at which time they wished each other a merry Christmas, and the husband then told her he intended to secure a divorce as soon as a year had elapsed beyond

Mrs. K. Bojanower sought a divorce yesterday from M. Bojanower, whom she married November 5, 1902. But Judge Morrow decided the husband should have the decree when he had heard his testi-mony. He said that a month after he was married he went home to find his wife drunk, and learned she had been taken home in a cab. This conduct on her part, he said, has continued at intervals of a month or six weeks ever since. He once found her and her little son asleep on a sawdust pilo in the rear of an Italian saloon on the East Side, he declared, and said further she had been arrested, and once sentenced to 60 days in jail. Another witness said the woman asked permission of her one day to leave the child for 15 minutes, but did not return for it for a week.

Wife Refuses to Come West.

William E. Palmer was another husband who secured a divorce. He was married in the East in 1866, after he was discharged from the Army at the close of the Civil War, he said. Each Says Other Is Cruel.

John C. Campbell, an accountant, is suing for a divorce in Judge Butler's department of the Circuit Court. The suit is contested by Clara Campbell, his wife, who asks that the suit be dis-missed. Campbell charges his wife with desertion and cruelty, but she says it is he who has been cruel, and that she

was obliged to leave temporarily be-cause of his conduct.

They were married at Vancouver, Wash, July 10, 1907, and have a child 2 years old. CHILDREN TO ENJOY GAMES

Playground Programme Will Supplant Use of Firecrackers.

Arrangements were made yesterday o give a large number of children a jolly time next Monday, July 4, the public playgrounds in North Port-land. Miss Margaret Bradshaw, who has charge of the girls' playground, and Harry T. Smith, who directs the boys' sports, have planned amusements that will entertain the little ones and

other explosives.

The programme of sports on the girls' playground will be carried out in the afternoon. One of the most pleasing features will be a flag drill by 20 little girls, for which they have been practicing for some time. There will also be a game of playground beautiful her ways a playground the second of the se baseball between picked teams of girls. Playground baseball closely resembles the indoor game. A large soft ball is used, the bat is about the size of a broomstick, and the diamond is comparatively small. The girls will also compete in a potato race, a relay race and a game of basketball. Between the halves of the basketball game there will be an old-fashioned dance by six little girls.

LANG WILL REPORT

Mayor Asks Him to Investigate Crest Proposition.

SIMON'S STAND UNCHANGED

City's Executive Maintains That Present Parks Should Be Improved Before Others Bought. Board Will Make Inquiries.

Mayor Simon yesterday designated L Lang, a member of the Park Board, to investigate the subject of purchasing Council Crest by the city, and asked him to report as to what it may be had for. The question will then be squarely up to the board to decide as to whether it

shall be bought.
Dr. J. R. Wetherbee, one of the members of the board, said that he had been investigating the question some and had been led to believe that it would cost a large sum, owing to the fact that, as he had been informed, the lease of the Crest is worth \$10,000 a year, and runs

"My opinion is," said Dr. Wetherbee, "that, if we try to buy the Crest it will have to be done at the point of a pistol, so to speak, as I think the lease holdings will be the basis for an attempted holding. Personally, I think the city must eventually own this piece of property, but I am afraid that it will cost a large sum at the time."

sum at this time."

Mr. Lang introduced the subject by saying that, if the city is going to buy the property, it may as well proceed now, or if it is not to be purchased, the question should be settled for all time. Mayor Simon is not favorable to the should use the funds at its disposal for improvement of other parks that have been acquired. There is a bond issue of \$500,000 available, but he does not want to sell the bonds unless it becomes abso-lutely necessary. It is his ambition now to make extensive improvements in the various parks that the board has pur-chased before buying any more ground. Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discov-
