SOUTH BEND, Wash .- July 5 .- (Spe-SOUTH BEND, Wash.—July 5.—(Special)—At a meeting of representative business men of this city, called by J. H. Marshall, president of the Inland Waterway Canal Company, the building of a canal from Grays' Harbor through Will-spa Harbor to the Columbia river was heartly endorsed by all present and a committee was appointed to prepare a resolution to this effect.

Mr. Marshall explained the purpose of

Mr. Marshall explained the purpose of his company and the results sought to be attained. C. N. Hudson, the com-pany's engineer, opened his remarks by reminding his hearers that the distance from Portland to Aberdeen is 175 miles and that all that is necessary to connect the two places and the intermediate cities of South Bend and Raymond is the building of a canal which will require only 18 miles of excavation and cost less than \$1.000 when ready for service. \$1,090,000 when ready for service. He further called attention to the fact that the canal would reclaim more than 10,000 acres of the most fertile land in the Northwest. This land is now worth not to exceed 50 cents ar acre, but with the completion of the canal, every acre of it would be worth \$100. A railroad, he de-lared, would not increase its value at all because the railroad would not drain it, while the canal would drain it, carry its product to market and increase the value of the land many fold.

### Natural Advantages Many.

This section of country is radically different in many ways from any other section of equal area to be found in the Northwest; perhaps in the entire country. In this comparatively small area, about 60 miles along the coast and 20 miles inland, there are three out of the five best harbors on the Pacific Coast—the Columbia river, Willapa Harbor and Grays' Harbor—each of which is safe, commodious and backed by resources of great value. Each of these harbors is an open door, by rall or by sea, to the commerce of the world. That section of country between the Columbia river and Grays' Harbor is little known outside its immediate vicinity, yet its neutral advantages and its constitution. its natural advantages and its opportuni-ties are numerous and immensely valu-

Millions of feet of timber of the finest quality, thousands of acres of fertile land, thousands of acres of oyster beds—the home of the famous "Shoalwater Bay bysters," the most palatable bivaive known—60 miles of hard, smooth ocean beach, and thousands of acres of natural cranberry land are only a few of the many natural advantages to be found in

is country. The marsh or tide lands, when diked, The marsh of tide lands, when diked, will produce enormous crops of small fruits: the bog lands, when drained by the canal, will produce prodigiously of almost anything, and especially of vegelables of the finest quality. This fact has been demonstrated by several small farms that have been under cultivation

# Dairying Is Profitable.

Another industry of almost unlimited ibilities is dairying. Grass for hay to possibilities is dairying. Grass for hay attains a growth here of three and four tons to the acre, and there have been instances of six tons to the acre. This, together with the fact that its mild and equable climate makes the feeding and artificial shelter seasons of short duration, ranks this country above all others in this important and highly profitable

The Inland Waterway Canal Company, which is at present only a holding company, has been so successful in securing right of way and arousing interest in the undertaking that a construction company with a capital of \$600,000 is about to be organized and it is believed that construction work will be begun much more quickly than at first was even honed for npletion of this canal and the succonnect Grays' Harbor and Puget Sound by canal will furnish a safe, smooth water communication between all the cities of the north coast which will be available every day in the year.

The largest and most important gathering of medical men Eastern Oregon has ever seen met in the fourth annual convention of the Eastern Oregon Dishas ever seen met in the fourth annual convention of the Eastern Oregon District Medical Society in Pendleton this morning, and will last until tomorrow evening. The most noted men in the profession in Portland, Salem, Seattle, Walla Walla and Boise, as well as the Eastern Oregon cities, are numbered among the speakers. While it is supposed to be an Eastern Oregon meeting, the number of speakers and other guests present from Western Oregon and from Washington and Idaho makes it look like a Northwest gathering.

Dr. William House, of Portland, startled many of his hearers with his paper on apoplexy, when he produced

paper on apoplexy, when he produced figures showing that 4½ per cent. of all deaths in the United States were due to apoplexy or its attendant diseases, and that the percentage of deaths from this cause in Portland was 6½ per cent. He said the high percentage of deaths from this cause in Portland was due to the low death rate from other causes, holding that the number of deaths from apoplexy was the same percentage. deaths from apoplexy was the same per thousand people the country over.

MISS HENRIETTA CROSMAN.

Henrietta Crosman, who comes to the Bungalow this evening in the whimsical comedy, "Anti-Matrimony," has made only three or four the whimsical comedy, "Anti-Matrimony," has made only three or four stops in a cross-country run that embraces special trains, private cars and long jumps, since she left New York only one month ago and has presented her brilliant success in only a few cities. Percy Mackaye is responsible for the farce, which deals in a logical manner with the much-discussed game of matrimony, presented from an entirely new standpoint and crowded full of fun. Of passing interest is the fact that by special arrangement with Maurice Campbell, Miss Crosman's manager, she will present "Anti-Matrimony" in Reno on her return trip to New York. Miss Crosman has been surrounded with a most carefully selected company, and no item of detail has been omitted from the play, which has been given a wonderful production by Mr. Campbell. Of Miss Crosman herself, she is considered the foremost comedienne on the American stage, and is without peer in versatility comedienne on the American stage, and is without peer in versatility and charm. Her engagement, beginning tonight, will continue through the week with a special price Saturday matinee.

to his wife's divorce complaint, but when the case was called before Cirwhen the case was called before Cir-cuit Judge Morrow yesterday morn-ing, he was not present to contest it. Nellie G. Moody, his wife, accused him of desertion. They married in Joseph-ine county, Oregon, December 8, 1908, and the following March decided, she said, to come to Portland to live. She came first, secured a position, and expected her husband would follow. Instead of doing so, she testified, he left Grants Pass, where they had been living, and went to California. For a time she could not get in communi-cation with him except through a sister, but 'ater she sent him \$52, and asked him to come to Portland. This he did. He was then at Grass Valley,

# Battle Royal Had.

The reunion was not a happy one, however, she told the court, as Moody was inconsiderate of her feelings, con-stantly nagged at her, and falled to properly provide for her. While in Portland they conducted the Moody House, at Third and Jefferson streets. She told of a free-for-all fight one night, in which her husband, her sister-in-law and herself took part. After that she left, she said. In his answer Moody said the trouble

was all over George Allen, with whom he said his wife became infatuated, visiting him secretly at the hotel at unseemly hours. The gossip of hotel patrons compelled him to take her to task, he declared, and to leave the place when she persisted in her con-duct. Judge Morrow granted the divorce.

# Jealousy His Plaint.

W. E. Jaques, an employe of the local | Car Door Carelessly Shut by Brakefire department, is suing for a divorce before Circuit Judge Gantenbein. His wife, Margaret Jaques, is contesting the case. Jaques says Mrs. Jaques is a poor housekeeper, that she is untidy personally, and that she is of such a jealous disposition that he cannot show toward his own relatives ordinary proprieties. Mrs. Martha Jaques, mother of the plaintiff, has made affidavit that his wife told her the fire-men could be found at any time lounging about with women at the rear of

the Hyland engine house.

In answer Mrs. Jaques declares her husband left her in February, 1909, and went to live at 287 Russell street. His time when not on duty was spent away from home, she says, and when she inquired where he had been she was in-formed that it was none of her business. He spent his time at dances, she says. She wants \$40 a month allmony, \$50 suit money, and \$100 attorney's fees. She married Jaques at Vancouver, Wash, September 16, 1909. The case was not finished last night.

Plan to Wreck Company. J. N. Windsor, John C. Windsor, E. L. Balyey and Daniel Leatherman have brought suit in the Circuit Court against N. Campbell, V. E. Campbell and members of the board of directors of the Campbell Automatic Safety Gas Burner Company to compel V. E. Campbell to deliver to the corporation \$255,000 of stock, for which they wish to pay him \$20,000. They ask also that the directors be compelled to account for \$100,000, a portion of the money paid in for stock, which it is alleged the Campbells have squandered, and that Sheriff Stevens be restrained from turning over Stevens be restrained from turning over to Campbell the stock records and office

to Campbell the stock records and office furniture of the corporation, which has been attached upon a replevin action.

The Windsors, Balyey and Leatherman allege that Campbell has placed the value of the corporation records at \$15,000, when the property is in reality worth only \$300, to prevent his opponents from giving bond to hold the goods. They are unable to give \$30,000 bonds, they say. Besides the Campbells, the defendants in the suit brought yesterday are: G. C. Moyer, H. J. yesterday are: G. C. Moyer, H. J. Quackenbush, L. C. Hammer, C. E. Beld-ing, E. Hollowell, H. C. Luker, M. P. Mahalin, H. Hagge'stine and Sheriff

The complaint sets out that the corporation was organized with a capital stock of \$500,000. V. E. Campbell con-tracted with the Safety Investment Company, it is alleged, for this firm to sell stock, he taking 57 per cent to himself for his patent. Stock to the amount of \$100,000 is alleged to have been sold, some stockholders paying double the face value of the stock with the understanding that the corporation owned the patents free of all incumbrances. Of the money received, it is alleged that \$50,000 was expended for machinery and \$100,000 was squandered by the Campbells.

The investment company then bought

\$30,000 worth of stock upon its promise to pay, although it was insolvent, it is alleged, and the Campbells proceeded to hold a "pretended meeting of stock-holders," and to elect Moyer, Quacken-bush, Hammer, Belding, Hollowell, Luker, Mahalin and Haggelstine directors. They in turn, it is charged, voted to sell all the machinery in the local factory and to move to Texas.

It is asserted that to this end the re-plevin suit was filed, and that it is the aim of the defendants to "freeze out" all the other stockholders. They intend to sell everything, it is charged, and to turn the proceeds over to V. E. Camp-bell in payment for his stock and to wreck the corporation.

# Hair Health

If You Have Scalp or Hair Trouble, Take Advantage of This Offer

We could not afford to so strongly endorse Rexall "93" Hair Tonic and continue to sell it as we do, if we were not certain that it could do all we claim it will. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer. Therefore, when we assure you that if your hair is beginning to unnaturally

fall out or if you have any scalp trouble, Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured that we know what we are talking about. Out of one hundred test cases Rexall "93" Hair Tonic gave entire satisfac-tion in ninety-three cases. It has been proved that it will grow hair even on bald heads, when, of course, the bald-ness had not existed for so long a time that the follicles, which are the roots of the hair, had not become absolutely lifeless.

Rexall "93" Hair Tonic is vastly different from other similar preparations. We believe that it will do more than any other human agency toward re-storing hair growth and hair health. It is not greasy and will not gum the scalp or hair or cause permanent stain. It is as pleasant to use as pure cold water.

Our faith in Rexall "93" Hair Tonic is so strong that we ask you to try it terday accusing her of undue familiarity with Amos J. Moore at Troutdale in March, 1905.
