## it is the **AUTOPIANO**

If you were granted an audience by the Pope at the Vatican in Rome, there you would find the Autopiano. If you were permitted a peep into the Sultan's Palace at Constantinople, again you would see the Autopiano.

Go on board the "California," the "Maryland," the "West Virginia" and twenty-nine others, the very pick of Uncle Sam's Navy, and you find the Autopianojust as you find it in the salons of the great British fighting ships.

In the home of Alexander Graham Bell, inventor of the telephone, John Jacob Astor, Admiral Schley, Maurice Levy, the renowned composer and orchestra conductor.

And everywhere you find the Autopiano there you will find an enthusiastic Autopiano owner.

Madame Tetrazzini, the great Italian Prima Donna, says of the Autopiano: "I find I can play the great operas with the same feeling and expression with which I sing them. I love to play it-it is wonderful-there is no Player-Piano equal to it."

That's enthusiasm!

The International Jury of Awards at the Scattle Exposition last year awarded the Grand Highest Prize to the Autopiano and wrote that "The Autopiano is the one PERFECT Player-Piano."

Perfect! Can you obtain anything better than that?
