COBB BILL TO BE OFFEBED OREGON

Senator Abraham Proposes Amendments to Direct Primary Law.

THREE IDEAS ARE INCLUDED

Party Organization to Be Preserved, Bad Features of Present Law to Be Eliminated, and Registration Frauds to Be Prevented.

Amendments to Oregon's direct pri-mary law, designed to preserve party organization, eliminate many bad features of the measure as it stands, and preclude, as nearly as possible, fraud In registration, are proposed by Albert Abraham, State Senator, of Roseburg. Senator Abraham is in Portland and brought with him copies of the Hin-man-Green and Cobb compromise pri-mary laws proposed in New York. These bills, in the main, bore the in-dorsement of President Taft, ex-Presi-dent Roosevelt and Governor Hughes,

and the amendments proposed by Sen-ator Abraham are taken from the bills.

"I intend introducing them in the next session of the State Legislature," he said. "I believe we ought to take advantage of the study and thought that these measures represent." that these measures represent. Three central ideas are to be included in the amendments he said. One of these provides the manner in which the names of candidates in the pri-mary may be placed on the ballot, its purpose being two-fold. One is to preserve party organization, and the other intends the selection of the best material for party candidates.

Voters to Name Committeemen. This is to be accomplished by sutherized committee of each party. each primary election, it is proposed each precinct shall elect men to serve on the party committee. This committee is to meet before the next primary election and make recommendations of names as party candidates. This, however, does not bar others from becoming candidates in the same manner as is now followed by petition, but the party-recommended candidates are to be given a preferential place on the ballot.

It is proposed also to abolish the printing of slogans opposite the names of candidates, excepting as to position on Statement 1. Another proposed amendment contemplates doing away with the practice of persons not in sympathy with a party registering as members of such

After the party affiliations of the registered voters are made known, anyone has the right to question the sincerity of any voter in the statement of his politics and through the party machinery to take up the matter in a summary way with a court of competent jurisdiction and have the name canceled if the voter is falsely registered. This would do away, it is thought, with insincerity and fraud in party registration, as it is said to have had that effect in New York

'In the laws proposed in the York Legislature and favored by Gov-ernor Hughes, excellent provisions were made governing the method of holding the meetings of the party committees and its proceedings and the keeping of their records, which do much to remove the objections which might otherwise by the objections which might otherwise be made to the plan, "said Senator Abraham." So that, having carefully considered their provisions, I favor the amendment of our primary law so as to adopt the provisions in these bills, applying them to nominations for all offices, including designations for United States Senators as covered in our primary law, and preserving our means and form of pledging legislative candidates to vote for the popular choice for United States Senator. and indicating oriefly on the ballot the fact of such pledge or absence thereof.

Close Records to Be Kept.

'As to abolishing the use of declarations on the ballot, it must be admitted that the use of the same has degenerated into mere catchy advertisements which are calculated rather to confuse than to

"The New York plan provides that booths, similar to election booths, shall be provided at the place of registra-tion, and instead of announcing to the Register the party affiliation and hav-ing it immediately entered at the time of entering the name of the elector, the number of the elector on the regis-tration book is written on a blank which contains the names of the differwhich contains the names of the different parties and a statement to the effect that the person registering desires to register as a member of the party indicated by him by means of an "X" placed under such party name. This blank is then sealed by the elector in an envelope provided for that purpose, and these envelopes are not opened immediately, but at a fixed time prior to the primary, which is ample to allow public access to the information contained therein and for objection by any member of the party. formation contained therein and for ob-jection by any member of the party, and the party preference is then en-tered in the poll book in the proper column, opposite the elector's name. The obvious purpose of this provision is to allow no undue influence to in-terfers with the free exercise of an honest registration of the party pref-erence.

Committees Make Nomination: "It is essential in order to get a full understanding of the excellency of the Hughes plan of party committee recommendations to describe the method of procedure under which alone the committees may act. Meetings for the purpose of making designations are required to be open to the public. A roll-call of the members of the committee is call of the members of the committee is completely called in alphabetical order, or in the order which may have pre-viously been adopted by rule, for the purpose of excertaining the names of those proposed as candidates. Upon such rollcall, each member of the committee, who desires to propose a candidate, or candidates, must rise and declare the name of such candidate, or candidates. The roll is then called a second time for voting upon the candidates proposed. As each name is called, the member votes and the secretary records the vote. If any candidate receives a majority of all the votes, which the members of the com-mittee are entitled to cast, whether present or not, such candidate is deemed de-signated by the committee. If no one receives a majority of the votes, the roll is called again in like manner as the first rollcall, for the purpose of again proposing candidates, and a vote is then taken upon a fourth rollcall in like man-mer as upon the second roll. This procedure is continued until the proper majority is received. Record is kept of the proceedings and is required to be filed with the custodian of records.

NOMINATION A SURPRISE

James H. Hawley Named to Lead Idaho Democrats.

BOISE, Idaho., July 12 .- (Special.)-Surprise was expressed in every feature of the countenance of James H. Hawley. of the countenance of James H. Hawley, of this city, when he was informed this afternoon he had been nominated as a candidate for Governor on the Democratic ticket by his lifelong friend. W. A. Coughanour, Mayor of Payette Mr. Hawley defended himself behind a noncommittal attitude, stating that he could not definitely announce that he vould accept or refuse the nomination. It is generally believed among those prominent in the party who have urged Mr. Hawley to accept that he will do so before the grace granted by the direct primary law expires, or within 10

days.

Mr. Hawley gained a National reputation as leading prosecutor for the state in the Haywood, Moyer and Pettibone murder cases that developed out of the killing of Frank Steunenberg, Idaho's Governor, and sensational confession of Harry Orchard.

Trustees of Fidelity Trust Company Stand Ready to Increase Capital Stock by \$1,000,000 if Necessary-Ready for Run.

LOUISVILLE Ky., July 13 -Admission that the shortage of August Ropke, defaulting assistant secretary of the Fidelity Trust Company, is "very large was made at the trust company's office late today

At the same time it was approunced that the directors of the company had pledged themselves to an increase of \$1.000,000 in the capital stock if such Increase is necessary.

President John W Barr issued a statement, in which he said:

"Our securities have been found ab-

solutely intact. Defalcation Is Large

"The defalcation of Mr. Ropke is very large. The estates are absolutely in-tact. Not a dollar can be lost to any-one other than the stockholders.

SUBURBS OF VANCOUVER, B. C. ARE IN DANGER.

Municipal, Provincial and Dominion Officials Are Fighting Flames Resulting From Drought.

VANCOUVER. B. C., July 12.—(Special.)—Unless immediate and sufficient measures are adopted at once or rain sets in. Mount Pleasant and Grandview districts, suburbs of Vancouver, are districts, suburbs of Vancouver, are in danger of being swept by serious bush fires working down to them from sev-eral points. All fires are beyond con-trol and Mayor Taylor today ordered the city fire department to guard all threatened points night and day, and aid in putting out fires beyond the city

limits.
Several main road arteries are already impassable and stories of narrow escapes of homes and people from destruction and death, are of daily oc-currence. Both city, provincial and Dominion officials are working fire-fighters in terrritory under their in-dividual jurisdiction and all permits for clearing fires have been cancelled until the present drought is over. The progress of the Lynn Valley fire.

in North Vancouver, shows little change. But unless a high wind springs up, it is believed the water supply of that district will be safe and the fire gradually got under absolute control. Damage now done to destroyed out-lying mills, cordwood, shingle bolts and timber limits will run into many thousands of dollars.

Land Brings Fancy Price.

HUSUM, Wash. July 12—(Special)—In lands, Mrs. A. W. Nicholson, of Guler, purchased 40 acres near that town for a recent sale of Klickitat County school \$900. In the Glanwood district, Alvier Kuhnhausen purchased 160 acres for \$5600.
