VOLUME OF HIDE TRADE IS LARGER.

But Prices Show No Improvement and Prospects Are Not Bright.

There has been no improvement in the hide market since last week, idvices from the East being discouraging, and holding out no prospect of better prices in the immediate future. There is a more active movement locally, however, as butchers have begun to let go more freely, and some of the local dealers have also been selling on a large penIn;

The market for pelts holds about steady. local dealers paying 10% cents for dry pelts

local dealers paying 10% cents for dry petts laid down here. Very little business is passing in the Valley wool market. Farmers and other holders are not disposed to accept the prices affered. Not over a third of the Valley clip has been sold to date.

Canada Buys More Eggs Than Country Sells.

Canada Buys more Legs Than Country Sells. According to Vice-Consul-General P. Gor-man, of Montreal, hast year the Dominion of Canada exported 552,850 dozen eggs, while there were imported from United States, Russia, China and Japan 1.138,120 dozen. It is estimated that with an average of 75 birds per farm, or 60,000,000 for the of 15 birds per farm, or 60,000,000 for the whole of Canada, there would be a profit of \$60,000,000 a year, which shows the great importance of this industry. At present there are said to be less than 25,000,000 fowls in the country. In fact, wheat and cheese appear to be driving meat produce off the farms.

Chickens Strong at 20 Cents.

Receipts of chickens were large yesterday. two firms alone receiving over 40 coops, but the supply was not equal to the demand. Hens sold readily at 20 cents and many more ould have been disposed of at that price. Springs brought 23 cents.

Eggs were moved with difficulty, but stocks on the street were not large enough to depress the market. The butter market was very firm with the

available supply light.

New York Cotton Market.

NEW YORK, July 12.—Stocks suffered re-action in today's market after rising in the early dealings to about the high level re-bound which had been in progress for sev-ral days. The movement was not accom-panied by any notable change in the news of conditions, but there was distinct decrease in demand at the higher levels, incident to the reduction of the short interest and the disinclination of bayers of a more substantial wind to follow the rise in prices in face of the uncertain views of the conditions in-dicated by the six months of failing prices of stocks.

dicated by the six manning of laming prices of stocks. The copper stocks were the vulnerable spot in the list, Amaigamanded Cooper failing to a new low level for the year in consonance with a further decline of the price of copper in London. This special weakness had sym-pathetic effect on the scheral list, but the stabilishmant of a downward tendency in
