## REFORMS IN FIGHT GAME ARE COMING

Short Contests, With Negro Eliminated, Likely to Be Rule in California.

#### RACE FEELING IS FACTOR

Verdicts to Be Left to Newspapers. Jim Coffroth Frowns on Idea of Another Go Between Jeffries and Johnson.

SAN FRANCISCO, July 17 .- (Special.) The days of long prizefights are gone in California. Since Governor Gillett threw his bombshell into the Jeffries-Johnson camp here last month the game of the padded roped ring took a jump down grade and the followers of Fistiana are wondering now whether even a "boxing contest" will be countenanced by the authorities. The puglistic sport certainly is standing on a weak foundation and the men who control the game need to give it careful nursing to replace it on the firm footing it has had in the past.

The local promoters, headed by Jim Griffin, who helds a permit this month to stage a boxing contest, intend to institute a series of reforms. They propose to hold only 10-round boxing ests with no decisions, which have been in practice at Los Angeles for some time. A ban will also be placed on negroes, and for this reason the pro-posed Kaufman-Langford match was called off. By thus banishing the black man the promoters declare it will eliminate much of the racial feeling that was manifested in the Jeffries-Johnson bout, and which did more than anything else to stir the state authorities to action against the sport.

#### Sport Takes Milder Form.

Griffin expects to put on Lew Powell Griffin expects to put on Lew Powell and Frankie Burns, the Oakland light-weight, in a 10-round go and advertise it as purely a boxing contest with no decision, leaving the verdict with the newspapers. He also expects to stage Monte Attell and Jimmy Carroll in a six-round boxing contest. The promoters figure on matching only the lighter men and eliminating the heavy-weights, who give more of an impression of what is termed a prizefight, which is against the law in California, as elsewhere. Several promoters are making a stir

trying to rematch poor old Jim Jeffries with Jack Johnson. Tex Rickard went to Los Angeles recently and the story made the rounds that his purpose was to get the Los Angeles man to sign again with the negro. As ridiculous as it may seem to one who who were the constant. it may seem to one who was on the ground and saw the slaughter of the white man at Reno on the Fourth, Jim Jeffries really is thinking seriously of re-entering the ring. Many of his friends have reached his ear with all kinds of excuses for his bad showing and are trying hard to influence him into agreeing to another match with the negro. Sam Berger, who is back in this city, says there is a possibility of such action, and, as Johnson already has given his word, it looks as if another go is possible, however shameful it would seem to send the old champion against the younger and better-conditioned black man.

Just imagine what a lacing Johnson would give Jeffries now! The feeling prevails in this city that Jeff wouldn't have a look-in and it certainly looks like a bad business proposition to get the pair together again. Johnson showed decidedly on the first meeting that he is Jeffries' master at every stage of the game. What purpose would be satisfied in seeing the person Just imagine what a lacing Johnson would be satisfied in seeing the negro humble the white man again?

#### Coffroth Frowns on Plan.

Jimmy Coffroth is back in town after a vacation which he took after the Reno scrap. Jimmy was a strong John supporter and he brings word that cleaned up enough to finance all his vacation expense and leave a balance besides. Coffroth frowns at the idea of another Jeffries-Johnson ge

"Someone should put a stop to all this talk about a return match. It would mean the death of the game if the pair should be brought together again.

should be brought together again," is Coffroth's warning.
"Smiling Jimmy" has signed Owen Moran and Ad Wolgast to do battle in this city in August. He seems to think the game will improve when the memories of the Reno affair are gone, and is going ahead with arrangements to stage a boxing attraction next month to fill out the stage of the stage and the stage as the s fill out his permit. Coffront also re-ports that the Reno merchants have approached him in regard to settling upon Reno for the scene of his adven-tures and he is thinking seriously of doing so.

Al Kaufman, the big native son, is back in the city, and is harboring an awful ache to get the next crack at Jack Johnson. The blacksmith is conndent of his ability to take the negro down the line, but realizes that he will have to wait months for his oppor-

You have to know Johnson to beat four have to know Johnson to beat him," is the way Al figures it. Jeff fought right into his hands. I boxed with Jack and know his style. I told him when I joined his camp that my hurpose was to get a line on him so that I could beat him and he invited me to take full advantage of the opportunity. I did and now I challenge him. tunity. I did and now I challenge him. I have no fear of him but I am quite sure I will have to wait at least a year before he will consent to another fight.

#### "Fake Pictures" Ready.

There is expected to be a big invasion of "fake" moving pictures of the big go at Reno. It is known that a local independent moving-picture concern was on the ground in Nevada and took some good pictures of the crowds and the like and had an artist at the ringside, who took notes and afterwards prepared some good likenesses of the men as they were in action. This concern intends to invade the Smaller and Interior towns and reap a harvest with their pictures. Similar concerns are also said to have planned campaigns with "fake" pictures in other parts of the country.

This is perhaps the worst town in the country to support a home team. No matter how good the team may be there is always a certain element to find

## SHOPLIFTERS ARE BUSY

SHERIFF AT SALEM ARRESTS 3 MEN AS THIEVES.

Merchants Robbed of Hundreds of Dollars' Worth of Clothing Without Knowledge of Losses.

SALEM, Or., July 17.—(Special.)—By playing the "hunch" system, Sheriff Harry P. Minto arrested three men, supposed to be members of the cleverest gang of shoplifters that ever operated in Marion County, early this morning. He will also be able to return to local stores hundreds of dollars' worth of goods which the proprietors had not miss Last night a report was received from the Southern Pacific depot that a woman's grip had been snatched from her and the thief had made a "getaway" through the woods near the station Sheriff Minto responded to the call and arriving at the station, noticed three men passing near a clump of bushes headed toward the express office. They entered the office and asked to express their grip to San Francisco. The Sheriff opened it under the watchman's eyes and discov ered it jammed with new clothes, all of them still bearing tags.

Several hours afterward, the Sheriff ounded up William Becker, Marsincus Servantez and Joe Sermanot. In their room he found great quantities of new clothing, still tagged. It was found the clothing was taken from the Barnes, Woolen Mills, Oscar Johnson's and D. R. Yantis' stores, under the very eyes of the merchants.

All of them remember when the men visited their places of business,

## GRAINMENCOMBINE

Wheat-Growers to Manufacture and Ship Flour.

#### HALF MILLION SUBSCRIBED

Wealthy Farmers of Umatilla and Walla Walla Sections to Enter Export Trade in Competition With Opposition Interests.

As a test of their strength in opposing interests which they consider nimical to the Farmers' Educational and Co-Operative Union, wealthy wheat growers of Umatilia County and the Walla Walla country are going to man-ufacture flour for export on an extensive scale, according to announce-ment made in Portland yesterday. While the plans of organization are not as yet complete, it is known that they include the building of flouring mills, warehouses, power plant, trans-mission lines and about 40 miles of railroad.

There is abundance of capital to finance the various enterprises in connection with the movement, \$500,000 having been already subscribed, and there is plenty of money, say the promoters, available for operative expenses as well as for additional plants that may be installed from time to

According to the plans as outlined, only two mills will be established at present, one at Adams, the center of the wheat-producing district of Uma-tilla County, and the other at Walla Walla. These mills will have a daily capacity of 250 barrels each, but will be so constructed as to permit an in-crease of capacity at nominal cost in the event the move is justifiable. They will be equipped with the latest improved machinery.

Site for Plant Under Option.

The power plant will be located about eight miles east of Adams, on the Uma-tilla River. Water rights and site for the power plant are now under option and will be taken over as soon as it is definitely settled that the plans of the farmers will be carried through. It is estimated that the proposed plant will develop between 4000 and 5000 horse-power. This is considered sufficient to run the mills and to supply light and power to farmers and nearby towns. It is planned to build a railroad from

Adams to some point on the Columbia River, probably at Cold Spring. The line will be about 40 miles in length line will be about 40 miles in length and will tap a good wheat country which has long been in need of better transportation facilities, say the farmers. It is proposed to install gasoline motors instead of steam or electrical power to operate the road. As the loaded trains will have an easy grade to the river and the backhaul will be composed mostly of empty cars, it is believed the motors will serve their purpose satisfactorily and at the same time be as cheap as other motive power.

Promoter Makes Statement.

It is understood that in connection with this line a string of boats will be operated between Cold Spring or Umatilla Landing and Portland during the shipping season. The farmers believe that by shipping their grain, flour and other commodities to this point by water, they will be able to save many thousands of dollars ansave many thousands or dollars annually and at the same time be instru-mental in causing a general reduction of freight rates on grain and flour from the interior to Portland.

In discussing the matter, C. H. Lind,

one of the chief promoters, said that the project had the indersement of the Farmers' Educational and Co-Operative Union and wheatgrowers generally. He believes that tremendous pressure will be brought to bear in revolutionizing the flour and grain industry of the Davids Northwest

"We feel that we are taking a move that will ultimately result in a great victory for the wheatgrowers," con-tinued he, "and the people generally of this Coast. We realize that it will be a hard fight, but believe there are so many wrongs to right in this busi-ness that we will surely come out with flying colors in the end. We have the moral and financial support of strong interests and are meeting with mo encouragement than we had hoped f when the matter was first discussed."

## BEAR MAKES QUICK TRIP

Voyage Is First on New Schedule, San Pedro to Portland.

Less than 48 hours from the time she left the dock in San Francisco, the steamer Bear was tied up to the Ainsworth dock yesterday afternoon. While it was not a record trip, it was one of unusual speed and was the first trip that the new steamer has made on the new schedule from San Pedro to Portland.

The steamer Bear had 250 passengers from San Pedro and San Francisco when from San Pedro and San Francisco whe she arrived yesterday. She also brought 1600 tons of general freight. A large number of the passengers were from San Francisco. The demand for berths from Francisco. The demand for berths from Los Angeles, it was explained, at present is light, owing to a lack of public knowledge of the new line to that port.

All the way up the cost the Bear had good weather and little sickness was ex-

was avoided was a surprise to those who witnessed the accident.

The Spencer had gone below the bridge to get oil and returning up the river came in behind the steamer Kellogg, which was heading for the west side of the draw of the Burnside-street bridge. Instead of following the Kellogg through the west side of the draw, the Spencer turned to the east channel and met the Shaver, which was towing a barge loaded with gravel. There was no room for the two vessels to pass, but as they were going slowly, the force of the collision

#### Rygja Has Small Cargo.

From the Orient by way of San Fran-isco, the Portland & Asiatic Steamship company's steamer Rygia is due in Port. land tomorrow. The larger part of he load was discharged in San Francisco an when she gets into this port she will have only 700 tons to unload. The Rygja's cargo for Portland is principally sulphur, which she is bringing here from Japan. Instead of going to her old berth at the Alaska dock the Rygia will tie up Albers dock No. 3. The reason for this is that

the Alaska dock is being torn down to make way for the new O. R. & N. bridge.

Marine Notes.
