

TART IS GRATEFUL

Dr. Coe Says Colwell Appointment Shows Attitude.

WILL NOT IGNORE REGULARS

Bourne's Equivocal Position Does Not Deter President From Recognizing Men Who Helped Him to Secure Nomination.

Elmer B. Colwell, successor to C. J. Reed as United States Marshal, and his friend, Dr. Henry Waldo Coe, yesterday received congratulations on the success of the regular Republican organization in securing the appointment.

Dr. Coe insists that the compliment was intended to be significant of the good work of the Oregon delegation to the Chicago National convention, which nominated President Taft, and the later efforts of Oregonians in behalf of Republican success down the line.

"The attitude of the President toward Oregon appointments must be a very trying and delicate one," said Dr. Coe, "and Republicans of all shades should sympathize with the President, whether individual appointments have always pleased them or not.

"The President is a great, big-hearted fellow, appreciative, far-seeing and tactful, but matters in Oregon are so badly mixed that he cannot fail to be disturbed over the situation. He is alive to his obligations to the delegation and organization here which helped nominate him and which did service in financing and carrying on its own work in the interest of the Republican ticket. This is shown by the reinstatement of Colonel Dunne as Collector and the present appointment of Colwell, urged by the regular organization, to the office of United States Marshal.

"However, Oregon, in addition to sending a delegation to Chicago for Mr. Taft, also sent a Senator, and that Senator, Mr. Bourne. Usage there requires that the President shall heed the suggestions of the Senators from a state, where such Senators are working in harmony with the Administration.

"Senator Bourne and the regular organization in Oregon are at odds. The President is therefore in a very awkward position. To complicate matters further, Senator Bourne's irregularity with his own action in Oregon is a matter of which he is very conscious. This weakens him in Washington, where he has become an unknown quantity to regulars and insurgents are uncertain as to his real position.

"The President and not the Senator makes the appointments. He looks to me as though some kind of a compromise might be effected between the President and the Senator as to Oregon matters or an open rupture between the President and the Senator. The President shows that he cannot be deterred from dealing fairly with all factions here. Bourne's well known attitude of all or nothing is shown by his opposition to Dunne and Colwell, although in fairness the regular organization must be recognized as possessing undoubted rights to a portion of the Federal patronage.

"The recent appointments here of Bourne men show the President's desire for fairness to all factions of the party. If the President cannot get an occasional appointment confirmed for the regular organization which helped nominate him from Oregon, it would seem to me self-evident that he will make no appointments further for the Senator and that an open breach is probably ensuing. In such case the President can insist upon confirmations and he would surely get them, as he does for Wisconsin and elsewhere, over the objection of the Senator, who are opposing the President.

"In the meantime, Mr. Colwell holds the office and the President is his friend."

REED IS IN JOCLULAR MOOD

Deposed Marshal Seriously Thinking of Becoming Capitalist.

United States Marshal C. J. Reed had very little to say yesterday concerning the naming of Elmer B. Colwell as his successor. In response to a question as to what line of vocation would engage his attention after his retirement from office, the Marshal said: "I think that the greatest inducements for a young man are to be found among the capitalists, and I am seriously thinking of taking up the profession of a capitalist. In such case the President can insist upon confirmations and he would surely get them, as he does for Wisconsin and elsewhere, over the objection of the Senator, who are opposing the President.

"If it is true that he is going to abandon the land fraud prosecutions because of my departure from the office of United States Marshal, then it is possible that Williamson, Herrmann, Jones and a few more of the 'boys' may decide to pension me. In that case, I would not have to work."

Marshal Reed announced that he would only require a few days in order to arrange the affairs of his office in relation to turn them over to Mr. Colwell. Five days would suffice to complete the operation.

The commission signed by the President and naming Mr. Colwell to succeed Mr. Reed will be sent to the judges of the United States Court. Then Colwell will furnish them a bond in such sum as the Department of Justice shall name, and after receiving the approval of the court, the bond will be forwarded to Washington for the scrutiny of the Secretary. Should it receive the approval of that officer, a sum of money sufficient for the payment of court accounts will be forwarded to Mr. Colwell and he will be prepared to do business.

Marshal Reed is in possession of all the funds now allowed to the Oregon court, and is required to close out the account with his term.

Following the preliminaries as to the receipt of the bond and its approval, Mr. Colwell will call upon the present incumbent and arrange a satisfactory date for receiving the office. Colwell will be required to receipt for all of the papers, furniture and books in the possession of Reed.

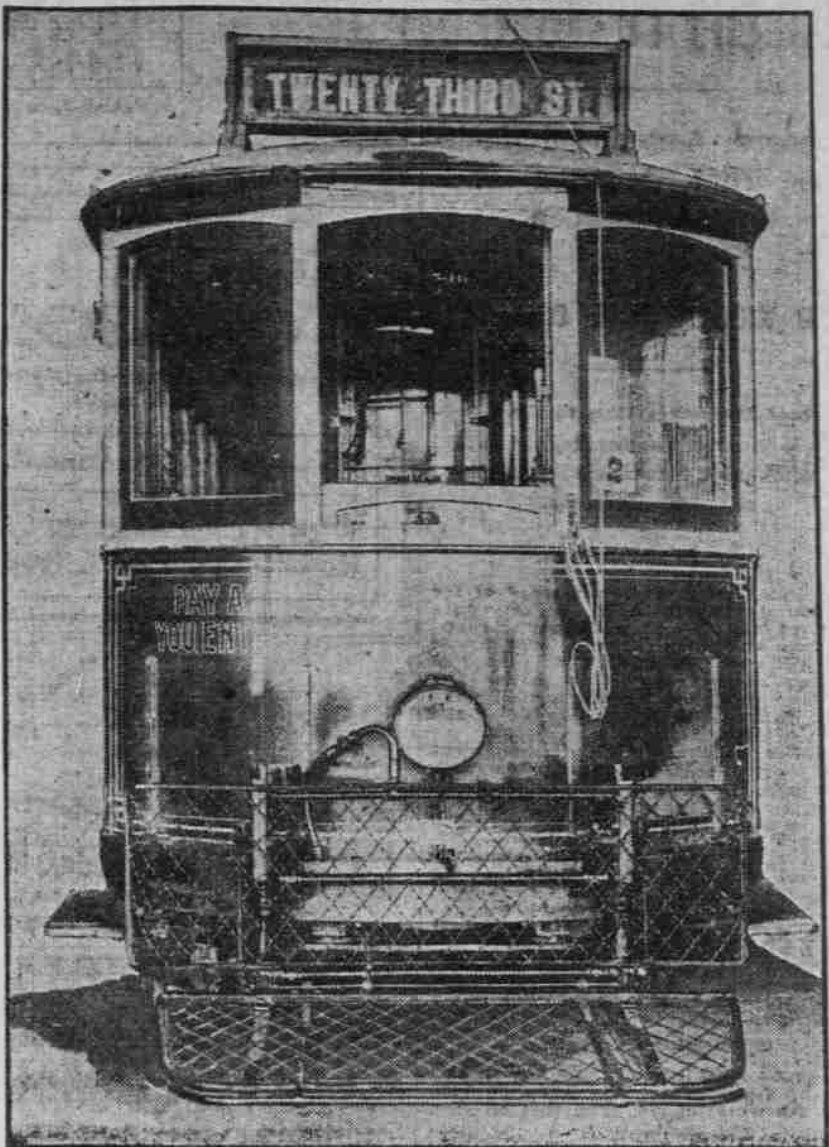

ADDITION MADE TO MUSEUM

Smithsonian Institute Sends Collection of Mammals.

Through the efforts of C. F. Wiegand, curator, a notable addition has been made to the collection in the City Free Museum. Representative Ellis lent his influence with the Smithsonian Institute, and as a result there arrived in Portland yesterday morning a fine lot of mammals which will at once be installed in the City Hall for public observation.

The collection contains two otter, a wildcat, a red and a ground squirrel, a rabbit, coati, porcupine, monkey and koala, and W. de C. Rawlins, administrative assistant in the Smithsonian Institution, wrote to Curator Wiegand that other mammals may be sent later, if the museum here wishes them. Wiegand has signified a desire for all that can be spared, and hopes to have an excellent collection of these specimens in due time.

EASTERN INVENTOR'S STREETCAR FENDER NOW IN OPERATION IN PORTLAND.

LIFESAVER WORKED BY MOTORMAN BY USE OF AIRBRAKES. In accordance with a resolution recently adopted by the City Council, the American Automatic Fender Company's air-controlled streetcar fender, shown above, is now being operated on the streets of Portland. It is attached to car No. 448, and is this week on the Washington-street run. The fender is connected with the main air reservoir of the car, and is operated by the motorman with the same lever with which he handles the brakes. The brakes, however, can be operated independently of the fender.

In emergencies the fender works automatically, contact with an object on the track throwing it instantly to the rail and at the same time setting the emergency brakes on the car. It has been successfully demonstrated in Portland by the inventor and patentee, F. A. Nelson, of Minneapolis, who, with A. B. Stickney, ex-president of the Chicago Great Western Railway Company, and C. S. Mellen, ex-president of the Northern Pacific Railway Company, own and control it.

During the past two years they have spent more than \$3,000 in perfecting the device, which is now in use in Brooklyn, New York, Cleveland, Ohio, and other cities in the East. Portland is the first city in the West to put it in practical operation.

NEW ISSUES ARISE

Woodmen Session Promises to Be Important.

HEAD OFFICIALS DIFFER

Chief Book Insists All Conventions of Pacific Jurisdiction Should Be Held in Denver—Cheaper Insurance Is Asked.

Foremost issues in the meeting of the head camp, Woodmen of the World of the Pacific Jurisdiction, which convenes in Portland next Monday, will be the recommendation that all such sessions be held in Denver, Colo., after this year. The innovation will carry into effect the report of the chief officer of the order, I. L. Boak. Mr. Boak is reported to have impressed upon the members of the head camp the necessity of a change in the location of the annual sessions. Other officers of the head camp are said to entertain other opinions.

Another feature of the legislation which will be considered at the meeting of 300 or more delegates will relate to the abandonment of the "monument clause" of the constitution of the Woodmen. It will be pointed out that \$100 monuments have been erected for the past 19 years from the benefit fund, and that no increment has come to that fund to replace the large expenditure. The chief of the Woodmen is of the opinion that a special fund should be created to bear that expense.

Another popular recommendation is said to concern a revision of the schedule of policies now issued by the fraternal. They are classified in amounts of \$1000, \$2000 and \$3000, and Mr. Boak will take a stand for adding a \$500 class of insurance to the classifications.

Membership Ban May Be Lifted.

In addition to the occupations which are now accepted as satisfactory, it will be recommended that firemen in cities of less than 10,000 population be made eligible for the benefits of the order.

Another recommendation which will probably pass is said to pertain to extending the honors of the floor of the head camp to the general attorney of the order. Heretofore the head physician has been allowed to participate in the deliberations of the body, but the lawyers have been barred.

One of the most popular recommendations emanating from the head camp is said to be that pertaining to the organization of juvenile camps. It is his purpose to form organizations of boys from 12 to 18 years of age and send them to the camps during the summer months.

The present session of the head camp of the Pacific Jurisdiction was intended to meet here during the same week selected by the Hibernians, but was postponed by order of Head Consul Boak in order that a conflict of dates might be avoided. The Woodmen now have 105,000 members in this jurisdiction, carrying an insurance of \$20,000,000. There is a surplus of approximately \$4,000,000, which is invested in municipal securities and which is averaging interest earnings of 4.33 per cent. Between \$100,000 and \$400,000 of the surplus is invested in Oregon.

Reports to Be Examined.

Beginning Wednesday, the committee of the Woodmen who are charged with an examination of the reports of officers, will meet at headquarters at the Oregon Hotel. The committee which will pass on rulings of the head camp is composed of T. P. Revelle, of Seattle; W. R. Reed, of Denver; J. W. Cook, of Lander, Wyo.; Dr. C. E. M. Loux, of Pocatello, Idaho; and W. J. Wright, of Dufer, Or.

The committee on reports will be made up of Henry Sanders, Oakland, Cal.; E. E. Gevens, Pueblo, Colo.; R. L. Wan, Corvallis, Or.; J. A. Albert, Santa Rosa, Cal.; and J. W. Jaquette, Santa Mont.

The Pacific Jurisdiction is said to have been particularly free from fraudulent death claims during the past few years, owing largely to the activity of the auditor of the Woodmen. The only case now pending where an attempt to beat the Woodmen of an insurance policy of \$2000 is that of John Corrigan, of Anaconda, Mont. Corrigan disappeared some years ago, and his alleged widow made claim for the money. The claim did not look good, because of no proof of death could be produced. Last week Corrigan was arrested in Washington State, and is now in the Denver jail to answer to a charge of attempting to defraud.

Among the well-known officers of the organization who are in Portland are Frank Bertschey, head auditor, and T. A. Hughes, head physician, both of Denver.

MOVING PICTURE EXHIBITS

Writer Says Fight Films Will Create Adverse Sentiment.

PORTLAND, July 8.—(To the Editor.)—The number of moving picture shows in operation in Portland, and in every busy center, is evidence that they are in demand and popular.

Since that memorable fight in Reno on July 4, between Jeffries and Johnson, we have heard of the opposition of moving pictures that were there to tell the story as no pen can, or the bloodshed, of the scene if any, of the superiority of one man over another, or the charm that drew thousands to Reno, and millions to read the bulletins as the rounds were reported.

MELVILLE CLARK

The charge against him, told Kiernan he was willing to return to Mrs. Bruce part of the \$5000 of which he is alleged to have defrauded her, but not all of it. The crime for which Houtchens was arrested is alleged to have been committed over five years ago, but he has been out of the court's jurisdiction all that time. Mrs. Bruce charges that he sold a piece of property for her and retained \$1000 which he secured for her. Later, she says, he negotiated a loan and secured \$500 from her, but failed to turn it over to the borrower. He then married her, though she was 69 and he but 35 years of age. Immediately after the marriage, which took place at Albany, he deserted her, she says. Mrs. Bruce maintains herself by doing domestic work. Houtchens will be given a preliminary hearing in Justice Court tomorrow.

PRISONER FEARS WOMAN

Alleged Burglar Shrinks From One Who PUNCHES Him Twice.

Joe Sanchez, Mexican and alleged burglar, shrank timidly as he emerged from the box in Police Court yesterday morning and saw sitting near the door Mrs. M. Delahanty, who on Saturday administered two stinging blows to his face, in the corridor of the jail. Sanchez sidled along the wall as far as possible from his former assailant, and repeated the performance when he was led back to his cell. The little woman who had given him the chastisement glowered fiercely at the Mexican, but made no attempt to repeat her attack. "I got in two good ones Saturday," she said, "and I guess that will do."

Sanchez is accused of entering the home of Mrs. Farrell, Mrs. Delahanty's mother, stealing some jewelry and frightening the aged woman severely. When Mrs. Delahanty went to identify the man last Saturday, her wrath burned and she struck him with both fists through the bars of the jail.

Sanchez was given preliminary examination and will go direct to the grand jury.

L. C. Houtchens, formerly a real estate dealer in this city, accused of defrauding Caroline Bruce, an aged widow, of property valued at \$5000, was brought back from Walls, Walla by Deputy Constable Kiernan Sunday afternoon and lodged in the County Jail under cash bail of \$5000. Houtchens, while reticent concerning
