DAHO DEMOCRACY IS FACING CBISIS

Plan for United State Ticket Seems to Have Gone Glimmering.

PARTY LEADERS ARE LOST

New Candidates for Governor Jump Into Political Arena-North and South Divisions of Commonwealth Are Divided.

BOISE. Idaho. July 18.—(Special.)—
Idaho Democracy faces a serious situation now that the primary campaign, the first for Idaho is well on its way, one that endangers party harmony, for where a month ago there was every indication that no opposition would be encountered in the selection of a united state ticket, there now appears a hitch indicating that several conflicts will be waged over offices from the Gov-

ernor down.

Party leaders are at a loss how to remedy the existing "evil." for they had planned on the selection of men whom they believed would be the strongest and the "putting aside" of the weaker aspirants.

The fight came where, apparently, it was the least expected for two nomination papers have already been filed for Gubernatorial candidates. John C. Nice, a prominent attorney of Caldwell.

Rice, a prominent attorney of Caldwell, and known to be a man of high charac-ter, announced his candidacy two months ago.

Another Candidate Out.

Another Candidate Out.

However, Mr. Rice was not destined to have the nomination without opposition. This week the nomination paper of James H. Hawley, probably one of the best-known lawyers of the state and a resident of Boise, was filed. Although he has been urged by party leaders to accept the nomination, so far Mr. Hawley has held off. It is known, however, that he will accept and contest the nomination with Rice unless the latter can be induced to withdraw and be a victim of the elimination plan, said to have been adopted by the powers that be in the party.

It is now well known politicall history that through an agreement entered into between those who would direct the rather uncertain ways of Democracy in the State of Idaho, it was decided that in allowing the eight northern counties of the state to pick the candidates for Attorney-General and Superintendent of Public Instruction, both of whom are announced, the south should have the pick of the Gubernatorial and Congressional candidates.

The programme as to the northy no counties worked out satisfactorily for

The programme as to the north of no counties worked out satisfactorily for J. C. Moore, of Moscow, recently announced his candidacy for Attorney-General and F. A. Frasier, of Coeur d'Alene, was the picked candidate for Superintendent of Public Instruction. Both officers are members of the State Land Board, probably the most important body in the state government, for it controls all state lands. it controls all state lands.

It controls all state lands.

The calculations of the leaders, however, were not correct as to the south, where they had settled upon two candidates, one for Congress and the other for Governor. Two other independent candidates, who had not consulted with the leaders entered the race. They were John C. Rice, of Caldwell, Gubernatorial aspirant, and Arthur M. Brown, of Hailey, candidate for Congress. Here was ley, candidate for Congress. Here was a situation entirely unexpected. So far as Bowen was concerned the party leaders favored tendering him their support, but with Rice it proved different. The party leaders hardly recognized that he was in the race.

Chairman Nugent Busy.

State Chairman John Nugent sounded able trip to the panhandle. His watch-word was "harmony," and he cautioned those who looked for victory not to build political aircastles unless they could go into the direct primaries with-out conflict. To the more confidential leaders he quietly informed them, if reports are true, that the south has three men whom it favored for the

reports are true, that the south has three men whom it favored for the Gubernatorial candidacy. They were Moses Alexander, who was defeated two years ago; Joseph T. Pence, Mayor of Boise, and James H. Hawley, whose petition has been filed. Upon his return to the south Mr. Nugent is known to have conferred with his lieutenants with the result that Alexander and Pence were eliminated and the nomination placed up to Hawley.

The ardent supporters of Rice declare that if those who assume to lead the party and name its ticket in face of the existing primary believe they can force Rice out of the race, they have not counted the temperament of their man. They are for Rice first, last and all the time. The Hawley admirers, however, have launched a boom for their candidate which bids fair to overshadow that of Rice. The supporters of both are asking what will be the outcome—will Rice retire in favor of his opponent to save party harmony, or opponent to save party harmony, or will Hawley execute the Gaston act? If neither do, both will run and the Democratic party is divided.

L. A. Newton, who investigated the system and advised his company to buy the plant here, says that approximately \$30,000 will be the cost of the rehabilitation of the system in this city. Instead of building from Weed, as was first planned, Mr. Newton has recommended leaving the main line across the mountains at Alturas and running from there to Klamath Falls. This route will be much freer from the large timber, which would be encountered on the route from Weed. This line would also be shorter. also be shorter.

Mr. Newton estimates that at least one-half of the amount required for the construction of the proposed lines and working over of the system here will be expended for labor. A large amount of the other half would go for poles.

THIS REDWOOD CITY WOMAN FEARED INSANITY.

Trouble Entirely Cured When the Weak Nerves Were Toned up by Dr. Williams' Pink Pills.

If every pale, weak, nervous woman who reads these lines would try the remedy that cured Mrs. Stothers there would be far less suffering, fewer children born to a beritage of weak nerves, fewer unhappy homes.

Weak nerves mean irritableness, hysteria, headaches, melancholia, perhaps insanity. Build up the nerves by using Dr. Williams' Pink Pills, at the same time toning up the general health and you will see an increasing appetite, a happier disposition, a lighter step, free-dom from lassitude, a return to sound

"I was troubled with nervousness for about two years and the last year became so much worse that I was completely run down, was pale and thin and could get hardly any sleep. I was always seeing imaginary things before my eyes. Whenever my child cried or there was any noise, I would get so nervous that I could hardly stand it. I had splitting headsches and at times thought I would go insane.

"I had been quite sick for several menths before I heard of Dr. Williams' Pink Pills. The druggist told my husband to have me try them and after a short trial I felt much better. The pills gave me color and built me up. I gave them a good trial and was entirely cured."

If you are interested in the treatment of nervous troubles with Dr. Williams' Pink Pills, send for our free booklet, "Diseases of the Nervous System." It shews what the pills have accomplished in many recent cases of neuralgia, sciatica, St. Vitus' dance, nervous headache, nervous dyspepsia, partial paralysis and le-
