Council's Desire to Have Consumers Install Meters Does Not Meet With Favor.

FOREST GROVE, Or., July 20.—(Special.)—Voters who believed that the operation of the electric light plant by the city would give better service at cheaper rates have been decelved as to the cost of electric lighting. The Council at its meeting yesterday proposed an ordinance fixing the flate rate at 5 cents per candile power instead of 3 cents as at present. This 5-cent flat rate holds for consumption up to 50 candiepower. Most of the smaller residences have taken from \$1 up to \$2 worth of light per month. The new rate makes electric lighting almost prohibitive for the poor people.

### LABOR CASE NOT ENDED Stove Company's Withdrawal Will Not Stop Prosecution.

WASHINGTON, July 20 -- Until ofcials of the Department of Justice ave communicated with Attorney-Gen-ral Wickersham, now en route to daska, no announcement will be made here concerning the procedure which may be had in the pending prosecutions of officials of the American Federation of Labor, growing out of their troubles with the Buck Stove & Range Co., of St. Louis

These cases are pending in the United States Supreme Court. It is pointed out that while the contempt proceedings were pushed by the attorneys of the stove company, which has now withdrawn these legal representatives, the case has gone beyond them and the issue is at present one of National law and the dignity of the courts.
