

HIBERNIANS VOTE FUNDS FOR CHURCH

Delegates Urge Vigorous Promulgation of Teachings of Catholic Faith.

OREGON WORK GETS \$25,000

Deeply Moved by Delegates' Generous Action, Archbishop Christie Blesses Assembly—Election of Officers Is This Morning.

Going on record by unanimous vote for the extension of church work and the vigorous promulgation of Catholic teachings in Oregon and the provinces of Canada, the Ancient Order of Hibernians yesterday afternoon voted to raise funds of \$25,000 among members of the organization.

This action is considered one of the most magnificent and important events in the history of the Hibernians. The amount, about \$25,000, will be used for prosecuting the work of extension in Oregon. Archbishop Christie was deeply moved by the announcement of the movement and gave the delegates his special blessing.

Following this incident, James O'Sullivan, of Lowell, Mass., asked the privilege of the floor and said that he was related to the great missionary work being done by the order and the wholesome expressions of the delegates. In appreciation of the movement of the church extension work, O'Sullivan said he would donate \$500 to the cause now and one year hence would duplicate the amount. Archbishop Christie then said that the next chapel to be erected in the Oregon archdiocese would be built with the money given by O'Sullivan.

Irish History to Be Studied. Among other important matters of the day was the adoption of resolutions making the study of Irish history compulsory in the parochial schools of the United States and Canada. This decision received the unanimous sanction of the delegates. Archbishop Christie appointed and plans arranged at once to get the subject included in the regular courses of the Catholic schools.

The question of organization of a National Insurance society under the auspices of the order was discussed at length and it was finally decided that the existing officers be authorized to formulate a plan for the establishment of the society. The new officers and board of directors will be clothed with full power to carry out the plan.

Election This Morning. None of the committees having in charge much of the important unfinished business were ready to submit a report yesterday, with the exception of the committee on the military department of the order. There are now in the Hibernian Knights and Hibernian Rifles 424 men and 380 cadets, making a total of 804.

Five Cities in Running. Five cities are now in the running for the next convention of the order. Since Atlantic City and Milwaukee were mentioned yesterday, Philadelphia, Boston and Columbus, Ohio, are busy during the day. As Pennsylvania has the largest delegation in attendance at the convention, it has been seen favorable that Philadelphia will be the next meeting place.

Fight for Offices Develops. While it was generally believed that there would be no fight of consequence over the election of any officers except the National president, it developed yesterday that there will be a strong opposition to James T. McGinnis, candidate to succeed himself as National secretary. Vice-President J. H. Regan, of St. Paul, will be in the field against President Matthew Cummings, and, according to his friends, the Minnesota man will be the next president of the order. On the other hand, President Cummings has a strong following, and his admirers announce that they will make the fight of their lives for his reelection.

For the office of secretary the name of J. E. Sullivan, of Philadelphia, was mentioned yesterday. Sullivan's friends declare their candidate is just the man for the place, and they believe that he will win out. Secretary McGinnis says, however, that he is not worrying over the result of the election, and expects to retain the office for another term. From all indications the race for the secretaryship will be as hotly contested as the election of the National president of the order.

To succeed Regan as vice-president, Patrick T. Moran, of Kingston, D. C., yesterday announced his candidacy. Moran is a wealthy merchant and banker of the National Capital, and is considered one of the influential men of the order. He is a member of the National board of directors. Professor M. G. Rohan, of Milwaukee, Wis., and James McLaughlin, of Philadelphia, are mentioned as candidates for director to succeed Cummings. The other directors, who will probably have no opposition, are: Rev. John Kennedy, of Danbury, Mass.; Major E. T. McCrystal, of New York City; Rev. J. J. O'Meara, of Butte, Mont.; and Charles T. Fox, of Perth, Can.

Officers to Be Elected Today. John P. Quinn, of Chicago, treasurer of the order, may also have opposition in the person of Thomas Maloney, Mayor of Council Bluffs. It was announced last evening that Maloney would probably accept the candidacy. The election of officers is scheduled to be held at this afternoon's session.

During the intermissions the delegates are entertained by selections from the Gaelophone, an instrument recently invented to preserve the accent and to keep alive the Irish language.

Among the features of the morning session yesterday was the unanimous approval of the order for the adoption of the study of Irish history in the Catholic institutions of the United States and Canada. The subject has

been studied extensively by Professor M. G. Rohan, of Milwaukee, who prepared a comprehensive report for the convention and urged its official recognition by the order.

The various committees were engaged during the morning session in preparing their reports. The only one to announce its recommendations was the committee on church extension. The report was presented by Monsignor Toelning, chief among the members prayed for was the indorsement of a policy of appropriation of \$25,000 for each of the organizations of the American Federation of Catholic societies. It was suggested that the members of the order, about 180,000 in number, be assessed 25 cents per capita for missions. The amount realized in this manner would be \$45,000, and it was urged that the money be raised by January 1, 1911. Of this amount it was recommended that the proper ratio be given Oregon. This would reach \$25,000. Much of the remaining amount is to be donated to the work in the Canadian provinces.

Archbishop Christie Speaks. Archbishop Alexander Christie, of Oregon City, addressed the convention on the extension work in this state and on the Pacific Northwest. He said that excellent progress was being made. Used in this work is present is the mission car St. Anthony, now in Portland. The archbishop said that by use of the car 12 chapels had been erected in different parts of the state, and that many former members of the church had been brought back into the faith. At 8 o'clock this morning Father Christie will hold mass in the car for the visiting Hibernians.

Many messages were received at the convention during the session and were read by Secretary McGinnis. One of the greetings that elicited loud applause was from President Ferguson, of the Belfast, Ireland, branch of the order. A greeting from Honolulu, by President Creighton, of the Hawaiian division, was enthusiastically received. Members of the press committee for the Hibernians have been appointed as follows: James F. McIvor, chairman; Edward Lenahan, John T. Fitzgerald, William T. May, J. J. Harrigan, Charles Kidwell, Rev. M. F. O'Brien, T. J. Henry, Thomas Brady, Robert E. Donnelly, Hugh Daly, James P. Sullivan, Jeremiah Cramlin, Thomas St. Johns, John McWilliams, T. J. Dermott, D. J. Cullin, Phillip Crimian and J. P. Coughlin.

AUXILIARY HEARS ADDRESSES Work of Women Praised by Speakers—Reports to Be Heard.

The morning session of the Women's Auxiliary convened yesterday at 9:45 o'clock at Knights of Pythias Hall. The committee did not have their reports ready for consideration and the session was given over to a programme of addresses. Professor M. G. Rohan spoke on "Irish History" and urged its adoption as a study in the parochial schools. Father Jones and Father Quinn talked interestingly of the influence the women are having for universal good. National Director J. J. O'Meara also praised the women for their Christian labors and concluded with the quotation that "the hand that rocks the cradle rules the world."

Aside from considering the various reports, little new business is scheduled for the remaining sessions except the election of officers and a few minor changes in the constitution. The present officers and directors, all of whom will probably be retained for another term, are:

Miss Anna C. Mulla, Scranton, Pa., president; Mrs. Mary McCarthy, field, Mass., vice-president; Mrs. Louis Du Ross, Utica, N. Y., secretary; Mrs. Mary B. Daly, Minneapolis, treasurer; Mrs. Mary McIvor, director; Chicago, director; Miss Mollie Fox, Fort Wayne, Ind., director.

At 1:30 o'clock this afternoon, special delegates from the Ancient Order of Hibernians and the Women's Auxiliary met at the Imperial Hotel for the purpose of discussing general matters for the good of the two organizations.

Members of the press committee of the Women's Auxiliary are: Annie DeSwan, chairman; Catherine Anderson, Rose Carroll, Jennie Leary, and Mary Seaver. A. Grace, Johanna McCarthy, Margaret Mooney, Isabelle McMahon and Elizabeth Doyle.

The Catholic Educational Institute at St. Mary's Academy this week, one of the interesting exhibits is the Palmer method of handwriting, which is being demonstrated by Miss La Mae Severance of the public schools of New York City. This method has been used for several years in the parochial schools and at the Catholic Business College in Portland. The Palmer system also is said to be popular in the public schools of Boston, New York, Chicago, and many other large cities of the United States. The schools claim the distinction of introducing this modern method of writing.

INITIALS EXPLAINED NEWLY Hibernian Delegate Gives New Significance to "A. O. H."

"Timmy" McCarthy, one of the delegates from St. Paul to the Ancient Order of Hibernians convention, understood to be the next president of the order, yesterday explained the meaning of the three initials yesterday afternoon.

A score of the St. Paul delegates are quartered at the Ramapo Hotel. Several of them met yesterday and started to view the city afoot in strolling groups. They explored several of the long streets of the delegates became separated in the city.

P. T. Kenny is a delegate to the convention from Butte, Mont. Kenny formerly lived in Portland, but has been a resident of the mining town for the last 10 years.

"I could hardly believe I was in Portland upon arriving here, the change has been so great," said he. "Portland has certainly made strides since I left the city. With the many new and spacious business blocks and others in the course of erection the 'convention city' is making a bid to be the business center of the North Pacific Coast."

One of the features of entertainment being looked forward to by the visiting Hibernians is the trip on the Balley Gatzert from Portland to Cascade Locks tomorrow. The delegates will be given an opportunity to enjoy the famous Columbia River scenery, which is considered by many to rival that along any river in the world. The salmon wheels at various points will doubtless be objects of interest to the excursionists.

This year Hibernia will export 61,250 tons of butter, against 53,000 tons in 1909. Germany, England and Denmark are the best customers.

MAHR FUND \$2402

Assembly Delegates Respond to Help Plucky Actress.

\$343 GIVEN AT MEETING

Blind Street Singer Contributes Day's Earnings—Donations Pour in From Every Side to Aid Injured Girl.

MISS MAHR BENEFIT FUND. Total collections for Miss Marjorie Mahr benefit fund are now \$2402.01. Delegates to the Republican State Assembly contributed \$343.53 to fund. Kate Brooman, blind woman, contributes \$1.33. Several donations from out of town are received.

A straw hat level full of gold, silver and copper coins for the benefit of Miss Marjorie Mahr was contributed in about five minutes' time by the delegates to the Republican state assembly. The exact sum is as yet unknown, but Sig Sichel has accounted for \$343.53. He has been promised additional amounts, and it is hoped to make the total go above \$500 for the benefit of the helpless little woman out at the Good Samaritan Hospital.

While the delegates were getting settled into their seats following the noon adjournment Sichel asked permission of Chairman W. C. Bristol to present the idea of doing something for the brave little sufferer. Being somewhat modest about the matter, Sichel prevailed upon Delegate George L. Baker to make the address. Baker told in a few simple phrases of the accident on the Southern Pacific trestle whereby the girl actress lost both legs, and of the struggle she is making to live.

While he was talking money fell on the platform, and in a few moments more men with hats in their hands were scurrying around the hall in the goal of doing something for the brave little sufferer. The money was first piled in a heap in front of the chairman, and later carried to a table, where it was counted and wrapped.

One of the most pathetic contributions which has come to the fund was the donation last night by a blind street singer of the proceeds of her work during the afternoon. Mrs. Kate Brooman is her name. Yesterday afternoon she sang "The Wearer of the Green" at the corner of Seventh and Washington. She received \$11.33 for the collection from passing her cup around.

"I know something of the suffering that little girl is enduring out there at the hospital," said Mrs. Brooman. "The people reading me something about her trouble. If I could trade her one of my good legs for one of her good eyes maybe we would both be more useful. But, anyway, I will help her."

Many voluntary contributions were received during the day. The society women who are acting as patronesses are actively at work and are meeting with success in receiving donations. Persons living at the Hobart-Curtis Hotel collected \$18 yesterday and sent that sum to the Evening Telegram. Employees of the White Motor Car Company sent a fund of \$11. Several donations were left at the Lyric Theater, while many others were sent to The Oregonian. Miss Daniels, Miss Cassell and Miss Howard sold tickets at the Commercial Club during the luncheon hour and reaped a neat little harvest of help.

In the list published yesterday Mrs. A. Simon, of Chautauque, should have been credited with \$5. The contribution of Mrs. Josephine Hirsch was \$10.

The fund up to date is as follows: Previously reported \$1022.37 Charles V. Lamb of The Dalles, Or. 2.00 Mrs. Edward Hoffman, ten tickets. 10.00 Miss Davis of Lyric Theater, 11 tickets sold to help her. 11.00 English, B. Reina, R. B. Knight, H. EUGENE KRAPP took a keen delight in beating the Seals yesterday, for he desired revenge for the two beatings the Seals gave him when they last appeared here.

The gingerly little pitcher should have scored a shutout, and probably would have been successful had he not been too anxious to catch Bodie off first base in the third inning.

Walter McCredie waxed indignant at Umpire Hildebrand in the sixth inning, for Hildy insisted on keeping Mac on the bench, though he allowed Tennant to coach when Tommy was even worse than the Portland manager.

In the ninth inning Tommy Murray more than evened up for his blunder in not touching first, for he caught a short pop-fly from Tennant's bat and doubled Jimmy Lewis at first. Lewis had walked and things looked dangerous.

Krapp followed this play by fanning "Ping" Bodie, who is always a dangerous hitter and the work of the Portland pitcher in causing the slugger to whiff for the second time in the game was wildly applauded.

In the sixth inning Kid Mohler hit for two bases with one out, and a fielder's choice put him on third with Tennant at bat. Tommy is "some hitter" and looks dangerous, but Krapp put all he had on the ball, and the Seal first sacker fanned.

In the second inning McArdle opened with an infield hit. Sutor fanned, and Vitt shot a hot one to Casey, which resulted in one of the noisiest and prettiest double plays of the season, Olson receiving Casey's toss and throwing to first ahead of Vitt.

In the fourth inning after Portland had scored one run, Casey slammed one on the beam that looked good for two or three sacks, but "Ping" Bodie managed to knock the sphere in a sensational catch that caused the fans to shout their praises.

Billy Speas, the boy who eventually won the game for Portland, fanned out the first two times he faced Sutor. This probably aroused Billy's determination, and his third trip up he smote the ball a mighty amiss.

Judge Thomas F. Graham, president of the Coast League, accompanied by his wife and daughter, occupied a box at the game with Judge McCredie. The Graham family enjoyed the game and applauded the good plays frequently.

Former Rulings Reversed. Presiding Judge Morrow yesterday gave a decision which reverses former rulings by some of his associates on the bench of Multnomah County, when he held that suits can be maintained and the plea in abatement in setting up the claim of homestead is not well taken. The decision followed the hearing of the case of Minnie C. Hansen against William Jones.

Judge Morrow will today act for the last time in the capacity of presiding judge of the Circuit Court, when he takes up ex parte matters at 10 A. M. Judge Gates will succeed him in the position until the return of Judge Gantenben in August. Judge Morrow is going to visit his mother in Washington, D. C., during his vacation.
