ADVANCE IN FLOUR

Patents Will Go Up 20 Cents a Barrel.

BUYING ON ACTIVE SCALE

Market Follows the Upward Course of Wheat Prices-Crop Conditions in the Pacific Northwest.

Keeping company with the steady upward course of wheat prices, local flour quetations on all grades, except export, will be advanced today or tomorrow. The rise will be 20 cents a barrel, which will bring the price of patents up to \$5.35 a barrel. A similar advance took place in the Scattle market yesterday. This rise in flour prices has been anticipated for some time past and the trade has been buying steadily.

There was not much doing in the local wheat market yesterday, owing to the scare-

when market yesterday, owing to the scare-ity of offerings. Bluestern was quoted nomi-nally at 22:133 cents but it was not likely that much could be bought under 35 cents and it is probable that anyone in need of wheat would be willing to pay that figure. Onto and barby were firm, but quiet, as mly a little stock was available.

The hay market holds stondy under a good

demand and light receipts. Prices in the social part of the social par ing to lay affairs down here at less than holders east of the mountains are asking. A big crop of grain hay and an ordinary trop of timothy is promised in the North-

taspection trip through the Eastern Oregon and Eastern Washington wheat sections, reports that in Umatilla, Morrow, Gillism and Sherman counties the conditions are very good. The Big Bend country and Asotin County have been hit harder than any other part of the Northwest. In the Palouse country the Spring wheat is poor, but the Fall wheat looks fairly ground while in Country.

The best brought 34 per crate, but a good many of them were soft.

The best brought 34 per crate, but a good many of them were soft.

Another car of Eiberta peaches arrived from California and were quoted firm at \$1.25 per box. Dealers are complaining of the large quantity of peaches of very small size coming from Southern Oregon and Valley points. Some of the shipments are unsaleable. Good Oregon peaches bring 65 q75 cents per box. Two cars of bananas were received during the day.

Green corn is beginning to arrive from Green corn is beginning to arrive from The Dalles, but much of it is of poor

BUTTER PRICES WILL ADVANCE TODAY City Creamery Will Be Quoted Two Cents

Higher, at 35 Cents. Local butter prices will be advanced 2 cents a pound today, making the quotation on city creamery, in box lots, 23 cents. The recent hot weather has had a telling The recent not weather has had a tening effect on the pastures and the cream supply has materially diminished. At the same time, the demand for cream has increased. The poultry market was weak, but Wednesday's prices were again quoted. Receipts were fairly large, and buyers were more of less indifferent.
Eggs were steady, the demand for local

ranch and the supply being about equal

Red Spider in Hop Yards. The continued dry weather is Beginning to affect the hop yards in the Williametre Valley. In some sections the leaves have commenced to turn yellow, and it is said that red spider has made its appearance in several yards. Some of the growers are spraying to eradicate the pest. Unless there is a change in the weather soon, the yield in Oragon will be out down.

Bank Clearings Bank clearings of the Northwestern cities yesterday were no follows:

BUTTER UP TWO CENTS

SEATTLE MARKET ADVANCES TO 34 CENTS.

Watermelons in Oversupply and Lower-Heavy Receipts Cause Weakness in Potatoes.

SEATTLE, Wash, July 21.—(Special.)—
Butter advanced today to 34 cents, a rise
of two cents per pound. Eggs were steady.
Fresh local ranch eggs are striving very
slowly. While 34 cents is the official price
for fresh local ranch eggs, sales were made
today at 33 cents, vesal was in light supply.
Top stock sold at 13th cents.
Grains were quiet and unchanged. A
preminent railroad official here today asserted that his company expects a considerable movement of Washington wheat to
the Middle West this Fall.

The watermelon market displayed considerable weakness. Fasicy melons were held
at 1th conts, but some stock sold as low as
1th cents. The demand appears to have
teen pretty well satisfied. The increase in
the supply of cantaloupes has also hurt the
demand for watermelon.

There were large receipts of peaches today, but good California stock commanded
To cents. The potate market was easier,
due to recent heavy receipts. Loganberries
are airriving more freely and are lower.

An advance of 10 cents in patent flour
is expected tomorrow.

SAN FRANCISCO QUOTATIONS.

Reduction of Dividend Affects Price of Stock.

MARKET RALLIES AT CLOSE

Copper Dividend Not Announced Until After the Session-Time-Money Is Growing Easier. Foreign Exchange Firm.

NEW YORK, July 21 .- Until the redustate of 100-share lots could be effected only unsupported state of the stock market today was a numerum affair. The news of this action created some speculative excitement and its influence was reinforced by the wholly unsupported state of the stock in the market. Sales of 100-share lots could be effected only it rankl concessions of 1 to 12 noints be-

supported state of the stock in the market. Sales of 190-share lots could be effected only at rapid concessions of I to 1½ points between sales. Closing last night at 65%, the stock sold as low as 57. The simple explanation offered for the reduced dividend was that business and earnings did not warrant the maintenance of the higher rate.

The concrete example thus offered of the consequences of lessened trade activity to profits of business had a sharply depressive effect on speculative sentiment. The Amsigamated Copper dividend was not amounced until after the close, but prices showed some recovery. The action of the wheat and cotton markets revived uneasiness over the crop prospects and the effect of the later easing of the wheat market was fost in the general weakness of stocks.

Time money here is growing easier and the foreign exchange market was firm.

Bonds irregular. Total sales, par value, \$1,009,000. United States bonds unchanged on tall.

OFFERINGS NOT HEAVY

TRADE IN THE LIVESTOCK MAR-KET IS RESTRICTED.

Demand Holds Steady and Prices Generally Are Well Maintained. Fancy Calves Higher.

Trade in the livestock market is still re-stricted by the limited offerings. Sheep con-tinue to come in in a fairly free way, but cattle are none too plentiful. No hogs ar-rived yesterday, With a steady demand and generally small supply, the market holds its

own.

Lambs sold at a wide range yesterday of \$4.30 to \$6, while sheep moved at \$3.90. Several loads of fancy calves brought \$7.50. There was little clse doing in the cattle line aside from two ols of heirers which sold at \$3.50 and \$3.70.

from two ols of heiters which sold at \$1.00 and \$1.70.

The receipts for the day were 234 cattle, 125 calves and 862 sheep.

Shippers of the stock were Conley & Rose, of Blakes, Idaho, seven cars of cattle; Kennewick Packing Company, one car of cattle from Umatilla; John McDonald, of Wallowa, one car of cattle and horses; L. E. West, of Oskkand, two cars of sheep; A. J. Devany, of Jefferson, two cars of sheep; J. R. Coleman, of Harrisburg, one car of cattle; C. Leiser, of Sheep, J. B. Coleman, of Silverton, one car of cattle and calves; M. J. Brown, of Dilley, one car of cattle, and William Shepard, who drove in 137 sheep.

Wheat, After a Sharp Break on Heavy Selling. Is Sympathetic-

proportions. Excitement, because of fear that dry weather might rum the growing grain, was the sole cause. The scare resulted in a net advance of 1½c to 2½ 22½ a bushel in the price of the reliow keenels and apparently saved wheat from a sharp deefine. Closing prices for the latter were 1½ 5% higher to %c lower. Onto finished with gains of 1½ 5% to %c. Provisions finished unchanged to 12½c up. Short sellers of every sort were forced to cover because of the stampede in the corn market. Among the shorts were many large speculators here and East and many houses with country connections. Reports were numerous as to damage in prospect west of the Mississippi. Details of actual injury to the crops were most plentiful from the Southwest. One dispatch from lowa asserted that much stock was being sold in that state, because there was no probability of getting feed for the animals. Rain, it was declared, was urgently, needed at once by fully half the corn in lows. The situation in Nebraska was said to be equally critical. Chicago stockyards were good buyers of feedstuffs all day.

September option ranged between 62c and 64 %c. closing at 63 % 66c. a net rise of 1% c to 2c.

Wheat, after a sharp break on heavy selling, responded materially to the big bulge in corn. Higher prices in European conters sustained the builtsh feeling for a brief period at the start, but that influence and calamity reports from the Spring crop country Northwest lacked the charm of novelty. A dull, dragging tone developed, but renewed airength was imparted from the corn pit. September ranged from \$1.60% \$1.00% to \$1.08% closing at \$1.67% to \$1.07%. Gats took a little of the color which prevailed in the corn trade. September varied from 30% \$30% c to 30% \$30c and finished in the corn trade. Provisions had an upward tendency; perk was 2% c to 10c higher, lard 2% c to 3% 7% c and ribs unchanged to 12% c up.
