

TRADE RESUMED TO NICARAGUA

Bluefields Declared Open Port and Business Now On Again.

DRASTIC MOVE EXPECTED

Uncle Sam Believed to Be Ready to Strike at Trouble in Central American Republic—Intervention Question in Doubt.

NEW ORLEANS, July 24.—The departure from here today of the steamer Imperator and Dictator marks the resumption of trade between American ports and Bluefields, Nicaragua, which was brought to a standstill several days ago when General Norval declared her recognition of the so-called blockade of Bluefields by Madriz.

The Imperator cleared for Bluefields via Cape Gracias with a mixed cargo, and the Dictator sailed in ballast direct for Bluefields.

The resumption of trade between the ports is the direct result of the State Department's orders declaring Bluefields an open port.

DEVELOPMENTS THIS WEEK

Secretary Knox May Call Halt to Nicaragua Trouble.

WASHINGTON, July 24.—(Special).—From what can be gathered in diplomatic circles heretofore, developments will be rapid in the case of Nicaragua this week. It appears that the little Central American republic has given Uncle Sam about all the trouble he will stand, though it is not definitely given out yet that intervention will end the worry.

The situation in Nicaragua is dire in the extreme. A war is in progress, which neither the government has the ability to end with victory, nor can it be pressed by force into the army of the Government and the army of the revolution.

Thousands of innocent persons without work, are leading a existence from hand to mouth. It is impossible to raise crops. There is grave danger of yellow fever breaking out and that the disease will spread the same zone and to the United States.

Altogether, the situation is one requiring wise statesmanship and firmness. On the one hand, the State Department is confronted by the necessity of protecting American interests and preventing the intervention of other nations, which might arouse public sentiment here and lead to complications on the ground of contempt and infringement of the Monroe Doctrine.

It is apparent the condition that exists cannot be allowed to continue long. Secretary Knox believes the revolution represents the ideals and the rights of the majority of the people of Nicaragua.

At the same time he has refrained from giving recognition to the de facto government. Similarly he has denied such recognition to the Madriz faction.

There has been some thought given by the authorities to armed intervention. Warships and marines were assembled upon the two coasts for that purpose. Most of this force, however, has been withdrawn, and at present there remains only a few ships to protect American interests.

It is expected here that the Nicaragua trouble will come a head this week and that some drastic measure will be taken by this Government.

J. R. KEENE IS SUED

Portland, July 24.—(To the Editor).—I am glad to read a discussion on the dog question. I have long had a disgust for any one that had dogs in a city. Dogs are all right in their place, but their place is not in the city. I have wondered what good a dog tax did me and others who have had their rest disturbed by having dogs on their lawn and flowers, fence corners and door posts, hounded.

BROKERS CHARGE CONSPIRACY TO WRECK BUSINESS.

NEW YORK, July 24.—(Special).—Henry R. Haskins and Henry S. Leverich, partners in the brokerage firm of Lathrop, Haskins & Co., which failed, are suing James R. Keene and members of the Stock Exchange firm of Jepper & Sternbach, Keene's brokers, for \$500,000. They allege that Keene and the brokerage firm conspired to put them out of business at the time of the Hocking Coal & Iron slump last January, with loss in collateral, margins, business and good name aggregating the sum of \$500,000. Any sum recovered is to go to the satisfaction of creditors.

NEW DEPOT DEDICATED

OCCASION IS MADE GALA ONE AT BAKER CITY. STOCKTON, Cal., July 24.—(Special).—The strike of many unions in Stockton is causing the business men and others a lot of worry at present and the outcome of the dispute is still in doubt. The first payday for those who wished to accept the strike benefit was yesterday, but only 100 of the 450 carpenters affected drew the \$6 coming to them. Many of the men are reported to have accepted work elsewhere and will not draw on the treasury.

DOG-LOVERS AND HATERS

Portland, July 24.—(To the Editor).—I read with interest A. J. Martin's communication in The Oregonian last Tuesday regarding the dog question. Dogs, in most cases, are all Mr. Martin says, unhealthy and disgusting. Why should other people's dogs be hurting their eyes, ears, nose, our own homes and verandas and also in the public library?

THREE WRITERS DISCUSS THE QUESTION OF USELESS CANINES.

Following the women's reception at the Geyser Grand Hotel, Baker City was represented by several speakers. Harriman speakers were Mr. Cotton, Mr. O'Brien, P. W. Robinson, assistant general freight agent; M. J. Buckley, general superintendent; W. Bollons, division superintendent; and C. T. A. Longman, chief engineer. Mr. Robinson spoke on the enormous amount of freight his office expected to move. The other speakers devoted their remarks to praise of Baker City and the Baker Valley.

WHISKY PROSPECTS BAD

LONDON, July 24.—(Special).—Sir Thomas Dewar, M. P., the head of the famous Scotch distilling firm, has a very gloomy view of the position of the whisky trade consequent on the retention of the increased spirit duty. "I say without hesitation," he declared, "that no fewer than one-fourth of the smaller whisky firms will go under and will assuredly close their doors before another budget comes out. I mean particularly those distilleries which are entirely dependent on a home trade. It is now impossible for any small concern to live upon that trade any longer."

DRUNKENNESS IS MENACE

ROME, July 24.—(Special).—Owing to the growing practice of drinking inferior spirits instead of light wines, drunkenness has begun to increase in Italy, where formerly it was comparatively unknown. So all the prefects have been ordered to prepare reports which will be used as a basis for legislation.

MINISTER PRAISES BOXING

LONDON, July 24.—(Special).—At the annual commencement at Pelsted School, Essex, this week, the Rev. F. Stephens, the headmaster, said a good deal of what was called the growing effeminacy among schoolboys.

COLLEGE WOMEN PRAISED

LONDON, July 24.—(Special).—Did the Duke of Marlborough find Consuelo Vanderbilt too mentally efficient after he married her? People are asking the question since the Duchess, whose domestic troubles are well known, gave an address to women at Sunderland House in support of the Bedford College for women.

PIPE EXPLODES BALLOON

VIENNA, July 24.—(Special).—An army officer and several peasants have been severely injured by the explosion of the Austrian military balloon Hungary, in the Province of Neutra, Hungary. The balloon started from the Vienna arsenal this morning, and had a slow, uneventful journey until Lieutenant Hofstaetter, who was in command, decided to alight about 4 o'clock.

GIRL'S STORY DOUBTED

Chico Divided as to Innocence or Guilt of President of State Normal School.

GIRL'S STORY DOUBTED

Dr. Van Liew's Friends Think He Did Not Embrace Pretty Sister of Minister—Churchgoers Side With Miss Clark.

CHICO, Cal., July 24.—(Special).—"Did Dr. Van Liew do it?" This was the question discussed in Chico today in the churches, on the street, in the hotel lobbies and in the houses.

"Is Dr. Van Liew the right sort of a man to be at the head of a coeducational institution such as the State Normal School?"

WOMEN BELIEVE GIRL'S STORY.

With the church members and the majority of the women in the community the verdict is different. They believe the pretty little sister of the minister. While the good people were in church, W. L. Biggs, the Southern Pacific detective, who is the employee of Governor J. N. Gillett, is working up the case against the Normal School president, made many calls upon residents of Chico and vicinity, attempting to secure further testimony. It is expected that by Biggs' efforts a number of new witnesses for the prosecution will be present when the hearing is resumed Monday morning.

It is understood here that Governor Gillett will be in attendance at the inquiry when the Board of Trustees commences its investigation in the morning. Governor Gillett is a regular member of the board, in securing the charges against Dr. Van Liew, but has not attempted to exercise his right to sit. Any attempt he may make to sit on the board during the balance of the hearing will be opposed by Attorney Archibald Yell and A. M. Seymour, who are counsel for Dr. Van Liew.

MISS CLARK NEAR COLLAPSE.

That Rev. C. Todd Clark is being reserved by the state as a star witness to be introduced later during the inquiry is generally believed, although the exact nature of his testimony is not known. He will be called, for one thing, to corroborate the statements of his daughter, which were made to him soon after she declares Dr. Van Liew made improper advances to her in his office. It is anticipated that Dr. Van Liew objected to Ranker's attentions to the girl and the fact that they were going together. The Normal School president went so far as to threaten to write the girl's mother a letter before he succeeded in parting them.
