N'MALLEY MAKES REPLY TO JEFFREY

State Manager of Fraternal **Brotherhood Explains** Damage Suit.

FORGERY CHARGE FAILS

Activity of Local Attorney Is Attrib-Jeffrey Dropped for Non-Payment of Dues Is Charge.

> ving to accusations of John A a local attorney, M. G. O'Mal-4 yesterday issued a stateown defense. He denies to jeulousy and malice things, he says Mr. Jeffdamages

Ruction in Lodge Denied.

Buction in Lodge Denied.

Dr. Manion takes a slam at Mr. Wilcox by saying that he was an unfit risk because of bad family history. Yet Dr. Manion in an examination which he made of Wilcox at my request apparently certified that he was a good risk, for the reason that he was admitted on his certification and is now a member of the society, as you may see by this letter from the supreme secretary respanding his dues.

For the benefit of those who are not familiar with fraternal insurance I may say that it is not the policy of the society to require state managers to write applications. We have organizers for that work. It is the duty of the state manager to protect the society from imposition of any and every kind, see that the lodges conduct their business along constitutional lines, engage organizers and see that value is returned for money expended. The state manager's compensation does not depend in any manner or shape on the amount of business secured.

The etatement is made that there has been a ruction in one of the local lodges. That is untrue. There is no unplessantness in the local situation, nor has there been, since Jeffrey was suspended for non-payment of a ruction in one or the social longes, rhat is unitime. There is no unpleasantness in the local situation, nor has there been, since Jeffrey was suspended for non-payment of dues. The affairs of the society are in a flourishing condition. The first of the year there were but three active lodges in the Portland jurisdiction. Today there are eight. On the ith of June there was initiated a class of 256 members, the result of two months' work.

Retraction Is Demanded.

Sond reason that I have no candidates.

You will note that Jeffrey, in his letter attacking me, announced that he would withhold prosecution of me "for a week or ten days," to give the Executive Board time to remove me. When I learned of his letter, i at once wrote the supreme lodge, urging that Jeffrey be requested to begin proceedings at once, and I likewise sent him a letter, of which the following is a copy. His premise to withhold action for a "week or ten days" was made June 13. My letter to him is dated June 20. That "week or ten days" has grown to more than a month. He and his "client" were apparently quite satisfied to let the matter rest after their vite attempt to blacken me to gratify their private grudge and disappointed ambition. My letter to Mn. Jeffrey follows. Fortland, Or., June 20, 1930.—John A. Jeffrey, Lafayette Block, City—Sir: I am informed that you have written a letter to Los Angeles in which you charge me with committing a forgery; that you state in your letter that I forged the name of Dr. Manion to the medical examination of one William Roy Wilcox. You are further quoted as saying that "this particular document was forged and written out in full by Mr. C'Malley, and that there can be no possible defense." You further state that you will "withhold prosecution for a few days to await the action of the executive board.

I take this method of notifying you that unless you, within ten days make as "fill." fine days to await the action of the executive board.

I take this method of notifying you that unless you, within ten days make as full and sweeping retraction of your statements as were the charges that you made. I will swear to an information before the District Attorney, charging you with criminal libel. I will also give this letter and the facts surrounding the Wilcex matter to the press of the city and brand you as a secondrel. In this matter you charge me with an offense to which another has confessed, not to one, but to a dozen persons, including your "client." You assert that this examination is written throughout in my handwriting, yet you have never seen a specimen of my penmanship, not even on an envelope.

Redress Demanded By Law.

You have taken this matter up with the supreme lodge instead of the District Attorney because your aim was to injure me in the hope of forcing my remeal or my resignation. Your action was scandalous and malicious throughout, and I propose to secure such redress as the law accords. As an atorney, you know, or ought to know, that the act charged was not a forgery. You know, or could have learned, that the person responsible had acknowledged her act to your "client." You do not know my handwriting, yet you charge me with the authorship. You have been guilty of wilful, deliberate, scandalous ite, and unless you make me such amenda as remains in your power. I till teach you that you are not now dealing with a man who "is afraid of his shadow," as your pariner sneeringly said of my medecassor. It is a matter of indifference to me whether you do or do not retract. I simply give you the opportunity.

I trust it is unnecessary to remind you Redress Demanded By Law.

Two years ago the Hudson River was crossed at New York by ferries and new the tunnels are carrying at the rate of 50,000,000 passengers yearly.

Coroner Holds Autopsy on Body of Dead Girl.

INVESTIGATION STILL ON

Deputy District Attorney Believes That if Wrongful Operation Was Intended Charge of Manslaughter Would Stand.

While at a temporary standstill in the investigation of the death of Vera Hall, District Attorney Cameron, Deputy Fitzgerald and Captain of Detectives Moore havenot remitted their efforts to get all the facts concerning the death of the girl in this city Sunday afternoon. The District Attorney is not yet satisfied that no criminal act oncerned. Dr J. J. Rosenberg, who admits ad-

ministering chieroform to Vera Hall, from the effects of which she died, was taken into custody by Sergeant Wanless, at the direction of Captain of Detectives Moore at a late hour Monday night, and while not locked up, was kept in custody will restracted. kept in custody until yesterday morn

The doctor was taken over his former statement again and adhered to it in all particulars, insisting that he administrated chloroform simply to ease the pain which he caused the girl in making an examination. that an operation of any kind was per-formed. He said that he was induced to spirit the body of the girl to Oregon City by the representatives of young Erickson, her sweetheart, and her mother.

Girl's Condition Serious.

An autopsy held yesterday at Oregon City revealed that no operation had been accomplished, but showed that there was occasion for one being de-sired. Dr. E. A. Sommers was present representing the District Attorney of this county, and assisted in the autop-sy, which was conducted by the Clack-amas County Coroner.

"While the autopsy failed to show that a criminal county had been approximately a

that a criminal operation had been performed," said Deputy District Attor-ney Fitzgerald last night," "we are not yet satisfied that the investigation should be dropped. If any criminal ac-tion was in course of being performed and the girl died, I believe that a charge of manslaughter would stand." formed," said Deputy District Attor-Clackamas Authorities Drop Case.

The case is closed, so far as the Clackamas County authorities are concerned. The burial of the unfortunate girl will take place this morning, and the funeral will be held from the fam-lly residence in Oregon City at 16 O'clock. Chief of Police Burns, of Oregon City,

yesterday received a request from Cap-tain Moore, of Portland, to take Elmer Erickson into custody. Burns passed the matter up to the Sheriff's office, but as Erickson was believed to be at the home of Mrs. Hall, in the city lim its of Oregon City, Sheriff Beatle put it up to the city police. In the mean-time Dr. Rosenberg had been released, and the case against Erickson was dropped.

His Learning, Ability in Music, En-

durance and Home Life.

in giving him his proper level in the world's leadership. Amen to a square deal, My observation and studies of the Hebrews particularly inspired by Lecky, the historian, whose sanity as such awakens grateful remembrance, lead to these words of appreciation:

The Jewish race is called a pure stock, but there is alloy in all purity. Perfect goodness comes only in spots. The Jewish other races. But mixed or unmixed, the Jews have loved learning, and blockheads do not usually come from them. Their varied ability is not necessarily the product of their religion, for Disraell and Spinoza, and others eminent, while Hebrews in race have not been Jewish in religion. Great publiciats such as Gambetta and Disraell have spring from them. In mind Jews have not set apart from the world to shine in art, but to stand for righteounsess and the beauty of holiness. Art was taken up by Christianity in her Raphaels and Amgelos, and that art has been lavishly used in the construction of Christian churches. The cathedral evinces all this.

It seems to me that the Jews are greater to learn than to shine in polished deportment, and hence they do not readily take to the field of diplomacy in which so many ever noticeably dedeant. If the Jews are greater to learn than to shine in polished deportment, and hence they do not readily take to the field of diplomacy in which so many ever noticeably dedeant. If the Jews are greater to learn than to shine in polished deportment, and hence they do not readily take to the field of diplomacy in which so many ever noticeably dedeant. If the Jews are greater to learn than to shine in polished deportment, and hence they do not readily take to the field of diplomacy in which so many ever noticeably dedeant. If the Jews are greater to learn than to shine in polished deportment, and hence they do not readily take to the field of diplomacy in which so many ever noticeably dedeant. If the Jews are greater to learn than to shine in polished deportment, and hence which are definitely postponed. Secretary of

CHAMBER OF COMMERCE WORKS FOR PROJECT.

Vice-Chairman McLachlan, of Rivers and Harbors Committee, Is Asked to Talk on Subject.

In an effort to create sentiment for an appropriation to build the north jetty at the mouth of the Columbia River, the Chamber of Commerce will invite Representative James McLachlan, of Pasadena, Cal., to deliver an address in this city in the early part of September. Representative Ellis, of the Second Congressional District, and others will speak on that occasion.

The movement to secure an early appropriation for this work is the immediate outgrowth of the announcement by transportation companies that a steamship line between Panama and the oast ports would be put in operation as soon as the necessary arrangements

The Seattle Chamber of Commerce has invited Mr. McLachlan to speak on the subject of harbor improvements for the Pacific Coast, and it is thought he can be induced to divide his time on the trip so as to include a visit to Portland. Mr. McLachlan is vice-chair-man of the rivers and harbors commit-tee of the Lewer House, and has ex-erted great influence in securing aperted great influence in securing ap-propriations for improvements in North

has already been recommended by Major McIndoe, the local United States engineer, and has been urged by Port-land shippers as well.

Band Concert Will Be Given. Chapman square will be the the free band concert tonight at 8 o'clock. Charles L. Brown, conductor of Brown's band, has prepared the following pro-

gramme:

March, "Battle Royal"...... Jewell
Waitz. "Tout Paris".... Waldtenfel
Overture, "Bohemian Giri"... Baife
Spanish fantasia, "La Paloma"... Yrader
Excerpte from "Mamselle Napoleon"...

Frogs
Intermezzo, two-step "Violetta". Olman

the Congressional committee shall have made its report.

The agents of the Treasury Department have held that Glavis was not traveling on official business or even a mission that was in furtherance of the public good when he spent the money.

Glavis is now engaged in the development of his apple orchard at White Salmon while least terrestitive blave.

mon, while Jones is practicing law and alding in the formation of conservation societies. His headquarters are in this Both of the men were particularly active in the investigation of the allegations involving the actions of the Secretary of the Interior, Richard A. Ballinger, in connection with the Cunningham coal land claims in Alaska.

Glavis was unceremoniously discharged by Mr. Ballinger soon after the charges became public, the President approving that action.

Jones became involved in a personal dispute with Mr. Ballinger while Ballinger was testifying on the witnesstand. Jones took exception to statements made by the Secretary and arising in the audience declared them to be false Later Jones was asked to resign. He re-tains his right to reinstatement and tains his right to reinstatement and transfer for one year following the filing of his resignation.

COUNCIL TO ELECT CHIEF President Will Be Chosen at Meeting

This Morning.

The City Council will meet this morning, and among other things coming up for action is the selection of a president to serve until July 1, 1911. Those mentioned for the place are Councilmen Annand, Beiding and Menefee, but it is believed that Beiding has the lead. He has never served as president, while Annand has. Menefee has never had the honor as yet, and it was thought for a long time that he would be elected, but his strength did not develop sufficiently at the last meeting and the Council postponed action until today.

Councilman Annand's proposed ordi-nance prohibiting the carrying of boy-cott banners will be up for action also. It is believed there will be a strong fight on this, as the labor union representatives are preparing to put up a battle against its passage. There is a large volume of routine busi-

ness, in addition to this. Councilman Watkin will introduce his ordinance prohibiting frame stables after January 1, 1911, and it may pass on first reading because of the urgent need for protection for horses. In a recent fire 186 were humand to death burned to death.

BAY CITY AUTOISTS' GOAL

San Francisco Men Make Successful Trip From Seattle.

E. I. de Laveaga and son, M. A. de Laveaga, of San Francisco, arrived in the city last night in their touring car, having made the run from Seattle during the day. They started from the no

city at 7 o'clock yesterday morning and reached Portland at 8:39 o'clock in the evening, being delayed about an hour by a change of tires and other slight re-

They report the roads between Seattle and this city very good with the excep-tion of the stretch between Kelso and Kalama. They encountered much dust

journey in four days

TABLE TALKS---

"The Table That Sings and Talks," otherwise called the "Grafonola Regent," is the latest unique, practical and attractive application of the talking machine. Concealed in a massive and highly ornamental table of richly grained mahogany, or fancy oak and other woods, is the most perfect talking machine mechanism yet attained in sound reproduction-this good under Marconi's supervision-its tone being solid, clear, rich and absolutely natural. The table has compartments to hold 180 12-inch double-disc records (or 350 selections), and the top measures 28x45 inches. It is ornamental and practically useful for library, parlor, club, reading-room or lodge-and is unequaled as a perfect reproducer of tone and sound for entertainment. You are invited to see and hear this wonderful table talk and sing at our Talking Machine Department. Sold on convenient terms.
