## **EVEN PARTY LINES** MAY NOTHOLD T. R.

Colonel Indicates Extremely Non-Partisan Attitude in Coming Campaign.

#### FRIENDS MAY EXPECT AID

Factional Differences Not to Be Permitted to Stand in Way of His Ideas-News of Bryan Late at Sagamore Hill.

OYSTER BAY, July 27.—Those who heard Theodore Roosevelt talk at Sagamore Hill this afternoon came away with a sharply-etched shadow picture of what his attitude will be in state and National politics. Primarily, he wishes to keep in the background in the approaching campaign, for he feels that by his tak-ing too prominent a part in it he may be

accused of assuming a dictatorship.
Broadly speaking, he will, as he has said on several occasions, do all in his power to help the men who stood by him power to help the men who stood by him and his policies, but is non-commital as to whether he expects to carry this to the point of coming out openly in favor of the Republicans all over the country whom he considers to be standing for his ideas. He does say, however, that he must forget factional differences and even party lines, and support the men and the things he believes stand for the best interests of the country as a whole.

#### Things Change Too Fast.

The Republican situation in this state is shifting so rapidly, the Colonel said, that he was having trouble keeping pace with it. In today's interview there were with it. In today's interview there were mentioned to him the names of Representative Hamilton Fish and William H. Hotchkiss, state superintendent of insurance, as having been spoken of recently in connection with the gubernatorial nomination. He replied by naming over the whole list of men who have been mentioned, adding that he had no idea whatever as to who the best man would be.

Colonel Roosevelt said that he had not Colonel Roosevelt said that he had not been reading up on Nebraska politics lately and had not heard how W. J. Bryan had fared in the Democratic con-mention in that state. The interviewers broke the news of the setback to the Nebraskan, and the Colonel asked whether the differences of opinion had arisen because Mr. Bryan went too far or not far enough in his proposed tem-berance legislation.

#### Colonel Silent on Bryan.

After he was told that the former seemed to fit the case there was nothing which he cared to add in comment on

Mr. Bryan.

A letter caused great amusement to Mr. Roosevelt today. When Mr. Roosevelt was in New York last Friday he told interviewers after a conference with several politicians that he had had an interesting discussion on literature. The newspapers printed his little joke, which because forth the letters are seen to the letters and the letters are seen to the letters and the letters are seen to the letters a brought forth the letter received today. The writer accused the ex-President of trying to make people think he had been discussing literature instead of politics.

and wound up by saying:
"Maybe you can fool the feeble-minded reporters but you can't fool the public like that. I knew all the time."

#### Tariff Declared Just.

"The tariff has been revised in accordance with the Republican doctrine of protecting home industries and American labor. It did not raise the rate of duty on a single common food product. The increases made were on luxuries and articles not of ordinary use. It affords no more than adequate protection to the industries of the Nation and is fair alike to consumers, la-

"No tariff bill was more unjustly as-sailed.
