NEW YORK, July 28 .- Now that the sale of the so-called Pearson holdings n Rock Island, Lehigh Valley, Waash, Missouri Pacific and Denver & Rio Grande stock is confirmed, Wall Hio Grande stock is confirmed. Wall street was asking today what the Kuhn-Loeb syndicate, the purchasers, purpose to do with the securities.

Dr. F. D. Pearson and his associates acquired the stock late in 1809, and early in 1910, with the dream of a vast transcontinental system. Object Is to Save Banks.

The primary object in taking over the holding, it was said by one banker concerned, was to save an awkward situation of banking interests, which were trying to carry out a scheme too big for them to handle.

Notwithstanding the sale, there is apparently no disposition on the part of the bankers' syndicate to dispense with the services of Mr. Pearson and his English associate, Percival Farquhar, both of whom are likely to remain directors of the railway companies concerned, as heretofore.

The American members of the syndicate acting with Kuhn, Loeb & Co. include the First National Bank, a Morgan institution, but the Morgan banking house itself, it is emphatically banking house itself, it is emphatically declared, is in no way a party to the syndicate. It is believed, however, that the Kuhn-Loeb syndicate will ere long sell to J. P.
