ASK NINETY CENTS

Walla Walla Farmers Want Opening Prices.

LITTLE WHEAT SELLING

Threshing Results in Some Sections Are Better Than Expected -- Oats and Barley Are Firm. Alfalfa Sales.

Pesterday, particularly in the Walla Walla etunity, but they were still asking 90 cents for it. So far as could be learned, no one was in the market to pay this price. The market was still quoted firm, but not so much so as a few days ago. When the first lots of new wheat were offered they met an urgent demand because of the scarcity of an argent demand because of the sciency of spot wheat, and the asking prices were readily paid. It is probable that some of the mills still seed a little bluestern badly, but aith offerings on the increase, they are naturally bidding lower prices. The present market is fully 5 cents above the export basis, but as it will be a month yet before the movement of new wheat to market can assume large propositions, it is likely that prices will be slow in settling down to the foreign level. That values must eventually get down to a parity with the foreign markets is conceded by all. No talk is now heard of any considerable amount of wheat going East.

ris of threshing operations are comin from what were considered some of the poorer sections and are showing very satisfactory results. One farmer north of colfax reports that he is getting 50 to bushels of Fall wheat to the acre. Extremely light fund around Pemeroy, that was not expected to run over 10 to 15 bushels to the acre, is threshing 23 to 25 bushels. Around Dayton there are several 25 and 58-bushel crops, where only 25 to 30 bushels are several 25 and 58-bushel crops.

Trade was light in outs and harley, but the grains were quoted very firm. The astern Washington harley crop is not up to Eastern Washington harley crop is not up to last year's. According to the Echo Echoes, on Monday and Tucsday of this week Lonegan and McIntesh, of Portland, bought the following lots of alfalfa hay at Echo, paying 86 per ton in the stack: Vincent place, 600 tons; Jim McCarty, 100 tons; Otls McCarty, 350 tons; Mrs. O. F. and A. Thomson, 1000 tons; Grant Buchanan, 250 tons; Mrs. Rogers, 200 tons; total, 25,000 tons. The same day, Henry & Co., of Portland, paid the same price for 1100 tons, on the old Asa B. Thomson place.

Crop Conditions in England and on the

No transactions were reported in the Ore-gon hop market yesterday. It was stated on good authority that an exporter had of-fered 11 cents for 1400 bales on the West Side and that a 12½-cent option had been taken on 200 bales at Salem, but the latter weal could not be confirmed.

London hop factors' circulars, bearing flates of July 11 to 13, say. Wilde, Neame & Co.—There is more vermin in the plantations, but as yet it has had no effect on the trade and values remain

temperature has had its influence on our market. Several lots have changed hands at an advance and good bids are being refused. The prospects of the Continent are similar to our own with an advanceing market also.

tet also.

W. H. & H. LeMay There are several injuries on the market, which tend to show that consumers are becoming a little more interested in the state of the hop market, and the smallness of the stocks must make those who have not yet covered their requirements a little anxious, as the weather is not all that is desirable for the growing

The Kentish Observer, of July 15, said of Continental prospects: In Germany and Belgium the weather all In Germany and Belgium the weather all through last week was about as boil as it could well be for the hot plants. A succession of heavy rains and cold winds retorded growth and gave the hine a sickly appearance, and nearly all districts report a much less favorable outlook. Vermin is mather troublesome in Jhe Belgian districts, but on the whole, blight is not serious either in Belgium or Germany. There is an improvement in the weather this week, and better reports may be expected shortly.

ESTIMATES OF THE APRICOT CROP.

California Dried Output Will Fall Short of Early Expectations.

In its review of dried fruit conditions the California Fruit Grower says that pravious estimates of the production of apricots have been reduced somewhat by packers.

"It is possible now to know more definitely."

been reduced somewhat by packers.
"It is passible now to know more definitely how the quality will turn out than earlier, since deliveries in some sections have been completed," says that paper. 'In the Vacaville-Winters district, for instance, deliveries have not come up to expectations, and a shortage from some of the earlier estimates on Santa Clara Valley as well to a short of the consensus of opinion now seems to be for 15,000 to 16,000 tons of apricots in place of from 17,000 to 18,000 tons, as predicted earlier. Export sales in this line have been enormous, and some packers have teen enormous, and some packers hazard the opinion that 10,000 tons, and one packer is sure the figure will reach 11,000 tens, of apricots have already been sold for export shipment. Considering this and the falling off in the estimated deliveries of dried apricots, it would seem that this market will rule high for some time at least.

Cannel Corn Prospects.

Although the acresse in sweet rorn for causing purposes has been greatly reduced this year, weather conditions of late in all producing sections have been propilious and a large yield per acre is accordingly ex-pected, thus going far toward equalizing the reduced acreage Crops everywhere are now said to be doing well, and unless

Poultry Cleans Up Better.

The low current prices of poultry are enabling Front street dealers to clean up their receipts better, but any effect to advance prices checks sales. Yesterday quotations were unchanged lings moved in a fair way at the former Butter was in active demand, scarce and

Oversupply of Small Peaches. Front street is still overstocked with small sized Halo's early peaches from various Oregon points. They were offered as low as 30 cents a box restorday, but were hard to sell at any price. Good freestones, however, were in active demand, There were

also too many castaloupes on hand for the good of the market. The senson for Walls Walls onlone will end next week, when Oregon onlone will

been advanced this week from 5 to 15 cents. The rise is the result of the short-ened milk supply.

\$125,000

Railway Exchange Building Co. First Mortgage 7% Gold Bonds

Dated August 1, 1910.

Due Serially August 1, 1911, to August 1, 1917.

Coupon Bonds in Denomination of \$500.

Principal and semi-annual interest, payable at the office of the Security Savings & Trust Company, Portland, Oregon, Trustee.

This bond issue is secured by a deed of trust to the Security Savings & Trust Company, Portland, as Trustee, covering the Railway Exchange Building and leasehold, which provides for redemption of the bends in installments, beginning at the end of the first year, at a sufficient premium to make the same yield 71/2 per cent per annum for the

The property consists of a modern six-story, class "A" reinforced concrete office building, having 100 feet frontage on Third, 200 feet frontage on Stark, and 50 feet frontage on Fourth street, in the heart of the financial and business section of Portland. The Railway Exchange Building, costing \$225,000, is completely and substantially equipped and finished throughout, and ranks with the best office structures on the Coast. It is already largely rented to a very desirable class of business concerns, on a basis which insures a steady and profitable income.

In view of the very large margin of security over and above the bond issue, and the location and earning capacity of the property, we recommend these bonds very strongly as an exceptionally choice and profitable investment.

Having already reserved a substantial amount of the bonds, we offer the unsold balance at par and interest, yielding 71/2 per cent until maturity.

Copy of the mortgage, statement of earnings and other detailed information will be furnished upon application at our office.

STOCK MARKET SHOWS EFFECT OF LATE PRICE RECOVERY.

Reduction of Short Interest Makes Way for a Reaction-Bonds Continue Firm.

NEW YORK, July 22.—The stock market today showed the effect of the rapid recovery from the acute depression of the early part of the week. The usual after results of a sudden and violent turn in the market began to appear. The substantial reduction of the short interest diminished the urgency of the demaind and made it less easy for the opposing speculative party to bid up prices.

The aution of the market had the inevitable effect of modifying speculative opinions of conditions in themselves unchanged. This was seen in the suggestion of flaws in the effectiveness of the settlement of the Pearson syndicate's difficulties. The question was heard whether the concentration of power over the railway systems of the country which would result from the surrender of that syndicate's large control to banking integesis already affiliated with rival and competing interests, might stimulate renewed agitation for the repression of these tendencies.

The determination to discontinue dividends of the Allas Portland stock was used

stringent legislation for the repression of these tendencies.

The determination to discontinue dividends of the Atlas Portland stock was used to contest the rise in prices. The incident scarcely leads itself to a supposition of decining business, as the possession of large contracts with the Government for Panama Canal supplies makes it necessary to divert presources for an increase of capacity. The special nature of these contracts also detracts from their importance as showing any sign of general trade expansion. As an evidence of the difficulty of enlisting new capital, however, the incident has real importance.

Preliminary estimates of the week's currency movement gave a rate of inflow to New York bank reserves that carried its suggestion of decreasing trade requirements for money. The gain for the week from various sources seems to have reached an aggregate of over \$12,000,000.

Bonds were firm. Total sales, par value, \$2,914,000, United States bonds were unchanged on call.
