

HOPS GO TO LONDON

Five Hundred Bales Taken for Foreign Account.

DEMAND FOR CONTRACTS

Quality of the Oregon Crop Promises to be Superior—An Early Rain Would Make it Larger. Weather Abroad.

About 500 bales of Oregon 1909 hops have been bought in the past few days for the London account. Included in this quantity is the Tom Holman crop of 368 bales at Salem, which was purchased by Isaac Pignus & Sons at a price reported to be better than 12 cents. Another transaction yesterday was the purchase by Catlin & Linn of the Glasgow lot of 100 bales at Jefferson at 11 1/2 cents.

There is a good demand for 1910 contracts at 13 1/2 cents, but there does not appear to be any sellers at this figure. Yesterday's London cables gave the weather in England as fine, but announced that there were increasing. Estimates of the English crop remain unchanged, most of the foreign houses placing the yield at 300,000 cwt.

SOUTHERN OREGON WOOL TRADING.

Good Prices Being Paid for Clips at Lakeview.

Good prices, considering the general level of the market, have been paid for Southern Oregon wool, according to the Lakeview Examiner, which says:

W. L. Stelling, who is buying for Hollowell, Jones & Dunally, topped the market Tuesday when he paid 16 1/2 cents for the S. B. and Dan Chandler and Con Taylor clip of 80,000 pounds.

However, it is rumored that J. Frank paid 16 1/2 cents for the Fitzgerald clip, but it is difficult to confirm rumors, as each buyer is endeavoring to secure as many of the best clips as possible, and hence is not letting his left hand know what his right is doing.

Joe Fuller bought the McCormick clip, carrying 10 cents, and was not after the Chandler's when Mr. Stelling beat him to it. J. Frank has perhaps bought more than all the other buyers, he having secured the clips of Verling Bros., W. K. Barry, John Flynn, Fitzpatrick & Keefe, Mackintosh and Applegate and others, aggregating 100,000 in addition to that reported last week.

FARMERS READY TO SELL WHEAT.

Asking Opening Prices Which Few Dealers Will Pay.

As threshing progresses and the movement of wheat to warehouses increases, farmers are showing more disposition to sell than they were at the beginning of the season, and as there are a few buyers in the market willing to pay these prices for small lots, the ideas of selling are kept at the top. The majority of the dealers are holding back and give as their reason that it is difficult to find buyers at a lower level. There was no change in the quotations given by local dealers yesterday.

FRONT-STREET MEN'S PICNIC.

Athletic Games and High Jinks on Government Island.

The front-street commission men are arranging for a picnic and high jinks for their employes, to be held on Government Island on Sunday, August 14. The summer team has been chartered for the occasion. The day will be given up to a baseball game and field sports, for which prizes valued at \$200 will be given. Participation in the athletic events will be confined entirely to front-street men. The feature will be the annual baseball game between the rival teams of the East Side and West Side of the street, the captain of the latter team being E. P. Farrell and Frank Templeton.

CARLOAD OF GRAPES ARRIVES.

California Malaga Meets With Good Demand.

A straight car of California Malaga grapes arrived yesterday. They were in fine condition and in good demand at \$1.50 per bushel for lots. Peaches were in plentiful supply. Oregon cranberries sold at 62 1/2 cents per bushel. Apples will begin shipping Crawford in carlots Monday. California Elbertas were firm at \$1.25 for lots and 75 cents for two-bushel boxes.

POULTRY AND EGGS ARE FIRM.

With Receipts Decreasing, Prices Are Gradually Advancing.

Receipts of poultry this week have shown a considerable falling off and prices have strengthened accordingly. Hens and spring chickens cleaned up readily yesterday at 11 1/2 to 12 cents. The egg market is also gradually moving upward as the season advances. Receipts are decreasing and for various uses. Fairly good. Candied Oregon stock was quoted yesterday at 28 cents. Butter and cheese were firm at former prices.

MOHAR TRADE IN THE EAST.

Trading in mohar has fallen off considerably this week but prices are being maintained steadily at current quotations, says the Boston Commercial Bulletin. Manufacturers of mohar goods have received a satisfactory call for mohar goods of different grades and for various uses. Foreign hark without demand in this country. Boston, mohar bulk, 35@40; good combing, 30@35; poor combing, 25@30; carding, 25@30.

FRUIT AT THE CLOSE

Downward Course of Stock Prices Is Turned.

DUE TO BETTER CROP NEWS

Trading Is on a Small Scale, With Most Speculators Awaiting Developments—Steel and Copper Industrials Heavy.

NEW YORK, Aug. 4.—The speculative attitude toward the stock market remains one of watching and waiting, as was shown in the halting and irregular movement of prices today and the extreme dullness of trading. Relief, that bankers had been called on again to relieve some over-extended account of large capitalists had a disturbing effect on sentiment.

CATTLE ARE STRONG

FANCY COWS AND CALVES SELL AT ADVANCE.

The North Portland yards were again lightly stocked yesterday, little coming in from the local country. There were two sales of fancy light calves at 11 heavy weights, sold at 45 cents, the latter price being realized on a load of choice quality averaging 362 pounds.

FIRM CLOSE AT CHICAGO

Export Figures Total Crop of United States at Not to Exceed 641,000,000 Bushels—Foreign Reports Less Favorable.

CHICAGO, Aug. 4.—Some attention was given to the bull market report which put the yield there at 24,000,000 bushels as against 27,000,000 bushels last year. Discussion of the estimate made by a local crop expert who figured the total output of the United States at 621,000,000 bushels for 1910,000,000 bushels. Export sales, less favorable reports from France and Argentina and shorts and speculators buying at Liverpool were among the elements that formed an upward course for the market today. The Pacific Coast sent news that France had been buying there steadily for a week past. A strong party of local traders started out to buy prices and kept at the task persistently, notwithstanding heavy selling by one of the leading houses here. Purchases of wheat here supposed to be for French account kept the market buoyant until near the close, when prices showed some reaction from \$1.01 to \$1.02, with the close at 98 1/2 cents, up at \$1.02 1/2.
