

PIRATE VILLAGE TAKEN BY ALLIES

Starving Captives, Chained to Walls, Set Free by Storming Party.

2500 ESCAPE IN JUNKS

Chinese Co-operate with Portuguese in Punishing Kidnapers of Students—Mandarin Disguised as Coolie Acts as Spy.

VICTORIA, B. C., Aug. 7.—Full details of the fighting between the Chinese-Portuguese forces and the pirates at Colowan, near Macao, were received by the Empress of India, which arrived from the Orient late yesterday.

After a week's bombardment, during which many fights between landing parties and the pirates took place, the allied forces rushed the walls and captured the village. They found the place practically deserted, most of the pirates having escaped during a storm.

There was much loss of life and 400 pirates were captured. The bombardment was heavy, the Portuguese using a boat Macao alone firing 400 shots from her 4-inch guns, wrecking the pirate village and setting fire to a portion of it.

Kidnaping Causes War. The origin of the trouble was wholesale kidnaping of Chinese boys from schools in Canton.

The Portuguese Governor sent Lieutenant Ribas and 60 men to rescue the captives. The Portuguese landed and were fired on by the pirates, a number being killed. While the landing force was retiring, the supposed peaceable villagers opened fire and the Portuguese had to flee for their lives.

The shallow-draft gunboat Macao was sent with reinforcements on July 11 and the next day a force of 100 infantrymen and a company of artillery with two field guns was landed.

The attitude of the Chinese fleet, which quickly assembled, caused some alarm, but this subsided when Admiral Li Chun sent a wireless message offering to turn over his fleet to the Portuguese to assist in the fight against the pirates. He had nine vessels, four of them comparatively large gunboats, and soon brought up the whole river flotilla.

Mandarin Acts as Spy. The investigation was completed by July 22, when a small force was captured after being smoked out with burning sulphur placed at cave mouths.

It was found then that the majority of the pirates were, nearly 2500 in number, Chinese. They had been organized and managed to escape by junk which broke through the blockade in a storm. An incident of the fighting was the disguising as a coolie of Commander Woo, a Chinese mandarin, who has done much to suppress piracy. He received information that the several captives of the pirates were held in the village of Joseph and the Portuguese in an attack on it which resulted successfully, a big party of emaciated men, women and children who were imprisoned, many chained to walls, being taken. Commander Woo, disguised as a coolie, made several trips to the pirate stronghold to secure information.

SUGAR BEET CROP RECORD

Wallowa Valley Output Three Times Larger Than Last Year.

WALLAWA, Wash., Aug. 7.—(Special.)—Six hundred carloads of sugar beets will be shipped from the Wallowa Valley, Oregon, this season, this compares with about 200 carloads last year. An agent from the refinery who has just been over the ground declares the beet crop will break all previous records in the valley and the Wallowa Valley output will be three times as great as last year.

This season the company has rented land all through the valley and has hired Japanese labor to plant and care for the beets. The Orientals give the beet fields the same amount of water and culture they gave their Nippon rice fields.

The O. R. & N. is now building their spur tracks to the beet crop when the shipping time comes. Although there has been some heavy frosts recently the beets have escaped frost injury, and will be matured early in September.

Gold Excitement Wanes.

ONTARIO, Or., Aug. 7.—(Special.)—The discovery of gold in Moores Hollow, about 20 miles northwest of Ontario, caused a rush of claim locators to the alleged find. V. V. Sparks, an Oregon mining man and prospector, now residing here, has come over the ground and his opinion confirms the report of the find, but he says that the quantity is hardly sufficient to pay for development. A good wagon road from Ontario leads to the site of the discovery, where many claims have been staked by local people. Samples of the ore shown by Mr. Sparks are a conglomerate of lead, iron and granite. The excitement here has abated since his return from the prospect.

CHICAGO IS READY

Knights Templars Gathering for Conclave.

CITY IN GAYEST ATTIRE

State Street Becomes Templar Way, With Famous Michigan Avenue Upholding Great Castle Arch. Grandstand Holds 100,000.

CHICAGO, Aug. 7.—Chicago, in its dress uniform, the street gay with decorations and already well filled with guests, rested today in anticipation of a week of entertainment in honor of the 31st triennial Knights Templars conclave. It rested officially, but actually the welcome of the first of the 500,000 expected guests, the arrival of the occasional early commutary and the interest of Chicagoans themselves kept the downtown streets filled with crowds.

The first official function of the conclave was the religious service in Orchestra hall today. Although the Templar army is not scheduled to arrive until tomorrow, several trainloads came in during the day.

West Among First Arrivals.

The grand commandery of California arrived today. The first arrivals expected tomorrow are the Earl of Euston and a party from England representing the grand priories of that country and Wales, and a party embracing the chief officers of the grand priories of Canada.

Templar Way, into which State street has been transformed, attracted the chief attention of the knights. The castle arch, on Michigan avenue, will be the first sight of many arrivals. It is fashioned in the type of castles of the Middle Ages, with turrets and battlements. At each end is a tower and short elevations. On these are statues of knights mounted on chargers and brandishing swords.

Grandstand Seats 100,000.

The monitor grandstand, with a seating capacity of 100,000, occupies several blocks along the east side of Michigan avenue and before this the knights will pass in review.

Knights Prepared to 'Boost'

Northwestern Members Full of Information About Home Country. CHICAGO, Aug. 7.—(Special.)—With the arrival of the Overland Limited on the Northwestern Railroad tomorrow morning the Knights Templars from Oregon and Washington will reach Chicago prepared to take their part in the 31st triennial conclave. Elaborate plans have been made by the advance agents of the Knights from the Northwest coast for the reception and entertainment of the visitors. Headquarters have been engaged at the Palmer House and from parlor K the men from the West will rally out to enjoy the gala week of the conclave.

About 50 Knights are expected from the Portland commanderies, and as many more from Seattle and Tacoma. These men are coming prepared to show that the Pacific Northwest is the garden spot of the earth, and Sir Knights from Western States will receive literature and products from the coast calculated to make him wish to change his place of abode.

Templars from Utah and Idaho are also to be found among the "boosters" of the Northwest. One of the first Knights to arrive from Idaho was George W. Cook, of Lewiston, Idaho. In the heart of the newly opened irrigated district, with Mr. Cook are his wife and five daughters, George A. Matland, George Doehle and Alexander Frazer, of Wallace, Idaho, reg-

A special train carrying the Knights from Salt Lake City, Ogden and Boise will arrive tomorrow.

Twenty to Climb Mount Hood.

HOOD RIVER, Or., Aug. 7.—(Special.)—The largest party that has ascended Mount Hood since the Mazamas climbed the mountain several years ago left here Saturday and will make the ascent tomorrow morning. The party, which numbers 20 persons, is composed of C. A. Mosely, H. K. Davenport, O. H. Hillson, A. M. Brody, A. Z. Crocker, E. M. Hamilton, C. A. Rathburn, R. J. McKay, C. C. Lemmon, James Lemmon, C. L. Wheeler, V. C. Brock, Mason Baldwin, of Hood River; and Dr. Schaefer, R. J. Glingrich, of Portland; Ralph Ellis, of Cedar Rapids, Ia.; W. J. Brinckle, of Spokane, and L. Bronson, of Cincinnati. The climbers were provided with ropes, Alpine stocks and other mountain-climbing paraphernalia and expect to get back to the city tomorrow evening.

AMUSEMENT PLACES OPEN IN ALL IDAHO TOWNS.

Supreme Court Decision on Rest Law in Test Case Results in Shows Over State Opening.

BOISE, Idaho, Aug. 7.—(Special.)—For the first time in three years Idaho cities and towns were run wide open today, so far as public amusements are concerned. It was the first Sunday since the Supreme Court of the state held that a scenic railway and other forms of amusement, that are not immoral, dangerous or detrimental to public health, are permissible under the rest law.

The ruling was made in the test case of the State vs. The Natatorium Amusement Company, which was heard in proceedings to release G. W. Hill, manager. So confident are theatre managers, operators of moving-picture shows, music halls and those who conduct amusement parks that the Supreme Court had lifted the lid off of public Sunday entertainments through this decision, they threw their places of business wide open today.

This was generally true all over the state. There has been and is strong opposition to the Sunday rest law and general sentiment is against it. If the authorities do not act it will hereafter become a dead letter on the statute books.

WOMEN CAUGHT IN RAID

REFORMERS, THEMSELVES, ARE PLACED UNDER ARREST.

Narragansett Club Scene of Early Morning Call While Gaming Paraphernalia Is Working.

NARRAGANSETT PIER, R. I., Aug. 7.—(Special.)—Five reformers, one of whom was James S. Ivins, son of William M. Ivins, of New York, burst into the Narragansett Club here at 12:33 this morning and were conducting a highly successful raid among the roulette wheels, faro bank and started men and women in evening clothes, when the police interfered.

The leader of the raiders, Constable John G. Cross, and one of his party, George L. Cutting, of Worcester, were arrested. Constable Cross gave a warrant for the arrest of Cross on a charge of assault and arrested him.

Three roulette wheels and other gambling paraphernalia were in operation when the raid was made. When Constable Cross announced himself some of the richly-gowned women fainted and others became hysterical. None of the society folk were taken to the lock-up. Constable Cross graciously permitting all of them to go after he had jotted their names down in a memorandum book.

King George Approves Attitude.

MADRID, Aug. 7.—The Correspondencia asserts that King George wrote to the British Ambassador at Madrid, approving the Spanish government's attitude on the religious question and that he personally expressed the same view to King Alfonso.

SPAIN IS PEACEFUL

Outbreak by Clericals Quelled Before Headway Is Gained.

BULL FIGHT ENTERTAINS

Soldiers in San Sebastian Put Stop to Attempt to Incite Riot—Cries of "Death to Spain" Bring Rush From Populace.

SAN SEBASTIAN, Aug. 7.—The government's vigorous measures avert the formal renunciation by the clerical junta of the threatened demonstration in this city insured comparative tranquility today, and a largely attended bullfight was the chief incident of the day.

From daybreak the streets were patrolled by cavalry, infantry and gendarmes, while heavy bodies of troops were held in readiness in the barracks at Miremar Palace. The gravest incident occurred last evening when groups of clericals assembled, shouting, "Death to Spain—long live the pope."

Arrests Number 15.

Thousands of indignant people rushed toward the manifestants and only the personal intervention of the governor averted a riot. Several ambulances prevented an attack. Nearly 15 arrests were made.

Many amusing scenes were witnessed. Priests leading "friding bands of penitents" were seen in the streets when they found the city in the possession of the troops. The peasants, all their courage gone, were ordered to return to their homes.

Clericals Are Indignant.

The local authorities are convinced that the clerical demonstration marked a Carlist plot. Clericals are extremely indignant at the government's repressive measures. Some of the chief organizers of the movement, declared today that the policy of the government was opposed by the entire Spanish people.

"Even the queen mother is bitterly hostile to it," he added. Some apprehension arose that the bullfight would cause trouble, as there were many thousands of manifestants in the crowd, and a large number of them proceeded to the arena, but it passed off without untoward incident. Official notices indicate that all is quiet throughout the basque provinces. All except a few of those arrested will be liberated tomorrow.

PICNIC PARTY IN RUIN; 3 HURT

Woman and Baby Suffer Serious Injuries When Wagon Goes Into Ditch.

DRIVER DROPS ONE LINE

Frightened Horses Dash Down Long Hill—Woman in Auto With First Aid Appliances Arrives on Scene in Nick of Time.

Nine persons were injured, two of them perhaps fatally, in a runaway on the Oswego road near the home of Mrs. Helen L. Corbett, Abernethy Heights, at 3:30 P. M. yesterday. The injured: Mrs. Evelyn N. Kinder, 546 Marion avenue, injured internally and about the head; may have fractured skull; serious.

Baby of Mr. and Mrs. James W. Kinder, 546 Marion avenue, hurt internally; serious. Mr. and Mrs. James W. Kinder, cut and bruised.

John R. Kinder, 546 Marion avenue, face badly cut and hip injured. Harry E. Kinder, 546 Marion avenue, bruised about the body. Thomas Masie, 372 Washington street, head cut and body bruised. Six-year-old son of Thomas Masie, cut and bruised.

Driver Drops Reins.

The party was returning from a Sunday picnic at Oswego Lake. On a sharp curve and brow of the hill between the residences of Mrs. Corbett and Peter Kerr, the driver, dropping one rein, fell between the horses. The animals became frightened and started on a wild dash down the hill. The momentum of the wagon jerked the horses out of the ditch and ran a half mile before it capsized and the animals were stopped.

Screams of the injured women and cries of the men brought persons in the neighborhood to the rescue. Mrs. Corbett ran out with her housekeeper as soon as she saw the seriousness of the accident, telephoned the Good Samaritan Hospital for ambulances and medical assistance.

Woman in Auto Gives Aid.

By this time Mrs. Rosp McCoy, who was on her way to the country to join a camping party, came up in her automobile. She had with her a complete outfit for such emergencies and they came into much-needed use. Mrs. Corbett sent buckets of ice to the scene and this also came in for use in stopping the flow of blood from wounds all of the party suffered. While improvised bandages were being applied to the neighbors carried water. Dr. J. Allan Gilbert arrived, applied restoratives and bound up the wounds.

The road is much traveled by automobiles and soon a large crowd collected. Dr. Gilbert sent Mr. Kinder, his wife and baby to the hospital in W. C. Holman's automobile, and other machines carried Mr. Masie and his son and Miss Kinder to the hospital. J. R. Kinder and Harry E. Kinder remained with their mother in the ditch until ambulances arrived and took them to the hospital.

Keg Bounces From Wagon.

Wounds of the less injured were dressed at the hospital and they were taken home, and the others were kept at the hospital. The party took a keg of beer to the picnic. The keg, with a little of the beer left, bounced out of the wagon a short distance from where the party was thrown.

The team belongs to H. W. Black, of the Bellwood Furniture company, for whom John R. Kinder works. The vehicle is a light delivery wagon without a top and was provided with springs. The wagon was not damaged to a great extent.

ABDUL HAMID NOT UNDERSTOOD, IS HARBOR VIEV.

Masher of Household Real Author of Cruelty, Says Albanian Girl Now in America.

BIDDEFORD, Me., Aug. 7.—(Special.)

In a tenement-house in the Albanian mill section is now living Zekeshev, a favorite of Sultan Abdul Hamid, who has been deported. She works in the Lancia cotton mill and is guarded in her house by two uncles, Albanians. She is firm in her belief that the deported Sultan was murdered as soon as the Young Turks obtained his deposits in foreign banks. She is now 19 years old. This is her story:

"I was 14 years old when I was taken to the Sultan's harem. My father was a tribal chieftain among the Circassians, and my mother was an Albanian. I saw the side of Abdul Hamid that the world never knew, and I felt all the time that he was a very weak man—anything but the unspeakable person he was described to be in the French and English newspapers."

"I have seen him walk for hours in his bare feet, wring his hands and muttering as he looked first at one object and then at another in his favorite room. Sometimes he could not sleep at all, and many a time I have been called to read to him tales from De-Maupassant because he could not rest."

"I knew the person to blame for all the crimes charged to dear old Abdul Hamid. That person was the master of the imperial household, who has since been put to death by the revolutionists."

"It happened that I was with him, patting his hands and trying to make him feel comfortable, when three members of the Parliamentary committee were announced. It was not long after that before we heard rumors that Abdul had been deported; that he accepted the conditions and that he was going into exile. Some of the women laughed outright, and said they were glad. There were about 1500 of us, and many of the women had never spoken to the Sultan."

FIRST STAGE OF GREAT FRENCH TEST IS COMPLETED.

Pilots Steer Airships by Compass and Journey of 485 Miles Begins With Six of Eight Recorded.

PARIS, Aug. 7.—Eight aviators started at daylight today in the great 485-mile cross-country race, and tonight six of them had covered the first stage of the journey to Troyes, 85 miles from the starting point.

Not since the grand prix competition for automobiles has such crowds gathered nor has such enthusiasm been displayed in a sporting event. Following each other at five minute intervals the aeroplanes rose, and after swerving for a moment over the city, proceeded at full speed in the direction of Troyes.

Because of the difficulty of locating landmarks, the pilots steered by compass. Several army officers who were not allowed to take part officially in the race, made the cross-country flight to Troyes from various stations. They de-
