An acre of land is equal to about six lots 50x100, after allowing for ordinary streets. There are suburban lots for sale around Portland as low as \$100 each—perhaps. But they are far out, and more than likely not very choice. To get a fairly go od suburban building site you must pay from \$350 to \$500 for a single lot. Now, that is from \$2100 to \$2000 an acre, and yet we can sell you a 5-acre tract in Banner Acres for \$500, or the very sightliest for \$355. And there are no choicer building sites around Portland than Banner Acres. Five acres bought now and utilized as a home will in a few years leave you an acre for a home site—and the other four acres will pay for all and give you a large profit. Let us show you.
