COFFEE TO GO UP

Prices at Primary Markets Show Decided Advance.

BRAZILIANS IN CONTROL

Through Valorization Scheme and Short Crops the South American Republic Is Enabled to Force Values to Higher Level.

sting trade, but strictly in line with the of ooffee brokers, importers and there has been a big advance in green coffees. Brazil, which cent of the coffee of the has been shie through its valorinaon scheme and somewhat shorter crops, to munipulate the market that prices ave been advanced on the medium and coffees from 15c to 25c per

On the medium sorts and the lowndes prices have advanced fully 2. Rio coffees, especially No. 7 Rio, which is very nearly the cheapest grade, has advanced 21st per pound. The very high grades have advanced from %c to

ances, there has been an advance on Cenerican and East Indian coffees. The situation is that where formerly day the handling of coffee has been so imorted but is used in the country of pro-ortion, as in the case of apples and pears where the consumer gets the poorest,

nown fact that the stocks of coffee in the world are yet very simple and much higher rices than those asked today would be

likely to curtail consumption.

A report from one of the leading importing houses of New York says of the

quickly alluded to and are as follows: s world's visible supply, which last year creased during July 950,000 bags, this year increased but 535,000 bags. South America and South Africa, which have been using but small quantities of coffee, are coming into the market more freely and ere this year using 500,000 hags.

mmieston men in Brazil are tn sauch better shape financially, as are also the planters, than they have been for many years. Money is cheaper in Brazil than for a long time, and banking facilities are much better, enabling the pinnters and omission marchants to hold their coffee at less cost and feed the market only its frements and not as heretofore throw the coffee onto the market in his quanti-ties regardless of themand.

All these things tend to still furthe

the St. Louis brewer, who is spending the Summer on his estate in Germany, is reported to have sent positive instructions to his purchasing agents in New York State to buy no hops this season that are not absolderly clean-picked. The report further says:

named. Talk means a big expenditure for a brewery whose output is reckoned in millions of barrels, but Mr. Rusch believes that the duting will be educational and profitable all arcerad.

"Hired pickers in the United States, he says, are prohe to mix leaves, stems and weeks with the hope, and these alien ingredients impart a hurtful flavor to the beer breesed from them. Growers in England, tiermany and Austria, on the contrary, are satchful against such practices, and their product commands a better price in consequence. If American growers will take pains, as it is abviously to their own interest to do. Mr. Busch tells them that so many European hops will not be imported by America's big breweries, nor will so many American hope have to grow stale in English warehouses while awaiting purchasers.

"With the ware of none but the best barier."

English warehouses while abants, chances, "With the use of none but the best harier and hope by our brewers generally. Mr. Husch expects that the consumption of beers is America will double within another decade and will aimers hanish drunkenness by decreasing the consumption of distilled liquors, as well as of the drugged and policitions substitutes now so widely used in archibition territory."

Wheat is now coming in from the interior in slightly better volume than for weeks back, and the same may be said of oats and barley, but the movement in all grains is yet small as compared with what it probably will be during September and Oc-

cautiousts, the bulk of the wheat purchased to date, it is said having been taken for miliers, but it chances are that the exposers will be in the market to buy freely within the next few weeks at the meet. The farmers also up to this time have shown no general disposition to sell at going prices, but sales thus far this week are said to have been on a larger scale than last week. Houseten lecally is held to be worth 95 to 85 cents and olub 56 to 85c, and by some grain men the lesser figures in each case are regarded as the limit at this time. In some quarters presently the marsurfy, the bulk of the wheat purchased

time. In some quarters yesterday the morket was considered a shade weaker, the re-

East and in Europe. Costs and barley were firm, but unchanged. ferings of both continue moderate, but a ight increase in receipts this week is

The Merchants' Exchange reports the af-rical yesterday of 14 cars of wheat, 2 of harley, 3 of flour, 5 of case and 3 of hay. Totals for the week to date are 44 cars of wheat, 7 of harley, 30 of flour, 14 of cate

Fresh Eggs in Good Demand,

Produce deniers report no weakening in the demand for fresh eggs, the supply of which at this time of the year is always meager. For such 25 to 29 cents is readily obtained in the Front-street market, and it is said that some sales at 30 cents have been made this week. Off-grade eggs go

been made this week. Off-grade eggs go less treatily at lower figures.

There was an easter feeling in the poultry fraits resterday, due to reports that the retaillers had been obliged to carry a good deal of stock over from last week and as a mailt were not likely in huy very hearily this week. Quotations, however, underwest me change and trade during the day amounted to little.

For fancy dressed means the demand was

Peaches Are Movine Freely.

now coming to the Portland market at the rate of three to five cars daily and the market as yet shows no signs of going to pieces, as it has been known to do in other years. Dealers report a demand, especially for choice stock, sufficient to keep the fruit moving in a satisfactory way, and the indications are that home consumption at this time is heavier than ever before. Fancy Crawfords yearerday sold at 65 to 75 cents a box, and occasions; sales of extra quality fruit at 55 cents were reported. Peaches that graded as common to fair moved at 40 to 50 cents generally. Dealers say the better part of the Crawford crop will be in by the end of this week. Late Crawfords, Muirs, Elbertas and Salways are the most im-portant of the later sorts.

Bank clearings of the Northwestern cities yeste ay were as follows:

Movement of Many Stocks Wholly Manipulative.

SENTIMENT IS CHEERFUL

Speculators in Wall Street Take Ground That Immediate Outlook Seems Conducive to Better Market-Bonds Steady.

NEW YORK, Aug. 16.—Trading today in the stock market was more active and em-braced many specialities, such as Colorado Fuel & Iron, Colorado Southern, American Beet Sign, National Biscuit, American Ice, Central Leather and International Harvester. The movement in these stocks was almost wholly manipulative.

Central Leather and International Harvester. The invertient in these stocks was almost wholly manipulative.

Later in the day the more active issues, including Residing, Union Pacific, Southern Pacific, Archison, St. Paul, U. S. Steel, Aumigamated Copper and American Smelting, showed advances.

Sentiment was more cheerful on the whole, traders taking the ground that the immediate outliook seems conductive to a better market. The opinion, however, was almost wholly negative in character, being founded on the belief that many contingencies have already been discounted by the present price levels and that stocks are no longer being pressed for sale. There appears to be a more active demand for the better grade of bonds and the tone of the market offers more encouragement than for a long time pass.

Local financial institutions continued strong in cash, but are disinclined to make disbursements save for a legitimate purpose. Their aiffitude is based on the fact that a great many of the Western and Southern banks still show heavy loan expansions on real exist.

In the late session the market became more bries and a general higher level of prices was recorded. This advantage was almost fully maintained to the close, which was active and strong.

London, where the line of the markets was

OPENING WEAKNESS IN MARKET DUE TO RAINFALLS.

Wheat Shows Unevenness in Chicago Pit, Principal Causes Being Visible Supply Reports.

CHICAGO—Aug. 16.—Extreme weakness marked the first half of the session in the wheat pit, the principal causes being an increase of more than 8,000,000 bushels in the world's visible supply and heavy local receipts. Selling, induced by these factors, was rather overdone and later in the day shorts sought to cover, foreing prices up to a higher point than the previous close.

Word that more than 300,000 bushels had been chartered for shipment abroad, and that two additional cargoes had left Baltimore, together with large exports of Pacific Slope wheat, also aided in hardening the market, and the close was firm. September closed a shade up, at \$1.02 is \$1

Grain statistics:
Total clearances of wheat and flour were equal to 216,000 bushels. Primary receipts were 1.452,000 bushels, compared with 596,000 bushels the corresponding day a year ago. The world's visible supply, as shown by Bradstreet's, increased 8,158,000 bushels. Eestimated receipts for tomorrow: Wheat, 432 cars; corn, 108 cars; oats, 931 cars; hogs, 29,000 head.

New York Produce.

NEW YORK. Aug. 16.—Flour—Barely steady, with business quiet. Receipts. 19.175 barrels; shipments, 4070 barrels.

Wheat—Spot, steady; new No. 2 red, \$1.085 elevator and \$1.085 f. o. b.; No. 1 Northern, \$1.24 b. f. o. b. to arrive. There was active selling in wheat early on the heavy receipts, owing to the big increase in the visible supply figures and increased estimates on the Canadian crop, but prices railled late on reports that about 300,000 bushels had been sold for export from outports, closing unchanged to \$6 net lower. September closed at \$1.05\$; December, \$1.125; Receipts, 47,300 bushels.

Hops—Steady.

Hides—Firm.

Rys—No. 2, 72875c.

Disposed of at \$9.50.

Little beyond beef stock reached the North Portland yards yesterday and practically everything brought in came from points out-side the state. Receipts were 508 cattle, 64 hogs and 20 horses. The cattle were all from California and Idaho. The horses were brought in from Idaho. The day's offerings showed about the same

general quality as those of the past week, and the few sales recorded during the day devel-oped nothing new in the way of prices. Three numbers of steers changed hands at \$4.25 and \$5.25 a hundred and one lot of cows aver aging S97 pounds in weight brought \$4.25.
There was one sale of hogs and the price realized \$9.50, but porkers of better quality could undoubtedly have been moved at a bet-

ed, but that the demand for fancy muttor the sale Monday of three lots of high-grade

inmbs at \$0.
Shippers represented at the yards yesterday were the Sharkey Commission Company, by one car of logs; Brigerier-General A. M. Rowe, of Payette, Idaho, one car of horses; Gooding Packing Company, of Gooding, Idaho, two cars of cattle; Byrnes Bros., of Halley, Idaho, seven cars of cattle, and Goodale &

BUTTER MARKET EASIER

SAN FRANCISCO SLUMP HELPS SEATTLE SITUATION.

Alaskan Advices Indicate Whole Salmon Pack Will Not Exceed 2,500,000 Cases.

SEATTLE. Wash. Aug. 16.—(Special.)—
As a result of the slump in butter prices at
San Francisco, the local market is easier
and dealers, stated today that an advance
this week is no longer probable.
Eggs were firm. There is an active demand for both butter and eggs to be shipped
on the boats sailing for the North in the
next two days. The Winter supply for the
interior will be shipped this week.
Poultry was in fair demand and steady.
The feature of the fruit and vegetable
market today was the large number of
Northern orders, which are coming in rapidly. Peaches were active at 406 99 cents.
The potato market was easier as the result of the arrival of three carloads of tubers
by rail and about two carloads on last
night's heat. The \$1.50 quotation still prevails on the best stock.
Pears are in good demand, selling from
\$1.256\$1.50 a box. The first prunes have arrived and are quoted at 90 cents to \$1 per
box.
Wheat was steady. Exporters would not
pay more than 94c for bluestem and 85c for
club.
Advices received from Western and Central
alaska today indicate that the total Alaska
salmon pack will not exceed 2,500,000 cases.
It was reported today that the opening price
on Alaska reds this year will be \$1.30, an
advance of 15 cents over last year's openling quotation.
