Commencing this afternoon the Vaughn-street ball park will be the scene of another hard-fought baseball game, for the Beavers and the Scals hook up in the first game of six to be played up to and including next Sun-day. San Francisco comes North this time minus the services of "Ping" Bo-die, the chap whose big stick wielding

die, the chap whose big stick wielding caused so much gloom during the last visit of the Bay City contingent, for Bodle has a lame leg and Mobler decided to let him rest for a week.

This series will be a battle for blood, as both San Francisco and Portland are stringgling for the lead, with the Oaks also in the running, and on the result of the series commencing this afternoon probably depends the pennant chances of the McCredie forces.

Surprise Sprung on Scals.

San Francisco has always been a formidable factor in the games played between these two clubs, and until McCredie's team surprised the Seals by defeating them in four of the last seven games played between those two clubs. Portland had not won a series from San Francisco innec 1908. The success in San Francisco on the last trip there is a source of great encouragement to the McCredie squadron, and the boys will go on the field

encouragement to the McCredie squadron, and the boys will go on the field tomorrow with the determination of beating the Seals again. "Silvers" Henley is being groomed by Mohler to pitch for San Francisco, and the stienuated one has been quite fortunate against Fortland thus far this season.

Last week against Oakland the Portland feam was woefully weak in hitting, and unless the boys brace up and slam the ball with better success than in the past San Francisco is likely to repeat past performances by taking the series or at least getting an even break.

Outfielder Gough Not Coming.

Irving Gough, the outfielder an-nounced some time ago as coming to Porland, is not going to join the team this zeason, as had been anticipated. Gough is playing in the New England League and that season does not end until September 10, and McCredie figuntil September 10, and McCredle fig-ures that the player would be of little use to him in reporting at the con-clusion of that season for the reason that it would take at least a week or ten days for him to reach Portland, and so instructed him not to report until Spring.

What McCredle needs is a hard-bit-ting outfielder to report immediately.

What McCredie needs is a hard-bit-ting outfielder to report immediately, and there seems little chance for find-ing such a prize at the present time, so "Mae" will likely be compelled to strug-gle along with the men he now has on the payroll.

Unless his pitchers break down, Mc-Credie will have that Portland team within halling distance of the flag all the time, for there is just enough hitting strength on the team to make an occasional run or two, and the twirl-

Crawling With Ball Prohibited and Forward Pass Legislation Is Revised-Players Leaving Game Are Allowed to Return.

Spalding's Official Football Guide for 1910, which has just been published, contains the new official football rules, as revised by the football rules committee. The committee held numerous meetings, and it is only within the last few days that the final changes were adopted. The changes in the rules for 1919 must be carefully noted by officials, coaches.

The changes in the rules for 1919 must be carefully noted by officials, coaches, captains and players in order that they may fully understand what is expected. Taking the rules up in order, the first change noted is in the diagram of the field, the longitudinal lines now being omitted, because, as the quarterback may cross the line of scrimmage at any point, and as the forward pass may be thrown over the line at any point, these longitudinal markings are no longer necessary. Hence rule 1, section 2, now simply reads that the field shall be marked off at intervals of five yards with white lines parellel to the goal lines.

The next rule affected is that regarding substitution. A rule has been passed that a player who has been removed for any cause except disqualification or suspension may be returned to the game once at the beginning of any subsequent periods of 15 minutes each. 60 minutes in all, with the usual intermission between the second and third periods, but a three-minute intermission only between the first and second and third and fourth periods. During this short intermission of three minutes, no player is allowed to leave the field of play, nor any representative to come on the field, except one who looks after the physical condition of the players.

Crawling Ruled Out.

Crawling Ruled Out.

At the beginning of the second and fourth periods, the teams change goals, but the possession of the ball, the down, the relative spot of the down, and the distance to be gained all remain the same as at the termination of the preceding period. The teams do not change goals after a try-at-goal following a touch-down, or after a goal from the field, but the side scored upon then has the option of kicking off, or having their opponents

Crawling has been defined as an at-tempt to advance the ball by the runner after the ball is declared dead, and is penalized. Seven players of the side holding the ball must be on the line of scrimmage. The player who first re-ceives the ball when it is snapped back may carry it across the line of scrimmage

The legislation regarding a forward pass should be read over repeatedly by officials, coaches, captains and players in order that it may be thoroughly mastered. First, the lines to be observed should be thoroughly borne in mind. There are two lines of scrimmage, one There are two lines of scrimmage, one for each side as formerly, the line passing through the end of the ball. A man to be on the line of scrimmage must be within one foot of this line, but a player to be eligible to receive a forward pass must be at least one yard back of his own line of scrimmage, and no one may receive the forward pass who is not thus one yard back, or occupies the position on the end of the line of scrimmage.

There is another imaginary line in addition to this one-yard line, and that is dition to this one-yard line, and that is five yards back of the line of seriminage. No man may make a forward pass, nor may he kick the ball unless he is behind this imaginary five-yard line. Between this line and his scrimmage line he is rubber today, the first time in three years.

Furthermore, if a forward pass is even touched or fumbled by a player, still no players on the other side may interfere with the opponent until the ball is actually in possession of the player except in an attempt to get at the ball. The players may, however, interfere with opponents who have not crossed their own line. ponents who have not crossed their own line of scrimmage. A forward pass is not legal if it goes more than 20 yards beyond the line of scrimmage, but an onside kick does not become an on-side kick that is, does not put men on-side when touching the ground, unless it goes at least 30 yards beyond the line of scrimmage. In the case of a kick, the players on the defense within the 20-yard zone must not interfere with the ends, or other players, in any way until these opponents have advanced 20 yards beyond the line of scrimmage.

President Andrews, of the North Pacific International Association, yeaterday

Secretary Cave also believed that the
