Business Confidence in General Is Strengthened as the Harvests Are Gathered-Speculation Is Lighter.

NEW YORK Aug. 26.—R. G. Dun & Co. s review temorrow will sery:
Crep prospects are improving. Business condidence is strengthened as the harvests are being gathered and the period of mid-summer inaction draws to a close. On the other hand, renewed political activity makes for that uncertainty that tends to retard enterprises.

That there has been and atill is a contraction in a number of important lines cannot be desied. But the contraction contains mainly in the reduction of speculation and in the cutting off of transactions for the cutting off of transactions. and in the cutting on of transactors future.

In dry goods there are signs of expansion among the jobbers, as the result of a better retail trade. The flootwear and hide and leather trades are manifestatory.

Escent developments in iron and steel appear to warrant expectations of a brisk revival in demand as the same and the sentiment is now more cheerful than for some time past.

GENERAL RECOVERY IN PRICES OF STOCKS.

Market Advances When Rumors of Frost Damage to Corn Are Dispelled.

NEW YORK, Aug. 25.—On the amallest overturn in business this week, today's stock market made a general recovery from the declines of yesterday, when rumors of frost in the Northwest precipitated a general selfing movement. These rumors were dispelled today and the decline in corn options resulted in a strong recovery.

The character of the trading, however, together with its more than ordinarily narrow ratige, render serious discussion unnecessary.

row rauge, render serious discussion unnecessary.

Business during the noon hour amounted to about 14,000 shares. The influential interests continued their policy of inactivity and the manipulation for the rise in certain stocks was so obvious as to work its own deteat.

Americans railled in the Loudon market and there was later buffing here. Foreign exchange here ruled easier.

Indications point to a small cash gain for the week by the banks in their operations with the sub-treasury, but inasmuch as many direct shipments of currency have been made to interior points and Canada, the supposed gain may readily be turned into along. Bank clearings in the aggregate all over the country show a continued shrinkage, the loss for the week being over 20 per cant, compared with last year. The reduced volume of clearings is again chiefly due to the marked failing off in this city, while Chicago, Pittsburg, Cleveland, Baltimore, Kansas City and San Francisco all report increases.

The bong market was steady. Total sales, par value \$753,000.
