William Tells Audience at Koenigsburg He Is Chosen Instrument of Deity and Goes His Way Regardless of Others.

KOENIGSBURG, East Prussia, Aug. 18.—Emperor William, who is making a four of Eastern Germany in connection with his visit to Posen for the dedication of his new castio there, delivered a martial speech at the provincial banquest here last night, in which he urged the necessity of co-operation with him in his work for the welfare and defense of the country.

Taking as a text the role, of Queen Louise of Prussia during the Napoleonic wars, he extolled her virtues and pointed out how the memory of her had fired the courage of Prussian soldiers and saved

the country.

In the course of his long speech the Emperor alluded to Emperor William I of Germany in terms indicating the identity of his convictions with those of his reported by:

"My grandfather," he said, "by his right placed the Prussian crown on his head and again proclaimed it to be bestowed on him by God's grace alone and not by parliaments, assemblages, effect of the people or resolutions of the people, and that he saw in himself the chosen instrument of heaven and as such he regarded his duty as regent and ruler." German women, said the Emperor, should train the young generations in obedience and respect towards are. They should make it clear to their children and to their children's children that they should not strive to live at the cost of others nor at the cost of their fatherland, but that on the contrary they should have the fatherland alone in mind, devoting all their strength and intelli-'My grandfather," he said, "by his right

should have the fatherland alone in mind, devoting all their strength and intelli-gence to the welfare of the country. In closing, the Emperor said: "Considering myself as the instrument of the Master, regardless of passing views and opinions. I so my way, which is solely devoted to the prosperity and peaceful developments of our fatherland."

Infant Paralysis Is Communicable, Physicians Say.

NEW YORK, Aug. 26.—Infant paralysis will abortly be added to the list of communicable diseases that must be reported by all private practifioners and public hospitule to the New York Department

of Health.
Only ene-tenth of those affected die, but nearly all who recover are crippled for

life.
Dr. Walter Benzel, manitary superintendent of the department, will make a determined effort to collect data regarding the disease, of which illtle is known

"How the disease is communicated from one human being to another we do not know, and we can give absolutely no ad-vice us to guarding against it. Written Excuses Presented.

It was not without deep humiliation that Coughts and Campbell signed the resolution. The names of the trustees were called in alphabetical order. Campbell coming first and Coggins second. They had left the meeting a few minutes before for consultation, so were prepared with a written excuse for voting when they came in.

When their names were called the following statement was read:

Mr. Morse went into the interior of Alaska by way of the White Pass & Yukon Railroad, traveled down to the Yukon to Dawson and thence to Fairbanks. From the latter point he went to St. Michaels and from there by steamer to Nome and returning, visited the principal ports along the coast, including Treadwell, Juneau, Cordova and numerous other places.

"The first, second and third beaches are about worked out in Nome," said Mr. Morse pesterday, "but a systematic effort is now being made to find the location of the fourth beach and those who are engaged in the work helieve that they have found it. If this proves true Nome will jump back to its old population of about 15.00c. It is now down to about 400c. Dawson City has not more than 350c population now. PINCHOT SAYS FOREST LOSSES ARE UNNECESSARY.

Rangers Should Be Organized to Fight Flames Before They Get Beyond Control.

WASHINGTON, Aug. 26.—Gifferd Pinchot, of the National Conservation Association, and former head of the Government Forest Service, in a statement issued today, holds that the loss of property and life in the recent and present forest fires was unnecessary The disastrous results he says, are traceable to unpreparedness to deal with the situation. He scores members of Congress who have opposed appro-priations for the proper equipment of forest rangers and in that connection names Semator Heyburn, of Idaho, whose home town, Wallace, suffered

whose home town, Wallace, suffered serious loss; Senator Carter, of Montana, and Representative Mondell, of Wyoming:

"I am proud of the spiendid work the men of the Forest Service have been doing against the Western forest fires. Many of them have given up their lives to protect the homes of settlers and the forests on which the prosperity of the Western people depends. To my mind their conduct is beyond all praise. "Forest fires are preventable. It is a good thing for us to remember at this time that nearly or quite all of the loss, suffering and death the fires have caused, was wholly unnecessary." A fire in the forest is the same kind of a thing as a fire in the city. There

PATENT ANNULMENT ASKED

California Box and Door Company Is Defendant-Prosecutor Says President of Concern Paid 30 Men to Make Entries.

SAN FRANCISCO, Cal. Aug. 26.— (Spec.: 1)—Suit to annul patents to more than 2000 acres of rich timber lands in California, Oregon and Washington, alweed to have been obtained by the California Box & Door Com-pany through fraudulent locations by 30 men in its employ, was begun in the United States Circuit Court today United States District Attorney Robert Devlin. The case is in charge of Assistant United States Attorney

The complaint charges that all of the land, which is patented in quarter sections, was taken up under the direction of George B. Platt, president of the California Box & Door Company. It is claimed that the corporation paid all of the expenses of the 38 men who originally located the timber claims, and that none of the locations was made in good faith. The quarter sections selected by the locators, it is said by the Assistant United States Attorney, are the choicest in the three states named. The timber is all lo-cated on what is known as lieu jand and not within the Government forest

All of the California locations are in Siskiyou and Shasta Countles, where, it is claimed, the best timber lands u the state subject to location are. Many of the Oregon quarter sections taken up are within the same belt, just cross the Oregon line. Criminal prosecutions will probably follow the civil cases.
