I am charged with having first prought to the attention of the public iome years ago the name "Labor Trust." A trust is a combination of men or organizations for the purpose of selling

their product at a profit and restrict-ing production to effect it. We will say a large Oil Company gathers in smaller ones and thus conare induced to "join" and pay fees to trols production.

The Oil Company then fixes prices. The Labor Trust does likewise. The Oil Company may "use methods" force an unwilling dealer to join.

The Labor Trust men go further and slug the independent man if he tries to sell his labor without paying fees and "obeying orders." They are both exactly alike in purpose, which, in both cases is entirely selfish to gain power made fatherless by the pisiol, club or boot heel of some member of the vio-lent "Labor Trust."
