Potato prices in the coming Fall and Writer should be on a better basis than fast season, but growers should not expect very high prices, as there is nothing in this general conditions of the market, as far as con he seen now, to warrant hopes of extrasugant values. Even with three quarters of a crop in Occason there will still be plently of potables for all home needs and a good surplus besides.

According to the latest advices, California has a pretty good crop of potatoes, but not so good as last year. The Middle Wess reports crops somewhat abort of last year. Columno has not been heard from yet. Idaho experts a good crop, as does Vakima. In the White River Valley conditions are about the same as in the Willamotte Valley. Winter should be on a better basis than

LOCAL PRUIT MARKET IS TOPHEAVY Peaches Not Coming in So Freely, But Mar-ket Is Still Work.

There was not much improvement in the local fruit situation yesterday. The indica-tions are that the movement of peaches. has begun to fall off, but the market still continues topheavy and weak. The prices quoted by dealers were unchanged. Anther par is due from Yakima today. Worden grapes are beginning to arrive

more freely, coming from Forest Grove and Yahims. Half haskets sold at 25 cents and full backets at 50 cents. California erate grapes were weak at Tousday's prices and other fruits were unchanged.

BUT UNDERTONE IS STRONG

September Disbursements Will Exceed Those of a Year Ago by Twelve Millions, Showing Prosperous Conditions.

met came to a dull and uninteresting close

The September payments amount to \$52,-\$52,000, according to the computation of the Journal of Commerce, and the details of the estimats show that the amount is \$512,509,600 greater than in September of last year, with \$3,549,500 of that amount on account of increased dividend disburse-ments. The growth of prosperous condi-tions thus implied had some effect in main-taining the firm undertone of the almost lifeless market. The remainder of the in-crease for interest account is due to the additions to bond and note issues since last year.

Year.

The strong current of the cash movement away from New York was a factor in the suspense in which the speculation in stocks was held. Subtreasury operations have taken from the banks since the last bank statement \$4,480,000, and shipments to the interior and to Canada are being made on large smile.

interior and to Canada are being made on a large scale.

The effect is showing in the rates for time loans, which has been marked up a fraction, and in the call loan market, which is ruling appreciably firmer.

The private discount rate in Berlin declined, but the action of the London discount rate left opinion divided over the probability of an advance in the official rate of the Bank of England tomorrow.

Reading, Union Pacific and United States Steel again absorbed the bulk of the dealings. Aggregate sales of all stocks fell to a total of 160,800 shares and when from this is deducted the 5e,100 shares of the three active stocks mentioned, the narrowness of the general market may be appreciated. There was a day in July, 1908, when the day's sales reached only 73,000 shares. The day's total was the smallest for any day since.

Kansas City Reports Selling Flour to Holland and Scotland-Export Wheat Sales at Atlantle Seaboard.

CHICAGO, Aug. 31 .- During the last hour here was much new investment and no little there was much new investment and no little reinstatement of wheat unloaded yesterday. Partly this course was due to the fact that the seasonard laid claim to considerable export business today. Moreover, Kanssa Gity reported having sold flour to Holland and Scotland. Then, too, an improved milling demand for wheat was reported here. Freviously the most of the news had been the other way, with values sagging accordingly. It was not until the final 35 minutes that the upward swing began in earnest, The ione at the end was firm, with the hast sales at easily the best prices of the day. December ranged from \$1.03% to \$1.03%, finishing % to 1.9% or up at \$1.03% to \$1.03%, finishing % to 1.9% or unifered a severe decline early, but recovered later. December fluctuations were between \$75% and \$77.2 \$57.96. Steadiness provalled at the close, which was at a not decline of \$50 to \$1.03%, for December. The cash market was weak, No. 2 yellow closed at 50% of \$1.00 to \$1.0 reinstatement of wheat unloaded yesterday.
