BEVERLY, Mass., Aug. 31,-In lay ing the cornerstone of the new Y. M. C. A. building here today President Taft announced that Beverly would continue to be "the Summer capital of the country, at any rate, for two years

Melville Woodhury, who presided at the ceremonics, referred to the Presi-dent as "Beverly's most distinguished

Summer boarder."

The big block of granite measured three by four feet and no mortar had been spread when the Fresident took up the silver trowel. He worked in silence for nearly five minutes, and then, with reddened face, looked up and laughingly fuguired: "Where's the manager," Who's my hear?" Who's my boss?"

Mason Bosse His Job.

Everyone laughed, and the mason stepped forward. He gave some directions, but did not offer to relieve the Chief Magistrate of the trowel, and Mr. Taft resumed his job. When he had applied the last of the cement the mason smoother off the edges and the stone was lowered. The President helped swing the granfte block on the foundation and the crowd applauded

In his speech, Mr. Taft said: In his speech, Mr. Taft said:

"It is a great pleasure for me to take part in the dedication of a building that I believe shoorely will contribute greatly to the comfort, the welfare and the building up of good character in the young men of Beverly. I don't know how it happened, but it has falled to my lot to take part in the dedication of buildings like this the world over ings like this the world over.

"I began in Dayton, Ohio; I went to Omaha and then to Scattle and then to Shanghal and then to Hongkong, and then to Manlla, and now I have swung around to Beverly; and it is an evidence of the universal usefulness of the Young Men's Christian Association that it is well adapted to the betterment of so many different communities as those I mentloned. "It serves a great many purposes, but the one that impresses me as the most useful is the furnishing of a Christian club to young men at a time when the devil I very near and will get them if he can. It is in their idle moments that they contract the habits that lead them down-ward, and it is in their leisure that they an make their character what it ought

'I look forward to the usefulness o the Young Men's Christian Association of Heverly with a great deal of hopefulness, with a great deal of interest, be-I hope to spend at any rate two of my Summers here."

NEW ABBOT OF ST. BENEDICT'S ABBEY IS ACCOMPLISHED MUSICIAN.

RIGHT REV. PLACIDUS FUERST.

MOUNT ANGEL Or., Aug. 21.—(Special.)—At a meeting of members of St. Henedict's Abbey yesterday, with Abbot Frowin presiding, Right Rev. Placidus Fuerst was elected successor to Abbot Thomas. The new prelate is a musician and organ builder of the highest order. He was born 42 years ago in Germany and came to Oregon as a boy of 14, being one of the first members of the abbey.

His talents led to his appointment as president of Mount Angel College when he was only 25 years of age, a position which he filled with great success. For the last ten years he has been paster of the large parish in Mount Angel, and his zeal in the cause of religion and morality is known far and wide. Rev. Father Fuerat was engaged in building one of the finest church edifices in Oregon when elevated to the position of abhot.

The solemn benediction will take place on October 5.

Representative Hawley Will Be One of Speakers at Eugene Gathering. Acting Governor Bowerman May Be Present.

BUGENE, Or., Aug. 31.-Saturday the Republicans of Lane County will h their county assembly when a county ticket will be placed in nomination. In the afternoon of the same day a Republican rally will be held at the Courthouse Representative Hawley will be one of the speakers and it is hoped to secure Acting Governor Bowerman, as well as some of the other candidates for state

This county assembly is the result of the action of the assembly held in the early Summer to select delegates for the state and Congressional conventions. The call for the former convention included the selection of candidates for the county offices, but so few candidates had an-nounced themselves at that time and the interests of the state convention seemed to be of such paramount importance that county recommendations were de-

Thus far there has been a shortage of men to declare their intentions of run-ning for office or to come before the as-sembly for the recommendation. Indications now are that with the exception of the Clerk's, Treasurer's and County Com-missioner's offices, there will be no opposing candidates in the Republican priposing canonicates in the reputation pro-maries. And unless some new ampirants appear before Saturday, there will be but one contest in the assembly and that may be between S. W. Taylor and A. C. Jennings for nomination as Treasurer. Both of these men are old soldiers and there is a movement on foot to get them to settle the matter in the assembly. Neither of the men, however, have said publicly what they will do.

Candidate for Congress Tells Hood River Folk His Views.

HOOD RIVER. Or.. Aug. 31.—(Special.)—It was a big crowd which greeted A. W. Lafferty, candidate for Congress, who spoke here tonight. That same crowd, too, was enthusiastic over the address they heard.

Mr. Lafferty spoke largely on the needs of the Columbia River basin, declaring that one of the first moves he would make, if elected to Congress, would be the improvements of the river as far as Nelson Canyon, giving Eastern
washington country and Oregon a
much-needed waterway rout to the
coast. He said that the people here and in Eastern Washington would have to fight for the proposition themselves, as no aid could be expected from Se-attle, which selfishly sees in the move to improve the transportation facilities on the Columbia a boost for Portland and a knock for Scattle. The speaker regretted this view taken by the Puget

ound city.

Mr. Lafferty said, if he was elected, the first thing he would do would be the calling together of the Idaho. Washington and Oregon Congressional delegates to lay plans for securing an appropriation for up-river improvements, the clearing out of the rapids, which would aid materially in water traffic commits. which would ald materially in water traffic, opening up this part of the country to the second wheat export port of the country.
