"The decrease in accidents is most marked in those sections where restrictive legislation has been put in effect," says the journal. The summary shows:

FOR SCROFULA . NATURE'S PERFECT CURE

The children of blood tainted parentage inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the meck, weak eyes, running sores and abscesses, pale, waxy complexions, and frail, poorly developed systems are the most usual ways in which the disease is manifested. In some cases the blood is so filled with the scrofulous germs that from birth, life is made miserable with suffering, while other cases it is held in check during young, vigorous life, but when the system begins to weaken, especially after a spell of sickness, the ravages of the disease will commence. S. S. S. is Nature's perfect cure for Scrofula, made entirely of healthful roots, herbs and barks, a safe medicine for young or old. S. S. S. goes into the circulation and drives out all scrofulous matter, and entirely removes the cause. It supplies the blood with the healthful properties it is in need of and in this way builds up weak, frail, disease-burdened persons and makes them strong, robust and healthy. S. S. S. cures Scrofula, because it is the most perfect of all blood purifiers. Book on the Blood and any medical advice free to all who write.
