land of their adoption."

Friends Hope Colonel Roosevelt Will Suggest His Name to President Taft for Consideration.

WASHINGTON, Sept. 4 .- One effect of Colonel Roosevelt's speech in criti-cism of certain decisions of the Su-preme Court has been to encourage the friends of Associate Justice Harlan to hope that the ex-President may urge upon President Taft his appointment to the vacant post of Chief Justice. Justice Harlan alone dissented in the

decision of the court in the famous Knight case, which was made even more renowned by the criticisms heaped upon it by Colonel Roosevelt. Apart from the wish dictated by the gh esteem in which Justice Harlan is high esteem in which Justice Harlan is held, nearly every one in Washington believes that Governor Hughes will be selected as the successor to the late Chief Justice Fuller.

The plan provides for the appointment of Justice Harlan as Chief Justice, with the understanding that he retire at the end of the Taft Administra tion; the promotion of Mr. Hughes from Associate Justice to the Chief Justiceship and the appointment of Solicitor-General Bowers as an Associate Justice to succeed Mr. Hughes when elevated. Justice Harlan is by far the oldest member of the bench, being more than 77 years of age. In a few weeks he will have completed his 23d year of service. On June 10, 1912, several months before the end of the present Administration, Justice Harlan will have served longer on the Supreme Barch then Bench than any other man in its his-tory. VOTE IN ENGLAND IS HARD TO OBTAIN

General Election May Be This Fall: Warm Fight Is Promised.

Issue This Year Is Aristocracy Against Democracy With Many

Vital Side Points to Be

LONDON, Sept. 3.—Belleving that a general election is surely "fated" for next year, all political parties are hard at work in England fixing up their electoral registers. From next week the lists of those claiming to be eligias voters will be overhauled by what are known here as revising bar-

Should an election be fought before then the list that was revised last Summer must be used.

That does not end the chapter of obstruction by any means. There are three ways to obtain a vote in Eng-land. If a man is a householder for 12 months, ending July 15, in one parllamentary borough or constituency, he should be included. But it does not follow that he will be on the register us infallibly as on the tax roll, so has to see to it personally, with ald of the borough officers, or party organizer. If an agent believes him to be of the opposite party he will try to convince the revising barrister that a full 12 months has not been spent in the division.
