It is reasonable to suppose that during the next few years Oregon will experience remarkable development throughout its entire area. The planning of new rallroads is going steadily on and their construction is consistent-

throughout its entire area. The plant ning of new realizeds is going steadily on and their construction is consistently apace.

At the present time a concrete example of railroad activity is seen in the P. R. & N., which is about to enter Tillamook, and which passes through the beautiful Lake Lytte district. Mr. E. E. Lytle, president of the road, is confident that traffic will start to move over the rails within a very short time. The opening of this road means much to those who have been fortunate and far-sighted enough to invest in Lake Lytle property. The opening of the road means a rapid and sure rise in values, and the lucky ones will immediately begin to realize a large profit. Mr. Ralph Ackies, 605 Corbett Bldg., who is secretary of the Tillamook Development League, and who is acting as agent for this beautiful Lake Lytle property, sheaks in glowling terms of the future of this section. In part, he said: "Climatic conditions are ideal. The beach is protected so that Summer and even Winter homes alike enjoy a most comfortable atmosphere at all seasons. The delights of surf bathing are superlative at this most favored of seaside resorts.
