Total Attendance on Opening Day of Fall Term Is 19,914.

YEAR'S GAIN IS 19 PER CENT

In Spite of Complaints Peninsula Building Has Full Enrollment. Crowded Rooms Will Necessitute Transfers.

The public schools opened yesterday morning with a total corollment of 19, 4 an increase of 3150, or about 19 ner event over last year. The enrollment on the first day of school a year ago was children in the city reported the first morning of the term. They will drift in year day to day and it is expected the first day of 25,000 or 25,000. The tots could will be 25,000 or 25,000. The tots was 251, an increase of 442 over har years the was a slight falling off at both the Washington and Lincoln high motods, but this was greatly overhap whools, but this was greatly overhap incol to 55 last year. The Washington high School enrolled 1461 and the Lin-col 457.

High School curvelied 1947 and the Lin-enn 657. Unlooked for conditions developed in the common schools. Some of them are so crowded that pupils will have to be transferred to the nearest schools, while in other instances, where a big increase was expected, a decrease was apparent. The children reported at 2 o'clock were reasigned to classes, given this of books they need and sont home. This morning school will really begin and the boys and gits will berry themselves in their studies for the Fall term. While much complaint has been made about the safety of the Feelinsula achool and while it was reported that many parents would not send their children to school until repairs were made, the sta-roliment showed an increase over last

Marquam Has No Pupils.

As no pupils were reported from the Marquain school and only four or five attended last year, it was decided to abandon the school that year. Another school that reported no at-lendance was East Mount Tabor, but it will be kept open, as pupils are expected this week.

There was a hig increase in the en-milment of the trades schools. Eighty-four boys and 15 gris reported, making a total of 103, as compared to 58 on the opening day last year.

CATARRH A SYSTEMIC BLOOD DISEASE Catarrh is not merely an affection of the mucous membranes; it is a deep-seated blood disease in which the commonly manifested in the head, nose and throat, because of the sensi-tive nature of these membranes, and also because they are more easily reached by irritating influences from the outside. The symptoms of Ca-tarrh, such as a tight feeling in the head, nose stopped up, throat clogged and dry, hacking cough, etc., show that the tiny blood vessels of the mucous membranes are badly congested and inflamed from the impurities in the circulation. To cure Catarrh permanently the blood must be purified and the system cleansed of all unhealthy matter. Nothing equals S. S. S. for this purpose. It attacks the disease at its

membranes begin to heal, the head is cleared, breathing becomes natural and easy, the throat is no longer clogged, and every unpleasant symptom of the disease disappears. S. S. S. is the greatest of all blood purifiers, and for this reason is the most certain cure for Catarrh. Book on Catarrh and medical advice free to all who write.

ECZEMA TOTALLY COVERED HIS FACE When a Baby-Hair All Came Out-

Always Scratching - Mother Got Cuticura and He was Cured After 3 Years of Disease.

"My son was about four months old when he was taken with dreadful ecze-ma. I had four different 1 doctors but they could not help him. The hair all came out and his face all came out and his face was totally covered. His eves were shut and we to ught he would go blind. His limbs and body were also affected. He was always scratching; I had to keep his little hands to have a great deal of pain. We did not know what to do. I used to get sick handling him, from the way the corruption was always running. "But I got some Cutioura Soap and Cuticura Ointment and in a week or ten days I could see the eruption drying up and hefore long he was cured, after about three years of the terrible disease. Now he is nineteen years old and has not a size of the old trouble. You see

No man could make a fairer or more straight-forward proposition than that. I make this offer because I KNOW that my methods will cure any case that I accept for treatment. Under no circumstances do I over attempt to treat incur-able cases. If I attempt to treat your case, therefore, depend upon it that I will cure you. If alling you can depend upon it that the service I offer you is the service you need and is service such as can be rendered by no other physician.

physician. Maybe you are one of the large number of men who think their cas is incurable Perhaps your own doctor has told you you could not be cured but, remember, that is only because he did not understand your aliment an could not cure you. It did not mean that you could not get help from a expert or experienced specialist.

I Cure to Stay Cured

by a method that involves no painful processes. No other physician employs a like method, and so thorough is my work that there need not be the slightest fear of a relapse into the old condition. It is not a question of whather you can be cured, but whether you will be cured. Don't wait outil it is too late. My method is perfect and quick. The cure is absolutely out-tain. Men's Ailments My Specialty

I have limited my specialty in practice to only a few of the more impor-innt aliments so that I could KNOW these thoroughly. My experience along this one path for 25 years qualifies me to say positively that such troubles as varicose yeins, specific blood poison, contracted aliments, ob-structions can be cured perfectly — so as to stay cured. Of course, I use different methods than the ordinary physician. Most of these are original with me and were devised for just such cases as the ordinary courses of treatment fail to reach.

Every contracted affment I treat is thoroughly cured; my patients have no relapses. When I pro-nounce a case cured there is not a particle of inflammation remaining and there is not the slightest danger that the allment will return in its original form or work its way into the general system. No ailment is so trivial as to warrant uncertain methods of treatment, and I especially solicit those cases that other
