CANNON'S DAY PAST, MB. ELLIS THINKS

Representative Is Inclined to Favor Judge Smith, of Iowa, for Speaker.

BREACH HEALING

Prediction Made That People Will Appreciate President Taft More Fully - Administration Has Done Important Work.

Speaker Cannon will never succeed himself in the capacity of Speaker of the House, there will shortly be a wider appreciation of the fact that President Taft has made good, and the breach in the Republican party will be healed. These predictions were made yesterday by Representative bills, who is spending a few days in Portiand from his home at Pendleton "Mr. Cannon will not He down under fire." said Mr. Ellis, "but it a generally understood that he can never succeed himself. Even his closest friends and political supporters do not assert that he ever again will succeed to the Speakership. I find that there is an inclination to favor some younger man; a conservative who will serve to draw together the breach in the Republican party. Two men have been prominently mentioned, Judge Walter I. Smith, of the Ninth Iowa district, and M. E. Olmstead, of Pennsylvania." President Taft has made good, and the

Smith Excellent Choice,

"Personally," Mr Ellis added, "shall be inclined to favor Judge Smith The sentiment for him seems well developed and I can say that he will be an excellent choice. I have known him an excellent choice. I have known him as a great many years—in fact his district is the scene of my boyhood days, and I know him as a man of the highest standards. He is a man, too, of a conservative order and who will do much towards unifying the party.
"President Taft has made good on a big scale and there is bound to be a

a big scale and there is bound to be a wider appreciation of that fact," Mr. Ellis averred.

"No administration has been productive of more highly important legislation. I can call to mind some of the mensures that have been passed. There are the emergency currency act, which puts a check on panics, the proceedings appreciately actives bank law providing a postal savings bank for the convenience of the people and to encourage thrift; the Sherman antitrust law amendment which makes the Shermen law much more potent and far-reaching, railroad legislation which en-ables the Intermate Commerce Commisshies the Interstate Commerce Commis-sion to investigate and give publicity to accounts of interstate railroads and also to prevent future over-issue of stocks and bonds by railroads; the child labor statute, which applies in the District of Columbia and sets an example for the states to follow; a law providing com-pensation to United States employes who are injured in the performance of their duties; an anti-bucket shop faw; an act to regulate the immigration of alien fe-males for immoral purposes, which is, in males for immoral purposes, which is, is short, a regulation of the so-called white-slave traffic.

Liability Act Important.

Another important piece of legislation is known as the employers' liability act which gives the courts of the United States and of the states concurrent jurisdiction and in addition confers a surrecentatives. There are scores of mean tres of lesser importance, but all affecting the welfare of the country.

"In this list come the enactments providing that the railroads shall maintain certain important safety devices in the

way of brakes, equipage and signals. Railreads foo, under that same act, must report all accidents to the Interstate Commerce Commission. The law for publicity of exmpaign contributions is of considerable importance and will do much to purify politics. In that connection I recall that the measure had rather a close shave, the Republican and Democratic members of the committee being tied. I voted with the Democrats in order lo get the measure adopted. Con-siderable importance attaches itself to the National conservation act, which em. powers the President to withdraw public lands and water-power sites. And the list is an almost unending one, the measures I have enumerated being among the few I can call to mind readily."

Mr. Ellis is not making an active complete the contract of the Republican nomination of the Republican nomination.
