Efforts to Force Resignation of Ballinger Will Prove Futile.

TAFT WILL STAND BY HIM

Organizer of Alaska Coal Syndicate Says Same Element Is Fighting Ballinger and Heading Insurrection-Glavis in City.

Richard A. Ballinger, Secretary of the TULL & GIBBS' OPENING AT-Interior, will not resign under fire or under any other circumstances, declares Clarence Cunningham, of Alaska, who was at the Portland Hotel yesterday. Mr. Cunningham came from Seattle to look after private interests, and he made no comment when informed that Louis R. Glavis, the man who would be the "savior of the Alaska coal fields," was also registered at the hotel.
"Mr. Bailinger is made of too fine stuff

sto give up his position as a member of the Administration's Cabinet in order to suit the whims of his villiflers," said Mr. Cunningham. 'He is a part and parcel of the Administration and as long as he continues to follow out the wishes of the President and to conduct the husiness of the department within the policy origi-nally outlined he is going to stay at his post through thick and thin, notwith-standing the sinnderous articles that have been published and notwithstanding the result of the findings of the Congressional committee appointed to look into the various charges that have been preferred by his enemies.

"There seems to be some talk that tremendous pressure is being brought to bear upon President Taft to request the resignation of Mr. Ballinger. That is folly, to say the least. There may be some determined effort on the part of Mr. Pinchot's friends to force the mat-ter to an issue with the Administration, but that will bear about as much weight as a feather on a windy day. Mr. Bai-linger has refused to listen to the walls of the conservation extremists and is going ahead with his work, fully conscious of his duties and the responsibili-ties of his office."

Mr. Cuantagham said that the insurgent movement could be attributed in a large degree to classes who are not sat-latied to let well enough alone, and to those who desire to make things unpleasant for the Administration. He said of American creation, there were many the insurgents are aided and abetted in their efforts to create turmoil by the as Paul Poriet, Agnes, Paquin, Felix ame men who have attacked the policies

f Mr. Ballinger. Relative to the charges brought by the Government against the entrants of coal lands in Alaska, Mr. Cunningham was reticent, but implied that the matter would be settled satisfactorily to all con-

erned within a few months.
W. B. Moore, formerly of Walla Walla, who was one of the number who filed on the coal lands with Mr. Cunningham. was in consultation with Mr. Cunningham all day yesterday. Mr. Moore said that, in his opinion, the charges brought against the locators were instituted by persons who had a political ax to grind, and that the spirit of the land laws had no attempt to grab the best of the ment. Many elaborate furs were seen Alaska coal fields and tie them up in a they being mostly from Revillon Fre

BILLION FEET DAMAGED SUNNYSIDE HAS PASTOR

Much Timber Killed by Fire, However, Can Yet Be Utilized.

Preliminary estimates reaching the Forest Service in Portland yesterday are to the effect that 1,000,000,000 feet of merchantable timber was killed by forest fires in Washington and Ore-gon in August. In addition \$120,000 was spent in employing extra labor to combat conflagrations. The cost of sending the militia of Oregon into the field and the maintenance of the Reg-ular Army was additional. The state met the expense in the first instance and in the second it was assumed by

the War Department.

The Oregon troops were called into the field at the request of Mayor Simon and several private citizens.

Much of the fire-killed timber is still merchantable if it can be logged within

a few years. Pine trees are considered as good for lumber within three years of the fire. Fir trees can be utilized if removed within five years.

Flans were being made yesterday at
Porest Service headquarters to advertise all of the burned areas for sale

upon the construction of rallroads. W. T. Cox, chief of silviculture in the United States, arrived in Portland

yesterday merning and immediately yesieroay morning and immediately went to the vicinity of Mount Hebo on the Siuslaw forest. He has com-pleted an inspection of the burned dis-tricts in the vicinity of Wallace, Idaho, and will remain in Oregon until he has secured complete information of the damages sustained. damages sustained.

BURGLAR'S BAIL DOUBLED

Appearance Before Grand Jury Re-

he asked to go before the grand jury in his own behalf. Instead of winning exoneration, he found his ball in-creased and he was sent back to juli upon fallure to provide the larger sum. Griffin was brought back to this city by Detective Hellyer several weeks by Detective Hellyer several weeks agm Seattle, where he was arrested en trying to dispose of articles stolen here. He was held to the grand jury after a preliminary hearing in municipal court and his ball was fixed at \$1000. A brother sent this amount and Griffin received temporary liberty. Then, apparently, he thought to better his case by going before the inquisi-

As soon as he emerged from the juryroom, District Attorney Cameron demanded that ball be doubled, and Griffin was consigned to the County

POPULATION GROWS

Demand for Certain License Numbers Noted by City Treasurer.

Periland's deg population is growing, according to the records at the office of the City Treasurer. Since September 1, 158 Hosnacs have been secured for male

There was a time when deg license No. \$3 was shunned by everybody, but Coun- aminers.

cilman Watkins went to the rescue of that number and created for it a certain amount of popularity. For several years Mr. Watkins has regularly filed an application for license No. 13 long before the date of sale for the season opened. Through the papers it became known that Mr. Watkins looked upon No. 13 as a conveyor of good luck, and others recently have asked for the same number. This year, City Treasurer Werlein ex-This year, City Treasurer Werlein ex-plains, the demand for that number of

ieg license was surprisingly large.
"People have their queer notions about numbers and it seems." said Mr. Werlein, that many individuals, either from superstition or other cause, take a notion that only certain numbers will do for their dogs, and for these they make applications far in advance of September 1 which is the time the new season opens." How a small boy had saved his pen-ies for a long time to pay the license or his deg came to light a few days ago when George Wagnon, of 1638 East Tenth street, North, took to the City Treasurer's office a large package of small change in payment for his dog license. The boy presented for payment 155 pennies, two dimes, a 25-cent piece and a sliver dollar, all of which he had evidently saved for a

TRACTS MANY WOMEN.

stallation of New Departments Made Memorable.

To welcome the coming Autumn and to give the general public a glimpse of some of the new things in each of their departments, Tull & Gibbs gave a Fall opening yesterday afternoon be-

tween 2 and 6 o'clock. On the first-moor balcony was sta-tioned Waldemar Lind's orchestra, while M. Christensen and his orchestra played on the sixth floor. Both or-chestras pleased the visitors with wellhosen and capably-rendered numbers.

Decorated throughout with oak leaves, oak clusters, popples and vines, with here and there in evidence a jardiniere containing asters, ferns and other plants, the store presented an artistic appearance and was pleasing

Especially pretty was the wistaria tearoom, which is on the balcony. This cozy little lunchroom is especially attractive in itself, with its luxurious carpet, artistic hangings, large plate-glass mirrors and walls decorated in the wistaria pattern. Here the deso-rative scheme was the wistaria which, the white pillars and hung from the beams of the room. There were also in evidence many pots of ferns and

choice flowers. Much interest was shown by the women visitors in the many beautiful gowns which were shown on the first While most of the gowns were and Sarah L. Mayer. E. Deutsch, the American designer, was also represented, one of his gowns which was especially admired being a creation of blended black and gold velvet, tastily combined with hand-made lace.

The show windows of the store at-tracted attention. Among the pretty gowns displayed there was a handsome imported Periet creation of blue and gold brocade, over hand-made lace. Among the tailor-made suits, none of which was imported, one found the work of many American designers, such as L. Frederick, Max W. Schwarcz & Co., and Deutsch.

sense been violated. Hence, he twould be shown that there was

REV. W. H. FRY ARRIVES IN AD-VANCE OF ASSIGNMENT.

Bishop to Announce Formal Transfer Next Week at Hillsboro-To

Preach Next Sunday.

Rev. W. H. Fry, one of the foremost ministers of the Columbia River Con-ference, will reach Portland temorrow orning with his family, and will take up residence in the parsonage of Sun-nyside Methodist Episcopal Church. At the session of the Oregon Conference, to be held at Hillsboro next week, he will be asigned to the pastorate at Sunnyside by Bishop Smith, by whom

he has been transferred into this con-A rousing reception will be given to Mr. and Mrs. Pry and their children, a boy and a girl, by the membership of Sunnyside Church, and in the near fut-ure a formal welcome will be tendered them. They will live in the parsonage just vacated by Rev W. T. Euster and family, next to the church at East Thirty-fifth and East Yamhill streets. Rev. Mr. Euster and family are en route to Stillwater, Okla.

Rev. Mr. Fry succeeds to the pastor-

Rev. Mr. Fry succeeds to the pastorate at Sunnyside Church, at a critical time in its history, but those who know his record in the ministry declare that he is competent to fill the position. He has served various charges in the Co umbia River Conference for 12 years, neluding Jefferson-Street Church, Spo-

kane, Moscow and Coeur d'Alene, from which place he comes now. He has had wide experience in church-building enterprises, and it is acts Against George Griffin.

George Griffin, confessed burglar and prowier, did an unwise thing when largely because of this that Bishop Smith chose him to fill the difficult position left vacant by the transfer of Rev. Mr. Euster. Sunnyaide Church is about half completed, work having been suspended several months ago because of differences between the pastor and building committee. There is enough stone on the ground to finish the struc

"I have known Rev. Mr. Fry for ears," said Dr. D. L. Rader, editor of the Pacific Christian Advocate, "and I have no hesitancy in saying that he is most capable man. He has a brillian most capable man. He has a brill-ant wife and his children are inter-ested also in the work of the church. He has had wide experience in church-building, and if Bishop Smith has de-cided to send him to Sunnyside Church, it is another case of excellent judgment of the Bishop. If he is to be the matter there, I congratulate the

be the paster there, I congratulate the people of Sunnyside Church." Hev. Mr. Pry will occupy the pulpit at Sunnyside Church morning and evening next Sunday. He will attend the annual session of the Oregon Con-ference, of which he is now a member, and will then return to take up the responsibilities that are his in the new

Professor Turner Candidate.

GRANTS PASS, Or., Sept. 15.—(Special.)

Professor R. R. Turner, for six years superintendent of the city schools, has become a candidate upon the Democratic licket for State Superintendent of Public Instruction. He was formerly a member of the visiting board and at present is a member of the State Board of School Examiners.

TO RESUME

Multnomah Classes to Open Season September 19.

QUARTERS ARRANGED FOR

Exercises Under Professor Krohn to Be Held in Portland Academy and Mat and Ring Practice at the Club.

Although its clubhouse, grandstand and other buildings were the big Exposition building fire in July. the Multnemah Amateur Athletic Club will continue its gymnasium classes this year. The classes in gymnastics will be held in the Portland Academy gymnasium, Eleventh and Hall streets. Swimming classes for women will be held at the Young Women's Christian Association, while the men's classes will be held at the Y. M. C. A. The boxing and wrestling classes will be held in the temporary quarters of the club at Lownsdale and Yamhill streets. All the classes will begin on Monday, September 19. As heretofore, Profes-sor Robert Krohn, physical director of the Portland public schools, will be in charge of the gymnasium classes. Ed-die O'Connell, the crack welterweight wrestler, will teach both boxing and

For the purpose of holding the boxing and wrestling classes, the building in the rear of the present clubhouse has been fitted up with a wrestling and boxing pad. This is installed in a room will no doubt revive the boxing game at the club as he did wrestling when he made his debut here two years ago.

Through the kindness of Profess J. R. Wilson, principal of the Portland Academy, the Multnomah Club has not only been accorded the use of the gym nasium, but the lockers as well. There will be no charge made for lockers. Both the Young Women's Christian Association and the Young Men's Christian Association, when the Multnomah Club fire occurred, volunteered the use of their respective swimming tanks un-til such time as the winged "M" in-

stitution is rebuilt. The schedule of the classes for the ensuing year follows: Boxing and wrestling-Ed. J. O'Connell,

Boxing—Mondaya, Wednesdays and Fri-lays, 8 to 10 P. M.: Tuesdays and Thurs-lays, 4 to 5:30 P. M. Wrestling—Tuesday and Thursdays, 8 to 0 P. M.; Mendays and Fridays, 4 to 5:30

P. M.

Woman's swimming classes;
The women and girl juniors will be allowed the use of the Young Women's Christian Association tank.

Women—Mondays, 9:30 to 11:30 A. M.;

MANY COLONISTS COMING

the Brevoort.

Commercial Club Receives Numerous Inquiries From Landseekers.

Colonist rates on all the transcontinental lines went into effect yesterday and if the number of letters of inquiry received by the Portland Commercial Club is any criterion, Oregon will witness the greatest influx of colonists during this Fall of any year in

the history of the state. The nature of the would indicate that the colonists will be composed largely of farmers who have sold their lands in the East and Middle Western states and are coming to Oregon to embark in the fruit-grow-

ing industry.

The cheap lands of Oregon, com hined with the high price received for farm produce is the chief cause for the flood of immigration that is pouring into the Northwest.

In years past the majority of the colonists came direct to Portland and gradually scattered to the more re-mote parts of the state. Largely through the work of the Oregon Development League the colonists have been supplied with advance information in regard to the exact location for which they are bound, and in this man ner they are saved the expense of trip or a stopover in Portland. The colonist rate will remain in of fect until October 15.

Cooke to Run for Mayor. OREGON CITY, Or., Sept. 15 .- (Speannual election to be held early next December. Cooks was Sheriff of Clack amas County four years and is a business man of Oregon City. Dr. W. E. Carll, the incumbent in the Mayor's chair, will not be a candidate for a fourth term.

Although Aberdeen is the home of Scote granite, a shipment of 350 tons recently was exported to that city from South Carolina quarries to meet a demand for a variation in color from the native stons.

TALKS on TEETH

BY THE REX DENTAL CO. BE BETTER LOOKING

Ugly teeth will mar the most beautiful face. A winsome smile is one of woman's greatest charms. Bad teeth will make repulsive the most attractive face or the most winsome smile.

Everyone can have beautiful natural-looking teeth—teeth that will make attractive the plainest personality. Our ALVEOLAR METHOD OF DENTISTRY accomplishes this. It is not building up a row of false teeth upon a plate that is uncomfortable in the mouth, but it is the building into the jaw itself, with the ald of two or more natural teeth in each jaw, a new set of teeth as strong or stronger than the best natural ones, yet there is no boring or cutting or surgical operation in the whole process. It is practically painless.

Our ALVEOLAR METHOD OF DEN-

the best natural ones, yet linere is no boring or cutting or surgical operation in the whole process. It is practically painless.

Our ALVEOLAR METHOD OF DENTISTRY is the completed investigation of all that relates to scientific dentistry. When we began to practice by this method, years ago, people doubted our ability to replace missing teeth, to make firm loose ones, and sound, decayed ones. We use no plates or ordinary bridge work, but a method of our own which we control exclusively. Our assistants are experts in all branches of scientific dentistry.

In the construction of the teeth that we build into your jaw we follow as closely as possible the lines of the most perfect teeth, so that it is difficult to distinguish between the natural teeth and the teeth we put in place of the missing ones.

Our charge is no higher than that of any good dentist. The ALVEOLAR METHOD OF TREATMENT is far in advance of ordinary dentistry. If your teeth need attention they should have it at once. Delay is expensive and often dangerous. Every man, woman and child should have strong, beautiful natural - looking teeth. Our ALVEOLAR METHOD OF DENTISTRY makes it possible for everyone to have artractive teeth. Thousands of people from all parts of the country have been treated by us.

If you cannot call now for an examination, which is entirely free of any charge, send for our book on Alveolar Dentistry. A request will bring it.

Remember that we do high-class dentistry in all its branches. Also that the best is always the cheapest in dentistry.
