ON BOARD TAFT'S TRAIN, Albany Y., Sept. Ik.-President Taft today again pledged his moral support to Colonel Roosevelt in the latter's fight against the New York hogses. He favors direct primaries, but not abolition of conven-Two other important facts were brought

from Portland to Los Angeles, and out at the conference which the Presi-Portland will have shorter connection dent had with the ex-President at New Haven, Conn., today,

One is that Mr. Taft will run for Press dent in 1912, if his friends think he can be elected. The other is that there is not the same

cordiality between Mr. Taft and Colone Roosevelt as there was when they first met after the latter's return from Africa. The falm report of a deal between Mr Taft and the New York bosses and the possible rivalry for the nomination in 1912 cast their sindows on the meeting.

It was plain from all that transpired before and after the meeting that the Colonel and his close political advisors are not a little worried over the situation in New York State and came to the President for further evidence of his moral support.

Taft Pledges Roosevelt Aid.

This the President was glad to give. He declared his position in the New York State fight had been clear from the very He said he sympathized heartily with the fight against "bossism" being waged by the people of the state.

Mr. Taft reiterated the statements be made in his letter to Lloyd C. Griscom, chairman of the New York County Re nublic committee, at the time of the Sherman-Roosevelt controversy over the temporary chairmanship that he favored direct primaries for the nomination of SHOTGUN BRINGS OUT COIN Representatives and state legislators. The Bricklayer Adopts Effective Method President is not ready as yet to admit the advisability of doing away with con ventions for the nomination of state offi-

Mr. Taft understands that both Governor Hughes and Colonel Roosevelt are now practically in accord with his own pesition, although the Governor fought at first for direct primaries for all offices. The President and Colonel Roosevelt did not discuss the question of the Presidency in 1912. The President has not been advised as to what Mr. Roosevelt's attitude is toward that campaign. From sources close to the President it was said there was no occasion to discuss the subject. Mr. Taft's position is this:

Taft Willing to Run Again.

He is willing to run if nominated. If his friends think there is a good chance for him to be re-elected, Mr. Taft feels Mr. Taft's political friends say that, if the American people want him for a second term, not even Colonel Roosevelt can prevent his nomination. If the people do not appear to want him, Mr. Taft will be only too glad to submit to their de-

It can be stated of today's meeting at New Haven that, while it may have been successful in its "scenic effect" and of moral advantage to the Roosevelt leaders in New York State, it was absolutely barren of results as to any better understanding between the President and Colonel Roosevelt as to National issues or their personal relations. Something in the nature of a truce

seems to have been arranged regarding the New York State situation. After that is over, events will shape themselves, Colonel Roosevelt himself is said today to have let drop the hint that as to his side of the matter, "something would b doing" after the elections. Mr. Taft is letting 1912 look out for itself. He declares he has other matters of concern at the moment.

Convention Will Indorse Taft.

It came out at today's conference which, in addition to the President and Colonel Roosevelt, included Lloyd C. Griscom, Otto Bannard and Secretary Norton, that the Taft Administration is to be indorsed at Saratoga. No mention of Mr. Taft as a candidate in 1912 will be

"It is not the province of a state con vention to nominate any man for President two years ahead," said Mr. Bannard after the conference. "Connecticut did not do it, so why should New York?" In this connection it became known that today Mr. Taft deprecated the action of the Ohio Republicans in declaring for him in 1912. He did not think he should be made an issue. The Ohio leadets were anxious, however, that the Taft Administration and the Congressional record should be made a part of the state campaign and took this means of bring-
