Champion Hoppicker.

Hoppicking was resumed restorday in all the rain storm at the close of last week. Most of the large yards will complete their harvest by Wednesday and practically the utire crop will be gathered by Saturday. It safe to say the full crop of 100,000 bales sore will be secured.

There was additional inquiry in the mar-hat yesterday, more firms being supplied with Eastern orders. Quits a number of buyers are new in the country, but they find it impossible to interest growers. Of find it impossible to interest growers. I interest grower made of 11 and 134 cents, 1 int without avail. One grower was offered 14 cents for a choice lot, but would not seil. The price at which most growers have made up their mind to hold for is 15 cents.

up their mind to hold for is 15 cents.

The market has gained much strength from the firmness in England, though the caport demand has not yet shown itself. The sound position of the foreign market is shown by the following London cables received resterday:

To Klaber, Wolf & Netter-Market firm a unchanged prices. Picking about completed. Do not alter our estimate of 180,600 cwt. for English crop. Continent firm, prices un-

cidedly firm this week and better inquiry prevails. Prices higher; hest English, 135 shillings. East Kent crop 23 per cent short

According to a wire received by Klaber Wolf & Netter, picking is completed in New Nork State and the concensus of epinion is the crop will be 35,000 to 40,000 bales, prob-

ably nearer 33,000 bales. Picking is simost finished in California and the crop is the same as last year's, 70,-One hundred hales of New Sho ramento's sold at 12% cents.

The Eastern trade is becoming aware o The Eastern trade is becoming aware of the nine quality of the new Oregon hops. The New Tork Journal of Commerce says: All primary markets remain very quiet with little if any demand, but with growers showing no anxiety to sell, both sides therefore are still waiting further developments. Hesports from Oregon indicate that while the quantity is still uncertain, there is ittle doubt that the quality will be the best in many years, and this seems to be verified by samples of the new crop which are now arriving. The quality of the English crup, according to cable reports, will be regular.

year is a one-armed man, according to the Salem Statesman, which says:

To pick teh boxes of hops in a day is a feat rarely accomplished by experienced hoppickers, and those with two hands at that, but to establish this record with but a single hand seems almost incredible; but the following sworn statement dispersed any doubts one might have as to the reliability of the claim made by Frank Durys.

Burya is one of a party of ten Austrians who have been employed in the paper mill at Oregon City, and who came here recently to pick hops. He had never picked hops before and his record of ten bexes would have been remarkable, even if he had been in no way "handlcapped." The sworn statement follows:

"I hareby certify that I am foreman at alderbrook farm and that on the 14th day of September, 1919, Frank Burya picked ten boxes of hops at West Lake farm, between the hours of 6 o'clock A. M. and 5:30 P. M. of said day; that I personally measured said hops, and that they were clean and well-pleked hops. The said Frank Burya has his left hand taken off about four inches above the wrist.

Foreign crop conditions are summarized by
the Liverpool Corn Trade News as follows:
United Kingdom—The harvesting of wheat
has made good advancement. The condition
shows some improvement with the result of
the better weather which has prevailed intterly. Threshing results are irregular.
France—The wheat and potato crops show
no improvement. The cats crop is worse.
Germany—The crop conditions are generally
sulfsfactory. Supplies of native wheat are
large. In the east there have been heavy of floods
and the outhook for both the potato crop and
fruit is poor.
Austric-Humsary—The outlook for the corn
crop is favorable.

Austria-Humary—The outlook for the corn crop is favorable. Russia—Indications regarding the yield of wheat are unchanged, Supplies are large and stocks increasing. The seeding of the new crop is being carried out under favorable weather conditions.

Australia—There have been beneficial rains and crop conditions are favorable. India—The new crop is being seeled under favorable weather conditions.

SEATTLE. Wish., Sept. 15.—(Special.)—
Bluestem wheat dropped to 50 cents here today. Other varieties were not reduced. With millers out of the market, the demand for bluestem has come to a complete standatill. Local exporters are picking up considerable cish and Me for shipment on a resset which is now loading on the Sound. Only sold at \$25. Barley was somewhat firmer at \$21 to \$21.50.

Fresh local ranch eggs sold this morning at 42 cents, the highest price of the season. Poultry was in fair supply but steady. Butter was moderately firm.

Fancy graded potatoes were quoted slightly higher in some quarters. A price of \$1.50 far such stock was quoted. The prevailing prices, however, were \$1.25 to \$1.50.

Good green pears were scarce and quoted at \$1.25.

Apples are arriving in better condition, and more interest is shown in the market. Peaches were steady. Some clean-up sales were made as low as 25 cents.

Five thousand baxes, of apples are to be shipped to Australia by a Seattle firm this week. This will be the first export shipment of the season.

Prices Paid for Produce in the Bay City MARKET NOT AFFECTED BY PRESENT DEVELOPMENT.

> Speculation Depends on Outcome of Affairs in the More Distant Future.

NEW YORK, Sept. 18.—The stock market today showed nothing so clearly as the insistent determination of the speculation to mark time and to await events. The net changes at the end of the day proved inconsequential.

Immediate events had little effect on the market, in view of the importance attached to the outcome of affairs in the more distant future, especially the elections and the Supreme Court decisions on the trust cases. There was a drop of 2 points in the shares of the American Sugar Refining Company, which was ascribed to the new suit intended for its dissolution.

The reopening of the railroad rate hearing at Chicago is looked upon as starting an important stage in that proceeding, which may define more clearly the scope of the task confronting the Interstate Commerce Commission in shaping a method for fixing freight charges. It is expected that a weight will remain on speculative activity in railroad senurities until more light is obtained of the rate inquiry.

France Expected to Lower Import Tax on Wheat.

OWING TO SHORT CROP

Chicago Market Is Strong Most of the Day on Covering of Short Sales by a Leading Southwestern Operator.

CHICAGO, Sept. 12.—Covering of short sies, especially those of a Southwestorn perator, gave the wheat market its direc-ion to a large extent. Some of the inoperator, gave the wheat market its direction to a large extent. Some of the incentives were a decrease in primary receipts, the smallness of the visible supply increase, and a reduced crop in France. World shipments, too, showed a big failing off. Disappointing yields in Hungary were noted and it was said that a lowering of the French import duty would not be unexpected. What wavering there was in the market occurred chiefly in the first hour or near the end of the day. December fluctuated between 99% 299% c and \$1.00% a net loss of \$2 %c.

Summer temperatures in the corn belt and free selling of both new and old corn to arrive made a weak market for corn; December ranged from 52%c to 13%c, closing steady at 53\$55%c a net loss of \$4 %c.

The cash market was easy. No. 2 yellow closed at \$4 % 25c.

Outs were down with other grains early, but railled. September was relatively weaker than the distant months. December sold from 35% 255%c to 35% 25%c and closed unchanged at 35%c.

Support from packers was necessary to brace up provisions. Latest quotations showed pork 7%c off to 2%c up, lard unchanged to 12%c higher, and ribs ranging from Saturday night's figures to a rise of 15 cents.

The leading fatures ranged as follows:
