Exporters Are Once More in the Market.

CARGOES ARE IN DEMAND

Club and Forty-Fold Are Firmer. California Wants Wheat but Hesitates to Pay the

winted wheat buying by exporters and a fair movement is again under way. Selling is not free in the country#however, and the transactions are mostly small in size, though the agmarkets have shown an improved tone in the last few days which can be traced to the falling off in shipments, but them is no curainty yet that the movement has been permanently chacked, and until this fact is firmly established the market may not become

CASABAS ARE NOW IN THE MARKET. First and Probably Only Shipment of the

Season. Brst casabas of the season, half a put on sale at \$2.50 per dozen. It is not likely that any more will be brought up, as the California crop is a very short one, The fruit market altogether was slow, partly because of the cool weather and-also because of the lightness of stocks. Tokay grapes were about the firmest fepture of the market, selling at \$1.15@1.25 in boxes and \$1.35-91.40 in lugs. Salway saches moved at 50 g 75 cents. Apples and

pears were steady.

There was no change in the ogg market yesterday: 35 cents still being the top on candled ranch stock, which was in very limited supply.

The poultry market was firm and cleaned up well at unchanged prices.

There was up active demand for fresh reamery butter and the market was quoted

Wheat Market on a Shipping Basis. Oats and Barley Firmer

SEATTILE. Sept. \$20.—(Special.)—That the wheat market is how on an export basis and that Northwesern dealers are now in a position to do business in earnest is the opinion of the exporting firms here. The flour business has picked up slightly since the export prices were cut last week. Eliuestem self pair to cents and club and fife at \$3 cents today. Outs and barley were firmer, but no higher.

Too Much Rainfall in Some Sections, Not Enough in Others.

WASHINGTON. Sept. 20.—Pavorable weather for corn, pienty of sunshine, but not enough rain, for cotion, too edd in Pacific Coast States for fruit, and generally not enough rain in the great plains was the report for the week over the crop-growing area. The report says:

"In the Bocky Mountain and Plateau states good rains occurred in many localities, greatly relieving the protracted drouth conditions that have prevailed, especially from Utah northwestward over Idaho, Nevada, Oregon and Washington.

"In Northern California the week was generally too cool and some damage resulted to the fruit interest on account of unusually heavy rains, especially in portions of the San Juaquin Valley.

"Precipitation was above the normal generally over the Plateau and Westle States.

"Precipitation was above the normal generally over the Plateau and Pacific States and in small areas of Texas, lown, Illinois and Indiana and locally at a few other points, but over the greater part of the region from the Bocky Mountains eastward there was a nearly universal deficiency.

"The rainfall for the season, March 1 to date, is still deficient over much of the country."

SHORT LINE STOCK.

Announcement Surprises Wall Street, Which Is at a Loss to Account for It.

NEW YORK, Sept. 10.-The narrow limit tations of the present stock market were marked again today by the way in which price movements exhausted themselves be-fore going far in either direction. The wholly professional participation in the trading serves to explain this re-siricted movement. The settlement of larger questions is awaited by the larger financial interests before attempting any important transactions in stocks. Buying for London account was a factor in the strength shown at the outset bere. The higher prices brought realizing sales and reaction set in. The decline be-gan about the time the finance committee of the United States Steel Corporation was

eral list.

The proposed large increase in Oregon Short Line stock came as a surprise, and market sentiment was rather at a loss to laterpret its significance or its effect on tinion Pacific as the owner of the existing stock and the proposed taker of additional stock when it shall be lasued.

There was a decline in the private discount rate in London and foreign exchange

eported in the supply of cotton bills of-tring in the exchange market and the de-tand for remittance is light. Bonds were Bregular. Total sales, par value, \$2,156,000. United States bonds were unchanged on call.
