plifty on part of this land. An Eastern man who has large timber holdings in the Northwest, for part of which he paid \$2,000, 10 cash not long ago, Mr. Eirod says has made inquiry regarding the feasibility of establishing a mill here. Nothing has been definitely settled in black and white, however,

Seattle Plants May Move.

It is also said that one or possibly two manufacturing enterprises now lo-cated in Seattle have been considering removing their plants to Portland, and have been making inquiry regarding land in this new district. The fact that there is both land and water transportation here appeals strongly to manufacturers. The line the O. R. & N. Comapny is building around the Peninsula runs a short distance south of the property incolved in this purchase

This is a comparatively small part of the inquiry that has been made recently for land on the Peninsula. everal of the most prominent real estate dealers in Portland have been more or less puzzled by a mysterious stranger who has asked them to get options for him on certain hand lying east of that contained in the purchase negotiated by Mr. Elrod. To none of these would the stranger reveal his name. Just now he is out of the city, but before going he announced the dale of his return as either the last of this week or the first of next. Many options have been taken, and are await-

ing his pleasure. It is known that the Schwartzschild & Sulzberger Packing Company is desirous of establishing a plant in Portland, and the guess is that the land taken under option by the mysterious one is for the site of the packing plant. Mr. Sulzberger is expected in Portland within a few days, and those with whom he has been in correspondence say that he is coming with the intention of selecting the site for the "S & S." plant. One of the properties that has been offered to this firm is the tract of 2809 acres known as the "Sundial Ranch" at Troutdale. This is held by the Union Meat Company.

Sites Well Situated.

This land cannot help but develop into a great shipping, terminal and manufacturing center," said Mr. Elrod about the land he has just bought. "It lies within the five-mile circle of which the Burnside bridge is the center, and by actual measurement along the main lines of traffic to and from the city it is two miles nearer the business center than is St. Johns.

When the Panama Canal is opened, so that manufacturers can bring their raw material to the Coast cheaply, all manufacturing industries will feel the immediate effect and Portland natur ally will receive an immense impetus along this line of development. We do not have to wait for that time, though for the advantages of this district are already seen, and the location of fac-tories on the Peninsula is going on at an astounding rate."

There are other deals pending in this action of the city, as well as those mentioned.

It is said that an Eastern manufac turing concern has paid \$50,000 earnest money on a large tract on the Penin sula and that this deal will be within a few days. This land, it i said, is held by the Union Meat Com pany, but particulars are withheld un-til the deal is closed.

Baptists Dedicate New Church.

CHEHALIS, Wash., Sept. 23 .- Dedication of the new Baptist Church in Chehalis Sunday, September 18, marks an epoch in the history of that denomination in this city. The erection of the church and parsonage are due to the untiring energy of the pastor. Rev. E. E. Duly, assisted by the members of his congregation. The building and home for the pastor represent an investment of approximately \$10,000. The auditorium has a gallery on three sides, beneath which are classroom

for Sunday School work, which may also be used for prayer services. Beau-tiful stained glass windows add to the adornment of the church.
