# HESTER HINTS AT **CENSUS RECOUNT**

Finding Many Duplications or Omissions Will Mean New Enumeration.

#### SQUARE DEAL IS WANTED

Special Representative Says Report Can Hardly Be Made Before November 1 Under Any Circumstances.

Urban H. Hester, special representative of the Census Bureau, sent to Portland to verify reports of census enumerators last Spring, began his work yesterday by summoning inspectors who had super-vision of districts in the city. At the end of the day's work, Mr. Hester announced that he will do well if he gets through with his investigation by No-

All of the data gathered by enumerators in Portland have been shipped from Washington back to this city for investigation by Mr. Hester, not that the Census Bureau doubts the truth of the reports, but that the phenomenal growth of Portland, as well as other cities on the Pacific Coast, is so astounding that Federal officials desire verification to in-sure no mistake before publishing the

reports.
"Common sense will be used in this investigation," said Mr. Hester. "If there are one or two duplications in the enumeration or, if one or two are omitted, no re-enumeration will be taken. Should It be learned that fraud has been practiced, that the census has been padded, or that sections of the city have not been enumerated, another enumeration will probably be made. There are several matters connected with the census that the bureau wants investigated and the data verified.

the data verified.

"It is simply a square deal to all cities on the Pacific Coast and elsewhere. No substantial business man wants the census of his city padded, for it would act as a boomerang the next time, when extreme care would be taken and the city would not show a creditable increase in population. Neither do the substantial business men want their city underrated. They want facts and facts are what the bureau want. Wherever I have investibureau want. Wherever I have investi-gated census reports my work has been satisfactory to the substantial business men, and I believe my work here will be

### G. C. FLANDERS RETIRES

Local Special Agent to Have Pension From Standard Oil.

George C. Flanders, for 27 years and six months in the service of the Stand-ard Oil Company, has tendered his res-ignation as special agent, to become effective October 1. He will retire on effective October 1. He will retire on a pension, granted employes who have been in the service for 25 years. He will be succeeded by J. H. McDermott, who has been stationed at Sacramento, Cal. The former California man will assume his new duties next Saturday. Mr. Flanders entered the employ of the corporation April 1, 1883. One year later he was assigned to the Portland district and has since remained, all the while assisting in the development of Portland and the Northwest. The title of special agent in Standard Oil parlance is equivalent to manager. When the retiring manager assumed his du-ties in Portland, in 1883, his office had charge of the Oregon, Washington and Idaho territory. Now, however, there are offices in Tacoma, Spokane and Seattle and one or two other cities in the Northwest. Mr. Flanders has been a Portland Heights resident for about 20 years. He will continue to make

AMENDMENT IS PROPOSED

People Will Also Be Asked by Council to Vote on Municipal Dock Bonds-Salary Rise Contemplated--Auditorium to Wait.

Amendments to the city charter. On account of Mr. O'Connor's pressing engagements and the limited time he will the laying of water wains he done at the expense of the Water Department, and also provide funds for the establishment of municipal docks, as well ishment of municipal docks, as well which will, if adopted, require that lishment of municipal docks, as well as give the Council the right to raise the salaries of the City Attorney and the City Engineer, were authorized by the Council yesterday morning to be voted upon at a special election to be held November 8, the same day as the

general state and county election. It had been originally planned also to have the people vote at the same time on a charter amendment which would permit the Council to sell bonds for the construction of a public auditorium, but the amendment was not worded to the satisfaction of a num-ber of the Councilmen, and it was

Until a few years ago, the Water Department paid for the laying of mains from the money received for water sold, but a contention arose to the effect that this method was not just to the translant persons or renters, who the transient persons, or renters, wh paid for water and did not own the property. Although it was pointed out in answer to this contention that the renter would generally be required to meet the expense in any case by the adjustment of rents, even if the expense of the mains were assessed to the property owners, the law was changed so as to make the property

pay for the work.

Since the adoption of this system much litigation has resulted, and tying np of contracts by court proceedings have followed. The demand for the return to the old system of paying for the mains has been recommended by various civic bodies, and the proposed law, which will go before the people in November will provide that bonds may

be sold to meet the expense of laying mains when the water department is not in position to meet such demands. Another important amendment which the Council has authorized to come at the special election is the sale of bonds for the construction of municipal for the construction of municipal docks. The amendment authorizes the sale of \$2.500,000 worth of honds for that purpose, and also provides for the creation of a commission to direct the affairs of the docks.

The refusal of the Council to authorize the vote at the coming election on

ize the vote at the coming election or the proposed sale of bonds for a public auditerium was not due to hostility for such a measure, but simply to permit the amendment to be remodeled in a way to put a limitation on the amount of money to be used for the improve-ment, and to provide a fund for paying for it. The amend ent submitted to the Council was indersed by the Commercial Club, but Councilman Cellars pointed out that it would be impossi-ble for the expense to be met by the general fund of the city, and this re-suited in the amendment finally being

It was intimated at the Council meeting yesterday that the amendment for the establishment of the proposed audi-

torium would be submitted to the peo-ple next June.

In the discussion concerning the proposed auditorium, it was suggested that the old market block, owned by the city, and bounded by Third, Market, Second and Clay streets, could be used

PATROLMAN DISCOVERS MAN INFECTED ON STREETS.

Eugene Kraeger Sent to Pesthouse. Health Officer Has Little Fear of Epidemic.

Roaming the streets with what is be leved to be a highly developed case of smallpox, Eugene Kraeger, of 14 Union avenue, North, was picked up at Union avenue and East Burnside street yester day afternoon by Policeman Bales. Following instructions given to the police by Chief Cox, at the request of City Health Officer Wheeler, Bales was keeping a sharp lookout for persons with eruptions on their faces, when he observed Kraeger, whose face was highly inflamed.

Upon closer inspection Bales found that all parts of the man's body were covered with a malignant eruption. Kraeger said that he had consulted Dr. J. M. Batcheller, 387½ East Burnside street, who pronounced the disease chickenpox. Bales says in his report that he took the man to City Health Officer Wheeler, who pronounced the disease smallpox and ordered Kraeger sent to the pest-

house.

"There is more smallpox in the city than there should be," said Assistant City Physician Dammasch yesterday evening, "but not enough to cause alarm, if the victims and their associates will regard the law and use reasonable prudence. This is the time of the year chan epidemics thrive, and extra vigilwhen epidemics thrive, and extra vigil-ance should be used against them. I do not believe that there are many concealed cases of the disease. Vaccination, sanitation, prompt report of cases and proper regard for quarantine are all that essary to check any incipient

### WILLEY GETS LONG'S JOB

Despite Protest of Former Incumbent, Justice Olson Appoints.

George L. Willey was appointed yesterday by Justice Olson to succeed Paul M. Long as deputy clerk of the Justice Court, following the dismissal of Long for reasons which he alleges were politi-cal, but which Justice Olson says were for the good of the service.

Willey was appointed in spite of the announcement of Long that he will go before the County Court and protest the filling of the vacancy on the ground that three men are enough to do all the work of the office. Olson declares that four men are needed and will defend the action in case it is called into question by the County Court.

The new appointee is a clerk in the cigar store of Sig Sichel. He is a law student and desired the appointment in order that he might pursue his studies in favorable surroundings.

INQUEST WILL BE HELD

Secrecy Around Claremont Tragedy Makes Coroner Suspicious.

Unwillingness to testify on the part of those who were with Charles H. Lawson when he met his death at Claremont Tavern Tuesday night, has caused the Coroner to make a thorough investigation of the death and an inquest will be held

this afternoon.

It is not believed that any indications of foul play will be brought out, and the supposition is that those in the party are secretive because they do not wish it known that they were on the trip.
