

HOPS MISSING NOW Large Sales in Oregon and Washington.

M'NEFF BUYS IN YAKIMA Six Hundred Bales in This State Taken for Export Account—Foreign Markets Are Firmer.

English Imports. Oregon and Washington hops are beginning to move in a liberal way. Sales of about 1000 bales Oregon were reported yesterday and half as many Washingtons changed hands.

What prices are being paid for hops cannot be definitely learned, but there is a range in the quotations that does not seem to be justified by the even quality of the Oregon product.

It is stated positively by some dealers and denied as possibly by others that it is known however that a 600-bale lot of Oregon was sold yesterday for an average of 1 1/2 cents, and it was declared emphatically that the lot is going abroad.

General Weidner is reported to have bought 200 bales on the west side at the same price. Another lot of 200 bales from the same grower was sold to a party in Chicago at 1 1/2 cents.

M'Neff Brok opened the Yakima market in earnest yesterday by buying 575 bales from Chang & Klein, of Astoria, one of the largest and best lots in that section.

Klaber, Wolf & Nutter received the following orders from the London office: 1000 choice English hops, market firm; 1000 lower grade English hops, market dull; 1000 Nuremberg hops, market closed steady.

Imports of hops into Great Britain, less exports, for the year ended August 31, 1910, were 193,222 cwt., as against 144,217 cwt. for the preceding year, and 237,214 cwt. two years ago.

GRAIN MARKET SHOWS LITTLE LIFE Neither Buyers Nor Sellers Are Disposed to Operate.

There has been no snap in the wheat market for several days. The undercurrent of the market is weak and trading is on a small scale.

PREPARE FOR SETTLEMENT Stiffening of Rates Has Refreshing Influence on Stock Speculation.

Check to Movement in Reading. NEW YORK, Sept. 28.—The world's money markets responded again today to the strain of preparations for the coming October settlement.

It is evident that the interior demand for crop moving purposes is not yet filled. Today \$200,000,000 was withdrawn from the Treasury for shipment to Canada.

The details of the National bank returns to the Controller for September 1 make it evident that requirements for crop moving must be met by the central reserve banks.

The restraint on the speculation exercised by the Federal Reserve Bank is emphasized by the check to the movement in Reading.

There was practically nothing doing at the stockyards yesterday. No receipts of livestock were reported.

BUY TOO LIBERALLY Shorts Send Wheat Prices Up at Chicago.

THOUGH NEWS IS BEARISH Foreign Markets Affected by Offers From Russia and Argentina at Lower Figures—Primary Supplies Growing.

CHICAGO, Sept. 28.—Short sellers of wheat overreached themselves today. Offers were declined because foreign conditions in particular.

Wheat closed on a rally and at the start the best prices of the day. On the most of traders, large profits from Russia and Argentina at lower prices affected European markets bearishly and incidentally increased Chicago's export sentiment.
