Great Northern and Union Pacific Spend Large Sums to Bring Wonders of Oregon Before Residents of East.

With "back to the farm!" as their elogan in directing people of the Eastern states to come to Oregon to live, the Great Northern Rallway Company and the Union Pacific Railroad Company have started advertising campaigns believed to be without parallel in cost and scope of the undertakings.

Fifteen hundred publications in the Cen-tral states and Middle West contain, every week, advertising matter in regard to the investment opportunities and home-making attractions to be found in Oregon. These advertisements appear in weekly and tri-weekly periodicals and cover nearly all the farming sections east

of the Rocky Mountains. In a letter received by C. C. Chapman. manager of the publicity department of the Portland Commercial Club. S. J. Ellison, general passenger agent of the Great Northern Railway Company, at St. Paul, states that nothing is being spared by his company to bring Oregon to the attention of the East, and predicts for the coming 12 months the largest colonization travel in the history of the

"In addition to our campaign of publicity in the Eastern field, designed to attract newcomers to Oregon, we will endeavor to create an attitude of loyalty and co-operation on the part of the present inhabitants with a view to securing their aid in attracting a population to the new country and making the most of the possibilities of development. With the new country and making the most of the possibilities of development. With this end in view, we have presented silver loving cups as prizes at the Lane County Fair at Eugene, and will present two cups at the Harney County fair to be held at Burns, October 4 to 3. We also plan to present similar trophies at the Crock County fair.

"We feel that the interests of the people of Oregon and the railroad are one of Oregon and the railroad are one

Manager Chapman said yesterday that all assistance possible was being given the railroad companies in premoting the exploitation of the resources and opportunities of Oregon. As a result of this co-operation, Mr. Chapman says that many inquiries are coming in daily from prospective settlers, and he is of the opinion that the hegira from the East to Oregon has just been started.
