Republican Nominee for Governor Says Bourne Was Urging Harmony When Seeking Votes

To Jonathon Bourne, Jr.: In the Port land evening papers of September 30 there appeared an interview, credited to you, which you indulged in a great many neralities and meaningless platitudes. In this phraseology you presu ne to issue a command to the people of Oregon to ction nominated by the recent pri-

Since your election to the United States Senate you have not taken sufficient interest in the State of Oregon to spend any considerable amount of your time here. You have devoted your time and such enterprise and energy as you poses to pastimes and associations more agreeable to you while you were able find in other parts of this and foreign untries. You have visited this state but twice during the last four years, and then devoted very little time to ascerining the wishes of the people of Oren, or their needs or requirements; but you have devoted your time to issuing mandates to the people of this state diecting them how they should vote. You faim to be the friend of the people of I presume you imagine that by epeatedly telling the people you are their friend, someone will believe you. Fortunately, however, some of your sins of commission and omission are matters of public record, which you are obliged to face and cannot avoid, excuse or deny.

Bourne Works With Aldrich.

It is a matter of public record that at the special session of Congress 1900 to a burningue, by courtesy term speech, delivered by you, when the ferred to that other "friend" of the peo pie, Senator Aldrich, as an authority upon tariff legislation. It is a well-known fact that during your term in the Senate you have labored in complete harmony with ator Aldrich. In this so-called speech stated that you knew nothing of the tariff, but that your particular friend, famillar and boon companion, Senator Aldrich, was a master of rates and that you would be centent to abide by his de-

You voted against Senator Bristow's proposed amendment, which would have taken the "joker" out of the sugar schedule. By this vote \$60,960, oco a year is wrung from the people of this country and given to the sugar trust. You further outraged the people of Oregon and of this country on this occasion by assisting in placing duty of 15 per cent ad valorem ore. Of course you knew the steal trust owned the iron ore in the United States and that by your vote you were taking this money from the people of this country and from your own constituents and giving it to the many millionaires who control this, the greatest trust in the world. No doubt you expect the householder, when he purchases a cook stove and pays this unnecessary tribute to your colleagues, to be Blinded to your neglect of duty by the platitudes you indulge in concerning myself and the other candidates who are not favored with your support, or with the acquaintsnoes and associations of your millionsire ohums and friends who are the eneficiaries of your misrepresentation of this state in the Senate.

Duty on Woolens; Silk Free.

You voted to admit to this country raw silk free and to place a duty of 53 per cent upon the manufactured article. At the same time you voted to place duty of 125 per cent (average) on weeten and worsted cloth, valued at not more than 40 cents per pound. Was this aut on your part induced by your friendship for the people? Was it in the interest of the common people? Did you vote to miles from Johannesburg. Natives place this exarbitant duty upon goods used by "us, of the common people"; for the benefit of anyone except your cupon-clipping chums and associates?

Your chief legitimate income is said to be from a large cetton print mill, owned by yourself and relatives, in New England. You voted to place a duty of 12% cents a square yard (see paragraph 318, schedule I) on the class of goods manufactured by your mill. When the mechanic, farmer or other citizen is compelled to purchase this class of goods and pay tribute to you your plutocratic intimates and associates, on account of the official position given to you by the people of suddenly upon a mother bear and two Oregon, they can calm their outraged cubs. His first shot failed to kill the feelings by the happy thought that you secured this position and opportunity to plunder them and hope to continue in your present office by the use of (Concluded on Page 5.)

Members of Party Speak Only Few Words of English and They Stick Close to Each Other, Frightened if They Are Separated.

SAN FRANCISCO, Oct. 3 .- (Special.) Hadil Jumabul Kiram, Sultan of Sulu and representative of Mahomed in an archibelago that includes nearly 200 islands and 85,000 fierce little followers of the prophet, arrived in San Francisco on the Overland Limited yesterday afternoon on the last stage of a journey

of education round the world. With him are his brother, Dato Raja (Prince) Muda Mulalii Wasit, the high priest of Sulu, Hadji Mohamed, Lord Chief Justice Hadji Tahir; Hadji Culam s son of Prime Minister Hadii Butu; Sallp Maydno, a cousin of the Sultan and C. J. Werble, Interpreter, secretary and traveling manager for the party Sultan Man of Few Words.

The Sultan is not a man of many words. He speaks seldom, yet when he entered the automobile which was

waiting for him at the ferry and looked around at the tall buildings that line Market street, he talked excitedly for a full minute to Werble. The latter saying: "He is unable to believe that this city was burned to the ground only

our years ago. There were 15 members of the party

originally but many of these have stopped off at different places and will return to the Philippines later. The entire party which arrived yesterday will leave for Manila on the transport Sherman temerrow.

In addition to this he has a good income from estates which he owns and a large farm where cattle and general produce are raised.

### Party Clings Together.

None of the members of the party peak more than a few words of English, and, while traveling, they keep together like a flock of sheep, each one ecoming frightened on being separated from the rest. They are all small men, and the Sultan is almost diminutive. He is scarcely five feet in height and does not weigh an ounce
