RATE ESTABLISHED

Charter for Taking Wheat to United Kingdom on Basis of 30 Shillings.

MARKET IS BEING WATCHED

Not Since Organization of chippers Seven Years Ago Has Such Rate Been Paid Sailing Vessels in European Trades

When Hind, Rolph & Co. yesterday rechartered the German bark Selene to a local firm to transport wheat to the United Kingdom there was established a new record for 155-11 freights, as the rate wes 30 shillings. Exporters asserted hat wesk that I'm Rd, which was paid for the British ship Inversion, on the way from Newcasile, was a mark that would probably not be exceeded, judging from the wheat market, but the engagement

the wheat market, but the engagement of the Seleme is on the same basis as steam tourage has been offering.

Not since the organization of a combination among the shipowners about seven years ago, when over 79 per cent of these controlling tourage under the French, German, British and other European flags decided that freights were too low, has such a rate-plean paid for sailing vessels. The rate from San Francisco loss been 28 M, under the union schedule, and from Portland and Puget Sound it was 21s 54, to the United Kingdom. On direct charters the market has been stiff, but on rechartering there has naturally been an increase in most instances.

been en increase in most instances.

Lattie buying is reported this week and it is anticipated that with the increase in rates the value of grain will be crowded down. In one or two instances exporters have advised their representatives abroad that they are not in the market for tominage at prevailing rates, as they propose to watch the wheat farket for a time. There is a fair supply of tonnage under engagement at this port, but little surplus is reported, because available ships for early loading have been snapped up early at the usual rates and only a few have been caught so that they had to pay a greater margin.

One carrier has been added to the en route list the French bark Le Piller, which salled from Heres June I and from Hobart Angust 26. She is of 255 tons net register. The French bark Aim and de Cornulier is also reported on the way here, but she is under charter to Balfour, Guthrie & Co. and has been ordered.

When the buying is reported of the increase in most list in the increase in most list week and it is anticipated. Commander Ellicott said years list of the mander Ellicott said years of the Heather, as she has not been out of water for a year. If that is granted, she will be cleaned and painted and a closer inspection then allowed of her bottom. Commander Ellicott says that she suffered no apparent harm.

Hobari August 26. She is of 335 tons net register. The French bark Amagai de Cornuller is also reported on the way here, but she is under charter to Bal-four, Guthrie & Co. and has been ordered to Puget Sound.

COLUMBIA'S BED SAVES CASH

Season's Accidents to Steamers Cause but Slight Damage.

Mariners are contrasting recent accidents in the Williamstle and Columbia rivers with those reported to Puget Sound steamers, holding to the contention of t tion that while the northern cities have criticised the channel to the sea as responsible for the trouble, none of the
stramers grounding in this district during the present season has been laid upfor extensive repairs. In the case of the
British tramp Riverdale, which fouled
an fild pier foundation in the Hawthorneavenue bridge draw, she sustained virtually no damage and proceeded to the
Orient without repairs. The steamer
Roanoke backed into a bank on the Columbia and damaged her rudder, but the
work and delay cost less than 1900.

The big coaster Bear struck a submerged object Friday off Linnton, and
requires no repairs, and the grounding of
the lighthouse tender Heather, on Warcriticised the channel to the sea as re

the lighthouse tender Heather, on War-rior Rock, will necessitate but slight re-pairs. The steamer Watson, which struck a reef September L on the northeast side of Wanddah island, bound from Puget Bound to San Francisco, will cost \$22,862 Sound to San Francisco, will cost \$12.82 again to place in service. It was reported yesterday that extensive repairs would probably follow on the steamer Kulshan, which went ashore Saturday, at the cast end of Deception Pass, while an route from Seattle to Bellingham. There were other expensive accidents in the north, but the soft bed of the Columbia, while sometimes causing delays, has seldom been responsible for serious farmare.

GRAINHANDLERS GET INCREASE

Workers on Puget Sound Paid 35 Cents an Hour on Petition.

Portland's position as a wheat-export-ng center as compared with Puget Sound, so far as the differential caused wages paid grainhandlers is concerned has been again changed so that there is but 5 cents as a margin, as the scale in the North has been advanced from 30 to 35 cents. No overtime is paid at Tacuma, but, it is seldom necessary here. When local exporters discussed the dewhen local exporters discussed the di-mand of the grainhandlers for an in-crease from 35 to 40 cents, it was argued that the difference of 10 cents as com-pared with the North would result in wheat ships being sent there for cargo. But recently the grainhandlers on Puget Sound, who are not unionized, presented a petition for an advance of 5 cents and it was allowed by Balfour, Guthrie & Company and by Kerr, Gifford & Com-

The Puget Sound Warehouse Company has not signed a contract, but it is said that firm is not a heavy exporter and is expected to meet the raise when it begins working vessels. There are ru-mors of an effort being made to union-tize the grainhandlers there, but no or-ganization has been formed.

LINER IBSEN TO BEGIN CARGO

Prench Bark Finishes Wheat and Uganda Arrives for Grain.

We begin taking aboard wheat for the Orient, the Harriman liner Henrik Ibsen will shift teday from Albers' dock to the in all and her berth at Oceanic will be eccupied in a few days by the British steamer Uganda, which arrived up last hight from Bremerton, and was berthed at the Eastern & Western mill to load

The French bark General de Boisdef-fre, the accord of the new crop fleet, finished yesterday afternoon at Colum-bia Ne. 2 having aboard 2700 tone of wheat for Europe. She began loading in wheat for Europe. She began loading in advance of the Andromeda, which yes-terday reached astoria, but was compelled to abift to three docks. Some ves-tels were delayed yesterday owing to rainy weather, but the British steamer Scottish Monarch will probably got away this week. Square riggers now in port will be dispatched this month with the exception of tonnage taken for lum

No Contract Out for Fast Steamer.

Scattle after a conference with afficials of the Puget Sound Navigation Company, converning proposals submitted by his firm and the Moran Company for the construction of a fast steamer of the H. H. Kennedy's type for the Scattle-Tacoma route, says that the matter has not been decided. He says that his company stands ready to bid for the work if the privilege is given of designing the craft, as that is the only manner in which a speed guarantee can be given. On a trial September 3 the Kennedy developed alightly under 18 knots. She was constructed by the Willamette Iron & Steel Works.

Harbor Movements on Decline.

That low water conditions have interfered with steamboating on the Willamette is apparent from the September report of the Merrison-street bridge operators, which shows that but 95 vessels stended for the draw during the mouth, against 125 for the same period in 198. In August the total was 1255 but during the last month the river stage lowered until it attained an unprecedented mark. Muddy surface water was yesterday reuntil it attained an unprecedented mark. Muddy surface water was yesterday reported in the river and it is thought the rains served alignly to improve conditions on the Upper Williamette. As the Government snagboat Mathloma needed another foot of water so that she could work to advantage, steamboatmen have no expectation of resuming operations to valley points utuil after at least a week's uninterrupted precipitation.

Damage to Heather Slight.

Damage sustained by the lighthouse tender Heather, in going aground at Warrior Rock, from which place she was floated and reached Astoria yester-

Riveting has been commenced at the plant of the Willamette Iron & Steel Works on the last steel barge under construction, which was contracted for by a local paper mill. Five barges of the type have been launched this season and are in commission. Others probably will be built next year, but no contracts are anticipated during the Winter season.

Butler Brings Barley Here.

Though this port annually ships millions of bushels of wheat to San Prancisco, the latter harbor is also supplying Portland with grain, for the steamer Jim Butler is loading her hold with barley and will sail north this week. She is to discharge at Couch-street and Irving

Marine Notes.

To remove a bothersome shoal opposite the Cowlitz boom, the Port of Portland dredge Columbia has been shifted from Hunter's. Repairs having been completed yester-

day, the steamer La Crosse, owned by the Wind River Lumber Company, was launched at Supple's. Loaded with railroad ties, a barge yes-

terday partly filled at the O. R. & N. slip, below Albina dock, but her deck remained on a level with the surface of the river. General cargo brought by the British ship Claverdon, from Antwerp, will not all be discharged at Mersey dock, as she will shift today to the North Bank dock to finish unloading.

In tow of the steamer Ocklahama, the

schooner George E. B'llings yesterday left up from Astoria and was berthed at St. Helens, where she will take on a lumber cargo for Sydney. Owing to high wind prevailing yester-day in the harbor, it was decided to use two towboats in shifting the big coaster Bear to the grain docks. She will sail for San Francisco this afternoon on the

Entries yesterday at the Custom-House included the oil tanker Asuncion, from Sen Francisco: Breakwater, from Coos Bay, and Saginaw, from San Francisco. The latter cleared for Raymond, Wash. for where she will sail today, and the others cleared for the return.

On the ferry James John, operating between St. Johns and the West Side, Captain C. H. Fuller has succeeded Captain Charles Spinner as master. On the steamer Agnes, Captain Robert Hutchings is in command, vice Captain Percy Davie

Because she files a foreign flag, the steamer Prince Rupert, owned by the Grand Trunk Pacific Railroad, which is Grand Trunk Pacific Railroad, which is to cruise in February to the Hawalian Islands, cannot take on passengers at Portland, Seattle and Tacoma, as was expected, but will have to embark them at Vancouver or Victoria, B. C. Though an ocean voyage is contemplated, the Government interprets the law to include Honolulu as a coastwise port.

NEW JURY CHARGED BAD BLOOD

Inquisitors October Judge's Instructions.

ONLY 19 DRAWN EXCUSED

Some of Those Subpensed Declare They Are Deaf, Some Have Sick Wives and Others Say They Are Invalids Themselves.

OCTOBER GRAND JURY FOR

M. M. Young, bookkeeper, \$33 Halsey street, foreman. J. O. Williams, carpenter, 189 East

I. F. Hastings, 785 York street Nick Thomas, laborer, 694 Guild

Elmer J. Wallace, sign painter, 257 L. M. Alley, carpenter, 1156 Rod-L. Gertz, dairyman, 397 Tillamook

Of the 110 names on the October jury list 19 were excused yesterday by Pro-siding Judge Cleland of the Circuit Court, and 25 were not found by Sher

Court, and 25 were not found by Sheriff Stevens' deputies.
Several of those subpensed were
deaf, some had sick wives at home who
needed their care and others were invalids themselves. Only in extreme
cases, however, did Judge Cleiand excuse the jurors, as the county is put to
the expense of paying for every juror
who is subpensed, whether he serves
or not.

Judge Cleland charged the new grand jury, it having been drawn at the morning mession of court. He called their attention to the laws punishing libel, prizefighting and selling liquor without a license, and told the jurors it was for them to inquire into the management of all public institutions in the county. But as last month's grand jury visited these institutions, be told them they need not do so unless they chose. The jurors were instructed to maintain

strict secrecy regarding their proceed-ings, and to inquire into every crime in Multinomah County of which they have knowledge or which may be called to

knowledge or which may be called to their attention.

He told them they are pot bound to hear evidence which will explain away a crime, but that if they have good reason to believe other evidence obtanable will explain the crime they should hear that evidence, thus avoiding putting the state to the expense of a trial with no probability of a conviction. M. M. Young was appointed foreman.

MORE DIVORCES NOW SOUGHT

Women and One Man Find Married Life Tiresome.

Three divorce suits were filed in the Three divorce suits were filed in the Circuit Court yesterday. One of them is that of Pauline Besskau against Gustave Besskau, a carpenter. She says he kicked her out of the house while they were living in Winnipeg, Canada, in 1904. She matried him at Winnipeg March 20, 1901. She says he earns \$190 a month, and asks for reasonable alimony and \$100 attorney's fees.

Sarah Jane McLeod wants a divorce from John C. MeLeod because he deserted her for five years, and from the time he returned until five months ago called her a fool. He is addicted to

called her a fool. He is addicted to drunkenness, she says. She married him at Orangeville, O. March 12, 1880. They have four children. She says her husband's cruelty compelled her to de-

sert him five months ago. George F. S. Kammerer filed suit charging Elizabeth Chapman Kammerer with having deserted him August 31, 1909. He says he married her July 2.

Waiter J. Scott, traveling salesman for a drygoods house, played crack-the-whip with his wife, according to the nilegation of Louise E. Scott in a divorce complaint filed in the Circuit Court. She says that in swinging her about the room by the arm he bumped her head against the sofa and other articles of furniture, and tore her clotharticles of furniture, and tore her clothing. He also choked her so badly as to leave finger prints on her throat, she eays. A threat to kill is also alleged. She wants \$5000 in a lump sum as allmony and \$250 attorneys fees. Her husband earns \$100 to \$250 a months, she says.

Gansneders Estate Is \$9261.48.

Jacob Gansneder's estate, valued at \$9261.48, was admitted to probate in the County Court by Judge Cleeton yesterday, and his widow, Mary Gansneder, was appointed administratix. He died in Pacific County, Wash, August 22. The appraisers appointed are Henry J. Allehoff, W. H. Bailey and A. R. Zeller.

Bennie Linton Convicted of Theft. Bennie G. Linton was convicted in the Circuit Court yesterday of the lar-ceny of \$120, and was recommended to the leniency of the court.

BIG WAREHOUSE PLANNED

Saddlery Firm Lets Contract for \$50,000 East Side Building.

A. S. Winters & Company obtained the contract restorday for building the big warehouse of W. H. McMonles & Company, at the southeast corner of East Seventh and Hancock streets. This structure will cover a quarter block, 190 x190, and will be three stories high with a full basement. J. L. Wren is the stretchild.

architest.

This warehouse will have reinforced concrete walls and the interior construction will be heavy mill. The cost will be about \$50,000. Mr. McMonles was forced to take this property several years ago and has been able to hold it until now it is considered worth at least \$150,000. The expansion of the saddlery and harness heavy. \$150,000. The expansion of the saddlery and harness business of the firm made the erection of a new home imperative.

BAKER FIRE LOSS IS \$8000

Finishings for Federal Building Among Property Destroyed.

BAKER CITY, Or., Oct. 3 .- (Special.) BAKER CITY, Or., Oct. 3.—(Special)

—A fire of mysterious origin resulted in property losses of between \$7000 and \$5000 last night in this city. The Miller building, is a portion of which was stored the plate-glass and interior finishings of the new Federal building, is a total loss together with contents. This will delay completion of the building about sty weeks.

OFTEN INHERITED

Bad blood does not always come as the result of careless living, or indiscretions; it is a condition frequently inherited. Normal, healthy blood contains millions of tiny red corpuscles, which are the vitalizing and nourishing element of the circulation, their office being to provide every portion of the system with its necessary strength and nutriment. In weak, impure blood these corpuscles are lacking in numbers, and therefore the blood is not able to supply the proper amount of nourishment to the hody. Bad blood manifests itself in many ways, With some it takes the form of skin diseases and eruptions, others become bilious and malarious, with sallow complexions, torpid liver, etc. Bad blood produces Rheumatism, Catarrh, Sores and Ulcers, Scrofula and like troubles. Nothing is equal to S. S. S. as a remedy for bad blood; it is the greatest of all blood purifiers, only the qualities
