Majority Should Rule.

"We do believe, however, that the Republican party has ever been the party of progress and achievement and has ever met conditions as they have arisen and solved the many problems of government in a manner satisfactory to the people. We may with pride consider the unsurpassed periods of prosperity and development which have occurred when the affairs of this country have been entrusted to the party of Lincoln, Garfield, McKinley, Rooseof Lincoln, Garfield, McKinley, Roose-velt and Taft. Our party has ever been in complete sympathy and harmony with the wishes and desires of the ma-jerity of the voters. HILL PARTY GUESTS AT DINNER Commercial Club Host; Oregon Resources Topic of Toasts.

Their impressions of Portland and Oregon were told by several of the members of the Louis W. Hill party at an informal dinner given by the Commercial Club in their henor has night. Mr. Hill, who has heretofore displayed his optimism concerning the preservinities for colonization. opportunities for colonization in this state, again spoke enthusiastically of the resources of the state and particu-larly those of Central Oregon. "When I was in Madras last Spring,"

met to make a special effort to exhibit the products of that section at the Dry Farming Congress in Spokane, and he said he would. When in Spokane the other day I looked him up. result of the effort of one individual on 20 acres of land in Central Gregon.

"When such results as this are advertised throughout the country it will do more for the development of Oregon than any other one thing.

"Oregon presents a better field for colonization than any other state today, not alone because of the lack of development of a large portion of it, but also because of the fact that almost any variety of climate that may be found from Maine to Mason and Dixon's line, or between the Atlantic Coëst and the Mississippi River may be found in Oregon. In Roseburg last Spring we photographed palm trees growing out of doors as high as the second story windows. We heard of toa plants under cultivation on Coos Bay, and the roses—well, you people tea plants under cultivation on Coos

in Oregon may appreciate the roses, but
you do not fully realize what they are
as we do. Then over in Central Oregon is found a country where it sometimes gets so cold that the settlers, in
order to keep warm, have to cut some
of the juniper wood that the Government is conserving."

A brief talk was delivered by Ell Warner, president of the St. Paul Commercial Club, in which he complimented the Portland organization on the vin with which it took hold of any project that promised the upbuilding of the city or community. He expressed the hope that Oregon would continue to hope that Oregon would continue to plant orchards and grow fruit. The people of the Twin Cities, he said, were great fruit eaters.

The wheat situation was discusse? briefly by W. S. Jones, business manager of the Minneapolis Journal. Mr. Jones expressed the opinion that within a few years the United States woul? become an importer instead of an exporter of wheat and that the time probably was coming when the country would have to look to Organo. Washington and Idaho to maintain the wheat ington and Idaho to maintain the wheat supply for home consumption. He cited this point as one which should create an interest throughout the country in tha settlement of the uncultivated lands of the West

F. C. Knapp was called upon to speak in behalf of the Chamber of Commerce. A happy feature of his remarks was the reference to an early meeting in Minnesota with Mr. Hill, whom he said he met on the Great Northern railroad tracks one day checking up the tles piled along the right of way.

"The young man told me he had started in to learn the railroad busi-

ness from the ground up, said Mr. Knapp, "and that his father had told him to begin by counting all the ties plied up between St. Paul and the Pacific Const. I have not had the pleasure of meeting Mr. Hill again until tonight and I now welcome him to Portland, presuming that he has arrivel here after having finished the job." E. B. COURT IS IN QUANDARY

MEN TWICE NOMINATED PASS QUESTION UP TO JUDGES.

If Non-Partisan Nominees Are Refused Filing, Act Will Be Used Against Supreme Judges.

OLYMPIA, Wash., Oct. 5 .- (Special.) -Carrying out a publicly-announced determination to "lob" the present members of the State Supreme Court, Attorney J. W. Robinson, who was disbarred once by the court, and Thomas M. Vance, today presented to Secretary of State I. M. Howell a certificate of nomination by the recent nonpartisan judiciary convention at Tacoma, and demanded that the same be filed and that the names go on the of-ficial ballot.

Secretary Howell submitted the filing

to Attorney-General Bell for advice

to Attorney-General Bell for advice, pointing out that the nominees are identical with those filled some days ago by the Democrats.

Bell has taken the matter under consideration and may not prepare his official opinion for some time. Five of the Supreme Judges are candidates on the Republican ticket for re-election, leaving but four Judges to pass on the case in the event Secretary Howell recase in the event Secretary Howell rejects the filing, and Attorneys Robinson and Vance ask the Supreme Court for a writ of mandate to compel the filing. The state laws prohibit names of candidates appearing more than once on the official ballot. Knowi , such 's the law, and that the Supreme Court would be forced to deny the writ, it is said the purpose of the filing is simply to secure such denial, so that campaign orators may use such action as a basis for further attacks upon the present Judges. Mr. Vance outlined this plan to local Democrats before he went to Tacoma to attend the two conven-tions. Without such filing as was of-fered today, the names would appear on the ballot, only under the Demo-

on the belief, only under the Demo-cratic designation.

There is a possibility Attorney-Gen-eral Beil may spring a surprise on the attorneys. The laws, which make him official adviser of state officers, nowhere fix any time limit within which he must render such advice. If he simply pigeonholes the matter until too late to get on the ballot, there is said to be no legal way to prevent such ac-

to be no legal was to the non-partisen on Bell's part.

The point has been raised that the recent meeting of the Non-Partisan League at Tacoma was not a convention, within the meaning of the law.

Hair Began to Grow Again and Now

"When my little daughter was about five years old, she was taken with the measles. A few weeks after the measles were gone, she began to have a severe scalp humor. It itched so that she would scrakeh the whole day, until the blood came. We had a doctor and tried a good many other remedies, but nothing helped. Her hair all fell out and the scalp itself had an unpleasant odor.

"After we had tried all the other remedies, my wife told me to try the Cuticura Remedies. We bought one cake of Cuticura Ointment. We used the Cuticura Remedies according to directions and in about three or four weeks her scalp was perfectly clear of the terrible humor. Here is it began to grow again and now she has beautiful, long hair. Since that time I have recommended the Cuticura Remedies to other people and they also had success. Chas.
