Covered With Dust and Explaining He Was Hit by Automobile, J. F. Moore Is Picked Up From Streets-No Bruises Found.

Moore left the institution last night with the strong box containing the money of the contract patients and hospital corps. amounting to \$500.

The theft was discovered this morning when Oranno Abberso, a sub-contractor on the Natron cutoff, arose to leave the haspital after recovering from an injury by a premature binst. When he called for his money the superintendent of the hospital found that the desk had been pried open and the box and contents taken.

pried open and the box and contents taken.

Moors was at once suspected and his absence discovered. Today the box was found empty near the planing mill. Some of the money was in checks and drafts.

Two weeks ago Moore applied to Dr. T. W. Harris for work at the hospital. The doctor referred him to another member of the staff, but no place was made for him. On the last night of the county fair, Moore was picked up in the street covered with dust and appeared to be hurt. He said an automobile had run him down and he asked to be taken to the General Hospital.

No hruises could be found to indicate that he was struck and it was thought by some of the doctors that he was faking. After a few days he seemed all right and was given work as an orderly. Twice money was missed and he was suspected, but nothing could he proved.

The superintendent of the hospital retired at 18:15, and Moore stole the money some time between that hour and 4:20 this morning.

Moore is shout if years old, 5½ feet high, of sandy complexion with hushy, sandy hair. He is slightly stooped and walks with a swagger. He gave the hospital authorities a number of references which they followed up, but from which they have not yet heard.

He said that funds could be arranged for within two weeks and construction begun without delay.

Counsel for plaintiff argued that the defendants had falled to comply with the terms of the lease. The terms provided for annual payments ranging from \$20.000 a pear until 1917 to \$103.558.16 a pear for the last eight years of the life of the lease. The lease was executed February 23, 1907.

Mr. Pittock testified that the leasees had not lived up to their agreement and that only about \$11,000 had been paid by defendants in rent and for assessments. He said that no rentals had been paid since September 1, 1907, and that he was compelled to pay the taxes and assessments against the property to prevent its confiscation.

Hair Health

The only way to cure Constitutional Blood Poison is to REMOVE its cause from the blood. Trying to kill the germs within the system or counteract disease cells in the circulation with powerful mineral medicines not only always results in failure, but also weakens the more delicate and vital tissues, and allows the original trouble to attack other portions of the body.

It is solely on the principle of purifying the blood that S. S. S. cures Contagious Blood Poison, and it does this because it is the one blood medicine that is able to remove every particle of the insidious virus from the circulation. It does not work on the principle of killing one poison by taking another, or trying to dry up the germs in the blood, but S. S. S. cleanses the circulation and REMOVES the cause.

Contagious Blood Poison is a deceptive and stealthy trouble. begins in an insignificant manner, usually the appearance of a tiny pimple or sore being the only outward evidence of its presence. down in the blood the treacherous infection is at work, and in a short time the victim finds his body is affected from head to foot. mouth and throat ulcerate, skin eruptions break out, sores and ulcers appear on the body, brown splotches disfigure the skin, the glands in the groin swell, and as the poison becomes more thoroughly saturated into the blood the hair and eyebrows come out.

Contagious Blood Poison is too dangerous to trifle with. Medicines which merely check the progress of the poison for a time and leave the insidious germs smouldering in the blood, have brought misery and disappointment to thousands. Faithfully they took such treatment for months, perhaps years, only to find when it was left off that the vicious disease was ready to crop out again in all its former destructiveness.

Contagious Blood Poison can be cured only when the blood has been made pure. This is just what S. S. S. does and has been doing for forty years, and it does it so perfectly that not the slightest trace of the old infection is left to cause trouble in the future. S. S. S. goes into the circulation, and while removing the cause makes the blood fresh, rich and healthy. This causes a general upbuilding of the entire system, and when S. S. S. has made a cure in a case of Constitutional Blood Poison the patient experiences a change to vigorous, robust health.

58 Clinton St., Newark, N. J. S. S. S. is made entirely of roots, herbs and barks. It does not contain the slightest particle of Mercury, Potash or any other mineral substance to upset the stomach, affect the bowels, or inflame the delicate membranes and tissues of the body. On the other hand it is a fine tonic, made entirely of botanical ingredients which aid the system in every way to overcome the effects of Contagious Plood Poison.

We have a specially prepared book on Home Treatment of this trouble, which contains much valuable information to be found nowhere else. We will send this book without charge to all who write and request it. We will also give free any medical advice you may ask for.
