Professor W. L. Carlyle, dean of the Idaho Agricultural College, in his address on "Livestock Breeding and Feeding," said:

"This country is the best dry farming district in the world," said Professor W. H. Jardine, of Kansas, in speaking on the subject "Selecting Dry Farming Land."

"I have seen many settling on land with too small information and under false impressions, and other factors besides soil and rainfall to be considered."

Many Addresses Given.

Carlton P. Bell, of the Bureau of Plant Industry in the United States Department of Agriculture, spoke on "Grain Sorghum for the Dry Land."

Others who addressed the congress were Professor Henry D. Scudder, on "Dry Farming in Oregon,"

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. I grew stronger, and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 215 Second St., North, Minneapolis, Minn.

Thousands of uncollected and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

FRESHMAN'S LIFE HAPPY

WITH JUNIORS AS GUARDIANS, THEY ARE NOT HAZED.

Newcomers at Oregon Agricultural College Are Not Even Compelled to Organize Unassisted.

OREGON AGRICULTURAL COLLEGE, Corvallis, Or., Oct. 6.—(Special.)—No more trembling freshman, no more fears of a cold bath in the fountain, no more tiresome night vigils in guarding the girls' dormitory, for things have changed at the Oregon Agricultural College and in place of these horrors awaiting the timid "frookies," he is welcomed with open arms, protected and guided by the wily juniors.

Happy indeed is the life of the verdant youngsters under the new order of things.

The "frookies" are not even left to wrestle alone with the trying problems of class organization. Yesterday they met and were guided through that ordeal by their friends and self-appointed guardians and not a sophomore appeared to mar the peaceful proceedings.

The following nominations were made: President, Jack Forbes, of Portland; Wilcox and Hays, vice-presidents, Ruth Hawley and Miss Mays; treasurer, Melvin Hall and Weston Rider; athletic manager, F. M. Montgomery; G. C. Howard, McCreedy and May; for yell leader, J. W. Richardson and Harry Young; and for class reporter, W. K. Peavey and A. C. Foster.

HUNTER KILLS HUNTRESS

Mrs. Samson Fatally Shot While Shooting Near Tacoma.

TACOMA, Wash., Oct. 6.—Mrs. Swan Samson, one of the best-known woman hunters in this part of the country, was accidentally and fatally shot yesterday while hunting deer at Silver Lake about 25 miles north of Tacoma. She lived about seven hours.

With her husband, she went to the home of Torger Peterson, a member of the Board of County Commissioners in the Chop Valley last Saturday to prepare for the hunt. Yesterday morning they were out with Peter Peterson, son of Torger Peterson, and were stalking a buck. Mrs. Samson was in a canoe on the lake, while her husband was on shore. Suddenly a shot rang out from Peter Peterson's rifle and Mr. Samson saw his wife throw up her hands and fall back into the boat. He swam to the canoe and brought it to shore. The wounded woman was removed to a hospital and physicians were summoned from Tacoma.

It was about 3 or 4 o'clock when the accident happened and it was 3 P. M. before the surgeons arrived. They found the bullet had entered the ab-
